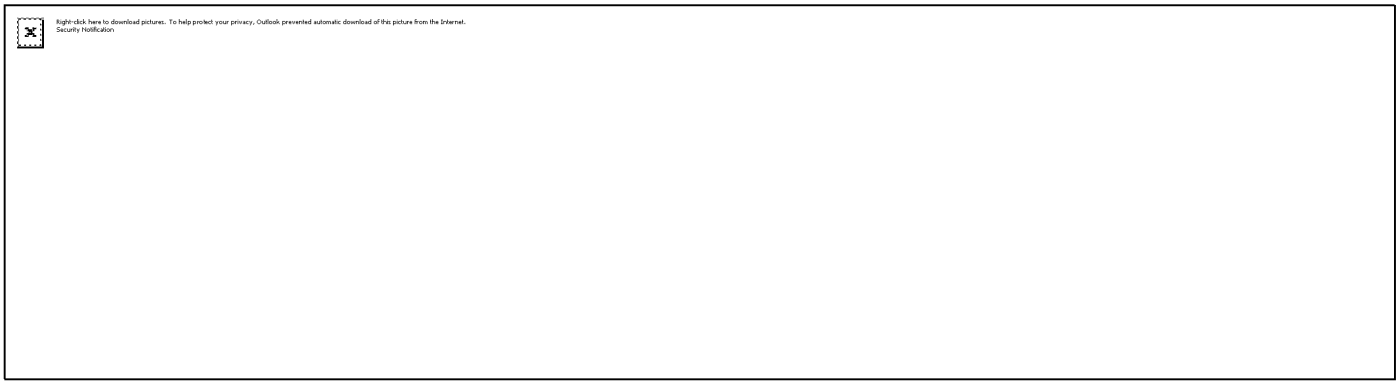
Subject: Facility Notification: Constitution Hall



Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Fwd: Water Crisis in Flint

Greetings! To all my peeps who have a Michigan connection.
I'm forwarding this message from a friend to raise awareness about the water crisis in Flint, MI and to contribute to a fund, see below. Please pass this on.

Hi All, I am reaching out to folks in my "rolodex" with a Michigan connection. The situation in Flint is really dire with people continuing to get sick (and dying) and not being able to access clean drinking water. Please share this link for a local water fund being run by the United Way with your networks--Flint Water Fund. Alternatively, you could donate through the local Red Cross. There is a real need for filters and bottled water until there is a long-term solution. Thanks so much for listening and sharing this information widely.

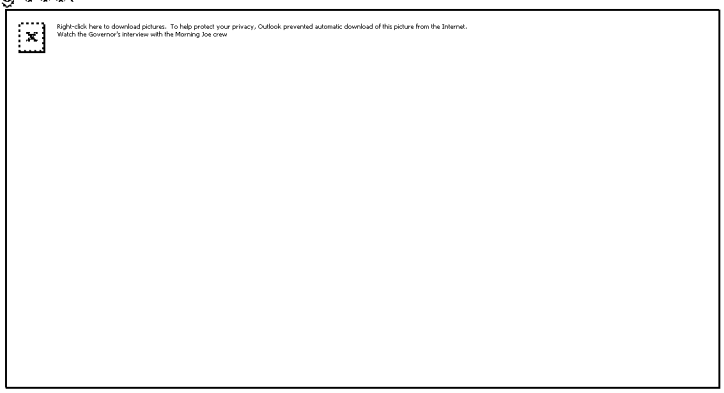
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

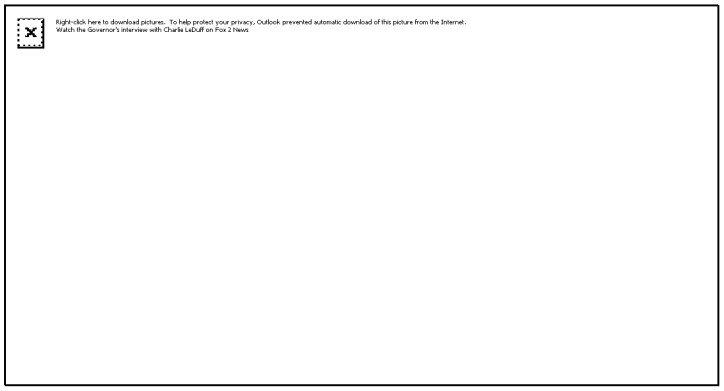
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

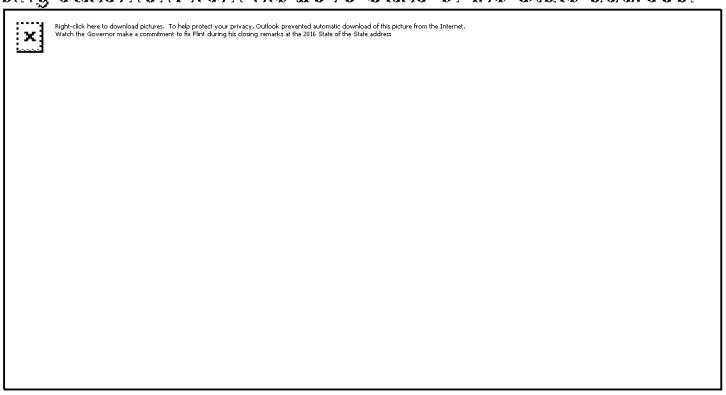
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

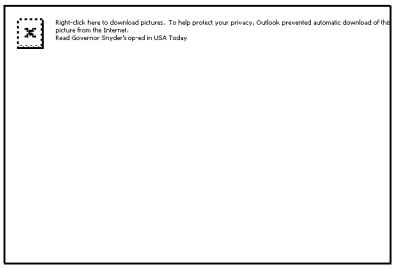


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

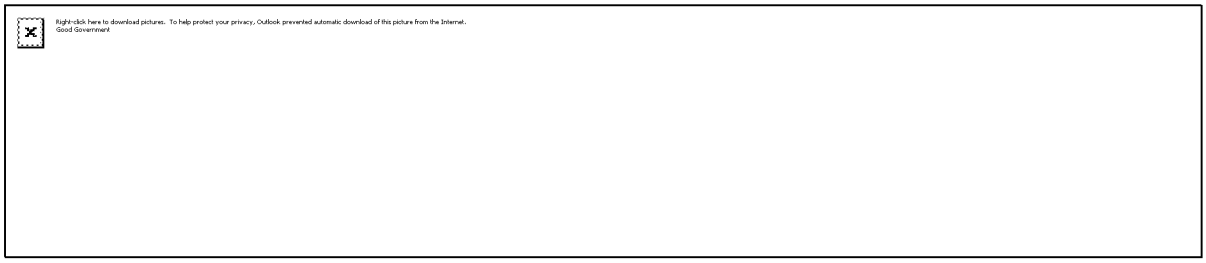
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

DTMB Header 10.22.15

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

H2O

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: Speeding into a Prosperous New Year

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Michigan Business Network

Hi Genevieve,

It seems like just yesterday we were clinking our glasses of champagne and ringing in the New Year. Somehow, with barely a breath taken, January is coming to a close. Is it just us, or is 2016 flying by? We are happy to report, however, that business this year is off to a great start! We'd love to hear how your business is doing thus far as well. Email us!

The MBN team has been busy on the road this month covering important statewide events. Additionally, we have leveraged the time and talent of the industry experts, who assist in creating the great shows for Michigan Business Network.

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Read Article Here: http://www.michiganbusinessnetwork.com/blog/patrick-heller-liberty-coin-honored-with-outstanding-service-award

For instance, Patrick Heller has been off to Florida, covering an event that will air in coming weeks on *Dollars & Sense*. Meanwhile, our congratulations go out to Patrick as he recently received a national award which you can read more about here.

Photo by DEREK KLEIN

Also, our auto reporter extraordinaire, Steve Purdy, made it back safely from driving a leg of "The Drive Home." You may have heard about his experience with his report, which can be found by clicking here. He has since gone on to do MBN's on site coverage of the world-wide event, North American International Auto Show. Additionally, Steve will be taking to the road again this week, and learning

all the ins and outs of The Michigan International Auto Show coming up in Grand Rapids.

Road shows are not uncommon for our hosts; for example, Taylor Kelsaw recorded some of his December segments of *Show Biz Weekly* from California. We often catch up with Jim Wardlaw of *Pocket Change*, while he is in the State of New York rather than his Michigan offices.

February's schedule already has some events planned for our road team, so if you see us out and around, please stop by and say hello!

Thanks again,

The MBN team

Top Stories of the Week

Here are a couple top stories of the week. But there's a lot more good stuff below! Be sure to keep scrolling so you don't miss anything.

Are You in a Social Media Quagmire

Chris talks with Candy Jones-Guerin, of WebWorld Advantage, about the social media quagmire. It takes a real effort to stay on top of it, needing continual policing and regulating. Constant Contact did a study and the average cost to businesses for social media is $273 an hour.

Candy shares a five-step approach to handling social media in your business, so you can get out of the quagmire!

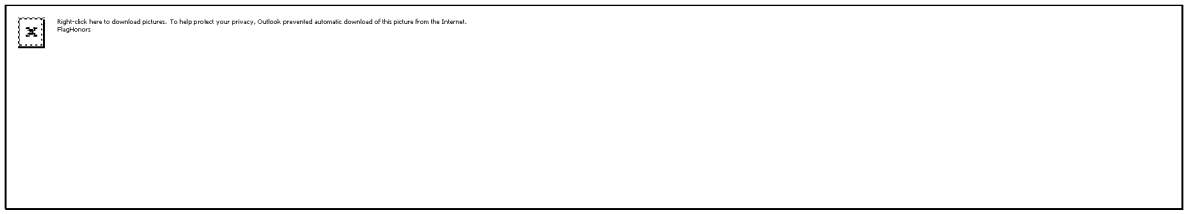
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: Michigan Talent: Challenges and Solutions

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Michigan Business Network

Hi Genevieve,

If you recall in the most recent Accident Fund Insurance Company's Michigan Future Business Index, the number one challenge to businesses in the state of Michigan is securing and maintaining talent; quality employees who bring value to the company. With that in mind, it is important we think about where those employees come from. Invariably, they come from an educational or training system. Most employers realize that no matter how well prepared an education or training system makes an employee, there is going to be continued training required by that new employer, before the employee brings value to the company. The real problem occurs when that potential employee comes to the company unprepared or ill-equipped to make use of their training. It's very similar to giving a college scholarship to someone who isn't college ready. It turns out to be an incredible waste of everyone's time.

There are a variety of reasons why people are not ready to be trained, but the reason really doesn't matter that much. At the end of the day, they're simply not ready. They won't help us. So, what do we do? We get involved in the training programs. Get involved in the schools. Get involved in mentoring, internships and any other initiative we can think of to give us an edge in this talent competition. It is our challenge as business people. Let the solution to this problem be ours as well.

Have a prosperous week,

Chris Holman
MBN Founder and CEO

Top Stories of the Week

Here are a couple top stories of the week. But there's a lot more good stuff below! Be sure to keep scrolling so you don't miss anything.

Grand Traverse Pie Company Using Michigan Honey

Chris Holman talks with Mike Busley, of Grand Traverse Pie Company. They currently have 15 Grand Traverse Pie shops across Michigan and Indiana, with the first opening 20 years ago. It all started in Traverse City.

Mike is traveling around the state promoting National Pie Day, which is on January 23. On this day Grand Traverse Pie Company offers a free slice of apple or cherry crumb pie at its stores. In addition, Mike is promoting their latest member to its pie family, the Michigan Apple Honey Pie. There is no sugar in this pie, just Michigan honey harvested at Sleeping Bear Farms. The bees on this farm are critical to apples and cherries, as well as the honey in this pie.

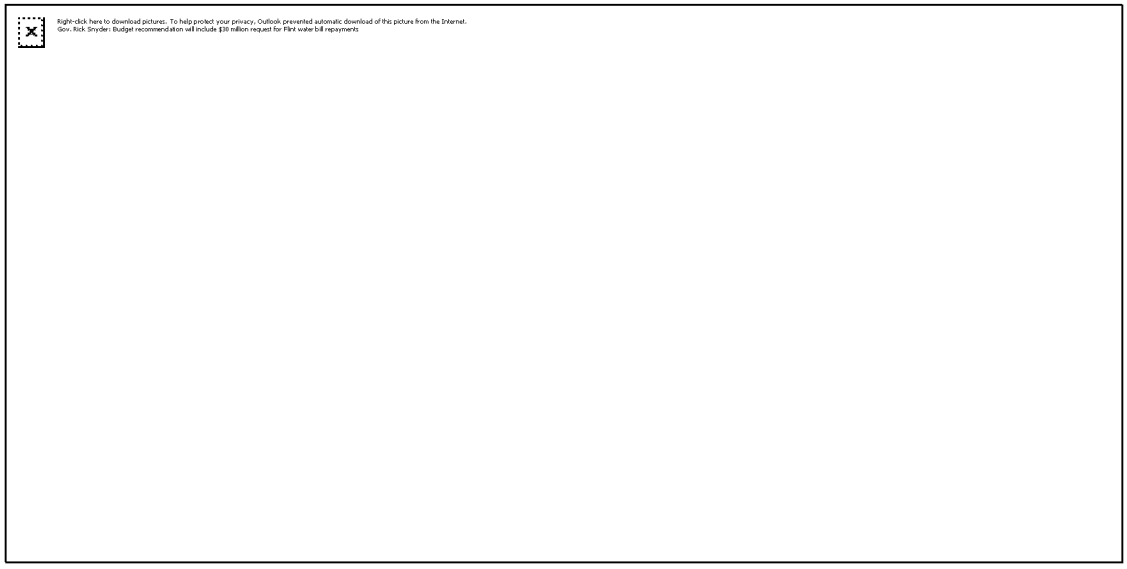
To: Hayes, Genevieve (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



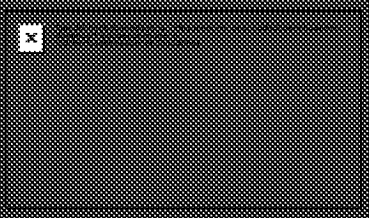
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

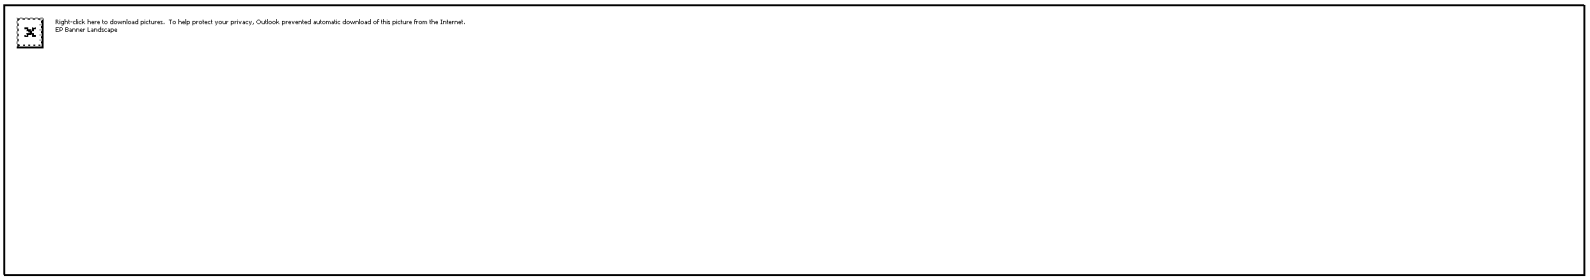
Subject: Enterprise Procurement: Vendor Sales for Flint Purchases



Enterprise Procurement,

Vendors who are interested in selling goods or services to the state to assist in the Flint water emergency should be referred to the "Flint Emergency Purchasing" portal found on the Contract Connect website.

By submitting their information through the portal, we ensure that all solutions are collected and reviewed by the appropriate parties. Vendors should also register their businesses on www.Buy4Michigan.com and on the Contract and Payment Express at www.michigan.gov/cpexpress.

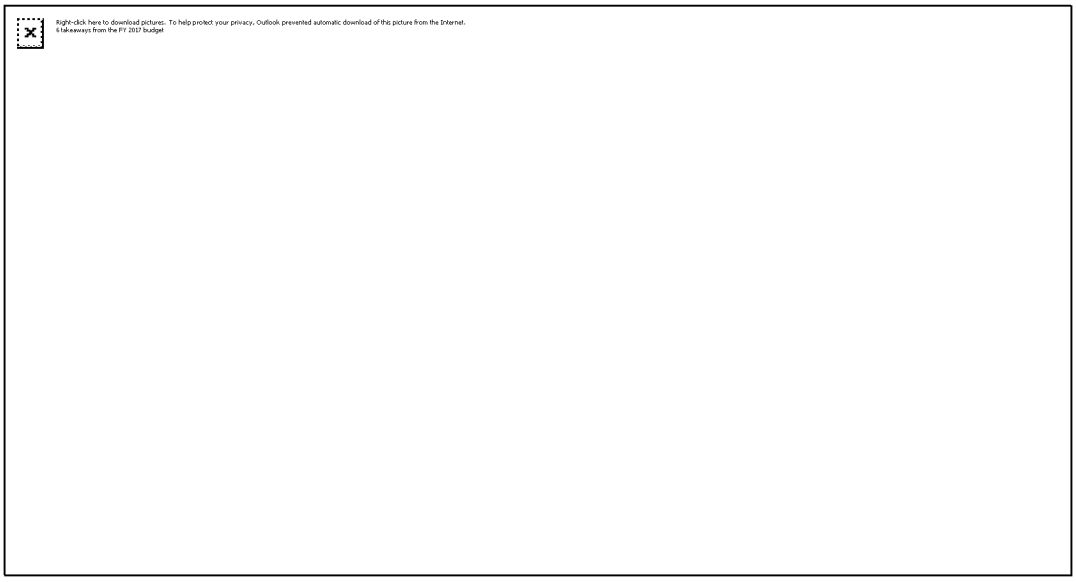
VIDEO: What Governor Snyder's FY17 budget means for Michigan



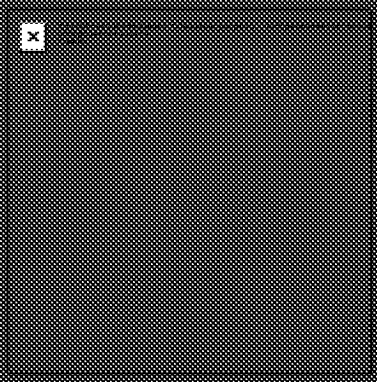
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Please call me or Jean if you have any questions.

Brom

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

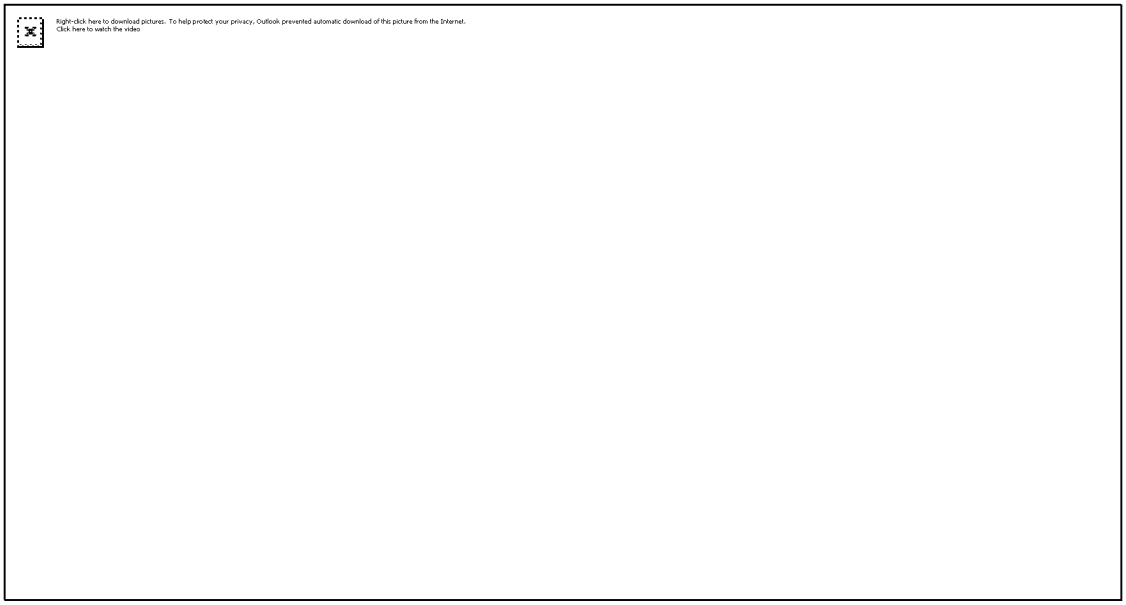
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

New Best Practice

The Place of Public Procurement Within The Entity

The placement of Procurement should be operationally distinct from other departments and divisions.

The 'Place of Procurement' refers to positioning Procurement within the entity to optimize the influence and impact of Procurement on internal and external stakeholders.

This best practice builds a case for the strategic placement of the Procurement function. This placement maximizes the effectiveness of Procurement within the entity and is critical for the entity to fully benefit from Procurement operations.

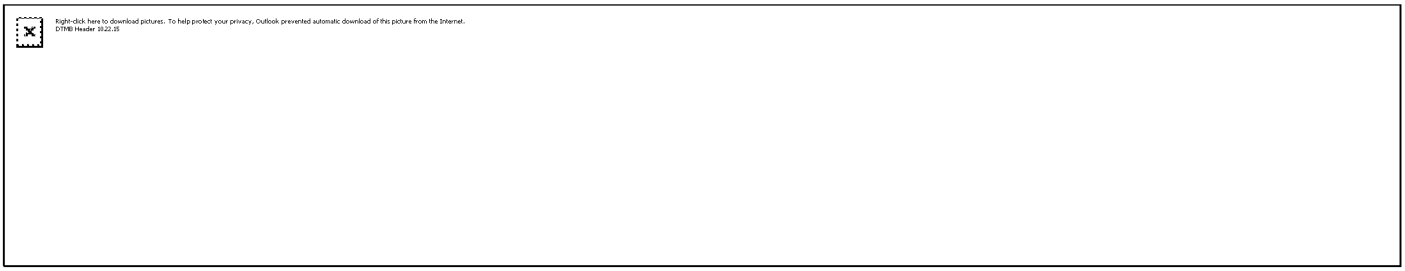
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

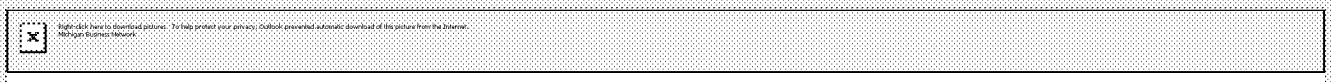
Subject: Is Education Necessary to Succeed in Business?



Hi Genevieve,

Not only is education a fundamental building block to so much of our society, but it also plays a sizable role in many aspects of business. That is why, besides talking about how the right forms of education can help alleviate the talent gap in Michigan's labor market, Michigan Business Network makes it a point to gather programming about education and its impact on business.

This is our second periodic look at a category of our online content on Michigan Business Network. We are proud to take a step back and re-introduce some of our great contributors to you.

Jeff Croley and Jason LaFay, who are public school teachers in Dewitt, MI, aim to share the voice of K12 innovation. They not only do some of the interviews, but often hand the microphone over to students who capture great interviews with people influencing schools, and leaders from across the state. In order to better understand what is happening in schools, it is important to provide a narrative of how education is evolving. To ensure a new generation is adequately prepared, driven, and passionately ready for the workforce, old divides must be bridged.

Meanwhile Karl Klimek is President of 2 Perspectives: Learning Through Leadership, a Michigan-based education consulting team that supports innovative and relevant teaching in schools. He serves as the Executive Director of the Square One Education Network, a nonprofit operational foundation that incorporates brain/mind learning theory

and practices in schools, with a special focus on innovative science, technology, engineering, and mathematics (STEM) projects. He is the lead author of *Generative Leadership: Shaping New Futures for Today's Schools* (2008, Corwin Press), and offers leadership coaching and presentations to schools and companies throughout the country. With his show, educational stories come from all over Michigan.

If you have a chance this week, check out their blogposts, and learn more about how education is impacting business in Michigan.

- "Students United, Mobile Minds Flipping Society", with Jason LaFay and Jeff Croley.

- "Education's Business, Taking Positive Actions", with Karl Klimek.

Have a prosperous week,

The MBN Staff

Subject: RE: Tuesday, Feb. 9 update from the Flint Water Response Team

LANDSTAR

Emergency

Transportation Services

- We Can Help!

- 293,809 cases of bottled water have been distributed in Flint since January 9th = 705,120 Bottles of water
  - 705,120 Bottles of water = 11,916,528 Ounces of water
    - 1 Water Tanker Holds 832,000 Ounces of water
    - 11,916,528 Ounces of water = 14 Water Tankers
- Recycling can handle only so much volume - Water Tankers = No Pollution of bottles in the City Landfills

Dear Logistics Chief,

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply in Flint. We can strategically position Tanks around the city to support both public facilities & the local residential communities.

Tankers

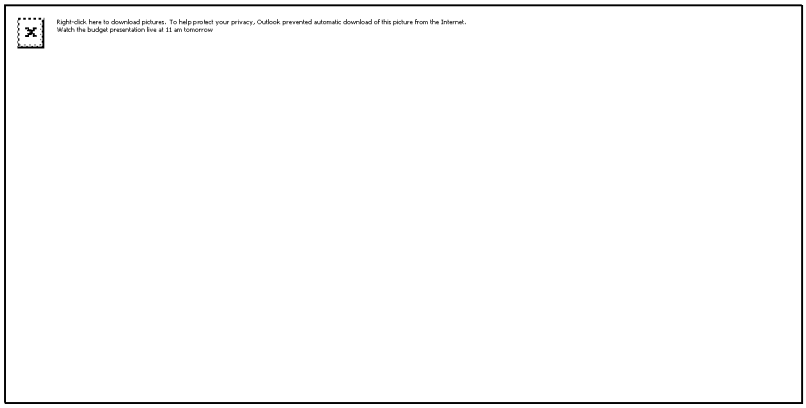
February 9

This daily update is being issued in order to provide the latest information regarding actions and available resources.

LIVE at 11 AM tomorrow: Governor Rick Snyder presents his FY 2017 budget



Governor Rick Snyder will present his FY 2017 budget live tomorrow at 11 am. You can watch it at www.mi.gov/MIBudget. Join the conversation online using the hashtag #MIBudget.

Over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency

Volunteers are coordinated through the Volunteer Reception Center, operated jointly by the American Red Cross and United Way of Genesee County. These volunteers have performed numerous tasks throughout the community from delivering water resources door-to-door to assembling water test kits. Click here to learn more.

Outreach to Flint's blind community helps ensure access to information and resources

The Bureau of Services for Blind Persons (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency. Bureau staff contacted nearly 40 BSBP clients living in Flint by either home visit or phone to ensure they had access to all health-related water emergency information and to offer assistance in obtaining bottled water, filters, water replacement cartridges and water testing kits.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 293,809 cases of bottled water
- 104,256 water filters
- 210,596 replacement cartridges
- 35,499 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up

- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.

Dr. Mr. Solomon,

Thank you for your recent submission to the State of Michigan's purchasing department. All vendor submissions to assist the Flint emergency will be reviewed. You may be contacted by state representatives for additional information regarding your product or service. Not all vendors will be contacted to provide additional information.
We encourage you to register your business on the state's bid posting website www.Buy4Michigan.com. This is where the state will post contract opportunities $10,000 and above. The state is required to competitively bid the purchase of most goods and services.
You may also register your business on the Contract and Payment Express which is the state's electronic fund transfer system. In the event that you are awarded a contract or the state would like to make a purchase from your company, registration on this website will ensure you are able to be paid. Visit www.michigan.gov/cpexpress.
For more information on the state's contracting process, please visit the Contract Connect website at www.michigan.gov/micontractconnect. The Contract Connect website will provide you with training tutorials, purchasing laws and policies, and much more.
Thank you again for your submission and readiness to assist the residents of Flint.

Sincerely,
Department of Technology, Management and Budget – Procurement DTMB-micontractconnect@michigan.gov

SPECIFICATIONS
Annual Fire Pump Testing and Inspection
DTMB Managed Facilities - Statewide

PURPOSE
Provide an annual test and inspection service for fire pumps per the following specifications. Service shall be performed in accordance with currently adopted local and national codes including, but not limited to, NFPA 25.

TERM
Three (3) year contract, beginning October 1, 2013, with the option for two one (1) year extension.

PAYMENT
Invoices shall be submitted within 30 days after completion of service and receipt of test report. Invoice shall include building name and purchase order number. Invoices shall be for actual service provided. Invoices shall be sent to:

Office of Infrastructure Protection
Safety Services Supervisor
615 West Allegan Street
Lansing, MI 48933

WORKING CONDITIONS
All work shall be done in accordance with all regulations governing the state agency wherein the work is to be performed and with minimum possible interference with the property functioning of the activities of that state agency. Materials, tools, etc., shall be confined so as not to unduly encumber the premises. The contractor shall be held to have visited the site prior to submitting a proposal for this contract and checked with the authorities the working condition and the methods of carrying out the work and to have included in the contract amount, all costs for meeting such working conditions.

WORKING HOURS
Testing services shall be performed between the hours of 7:00AM and 5:00PM, Monday through Friday except State holidays and any Local Codes, or at the discretion of DTMB Office of Infrastructure Protection Safety Services Supervisor. Quarterly meetings may be held at the discretion of the Office of Infrastructure Protection Safety Services Supervisor to review contract compliance.

TEST AND INSPECTION PROCEDURES
Testing shall be performed in accordance with currently adopted local and national codes including, but not limited to, NFPA 25. Contractor shall schedule service with Office of Infrastructure Protection Safety Services Supervisor, or designee, ten (10) days in advance. Testing will be completed one building at a time.

TESTING REQUIREMENTS
Contractor shall coordinate with Office of Infrastructure Protection Safety Services Supervisor, or designee, the removal of the fire alarm control panel from service prior to arrival. Contractor shall notified DTMB Central Control and the local Fire Department prior to testing. Upon

completion of testing, contractor shall notify DTMB Central Control and the local fire department that the pump is back in service. Contractor shall coordinate with DTMB Office of Infrastructure Protection Safety Services Supervisor, or designee, the placement of the fire alarm control panel back into service prior to departure.

I. Motor Driven Pumps

- Drop pressure and record start and stop pressures of jockey pump
- Operate jockey pump stop push button and record findings
- Operate jockey pump start push button and record findings
- Open jockey pump disconnecting means and ensure that all power is disconnected
- Drop pressure and record start and stop pressures of Fire Pump
- Run fire pump for a minimum of 30 minutes
- Check and record motor voltage and amperage (each phase leg)
- Check relief valve for setting and flow
- Observe for excess noise, vibration etc. and record deficiencies
- Check bearings for excessive vibration or excessive heat
- Record suction and discharge pressures at Churn
- Record suction and discharge pressures at 100 % of rated capacity
- Record suction and discharge pressures at 150 % of rated capacity
- Operate fire pump control panels stop pushbutton and record findings
- Operate fire pump control panel start pushbutton and record findings
- Open disconnecting means and ensure that all power is disconnected
- Check fire pump packing for proper leakage
- Drop pressure to ensure jockey pump will start and stop before fire pump is energized
- When testing complete place back into automatic service
- Place fire alarm control panel back in service

II. Diesel Pumps

- Clean battery terminals
- Record fuel level
- Grease fire pump coupling
- Record specific gravity of battery
- Report on condition of belts and hoses
- Change engine oil and filter(s)
- Change engine cooling solution and record temperature rating
- Replace fuel filter
- Clean or replace air filter
- Check / drain water separator
- Clean water strainers if applicable
- Verify operation of cooling water solenoid if applicable
- Report on condition of engine exhaust system
- Report on fuel line condition
- Ensure engine starts on EACH Battery
- Ensure engine starts with manual start button
- Ensure engine starts with drop in water pressure and record the starting pressure
- Record engine running temperature
- Record engine running oil pressure if available

REPORTS

A copy of all reports shall be provided to:

Office of Infrastructure Protection
Safety Services Supervisor
615 West Allegan Street
Lansing, MI 48933

1. All devices will be marked up on building prints for scheduled services. A comprehensive evaluation of system shall be prepared by contractor. The evaluation shall include recommendations and price of labor and materials.

2. Test results along with a list of deficiencies shall be recorded during each service and shall be provided within 15 days of service.

3. A detailed price quote will be provided to repair the deficiencies identified during testing.

EMERGENCY SERVICE
Contractor shall respond within four (4) hours of requests for emergency service. **A separate purchase order shall be issued for all emergency and non-emergency service calls.**

BID DOCUMENT

Bidders Qualification

NFPA 25 (Water-Based Fire Protection Systems) - These tasks shall be performed by personnel who have developed competence through training and experience.

Bid

Bidder shall provide two separate costs: one for completing the work during normal business hours (Monday through Friday, 7:00AM - 5:00PM, except State holidays) and one for completing the work after normal business hours (Monday through Friday, 6:00PM - 6:59AM, Saturday & Sunday, 7:00AM - 5:00PM)

Annual Inspection & Testing – Normal Business Hours
(Monday through Friday, 7:00AM - 5:00PM, except State holidays) $_____

Annual Inspection & Testing – After Business Hours
(Monday through Friday, 6:00PM - 6:59AM, Saturday & Sunday, 7:00AM - 5:00PM) $_____

Bidder shall provide quote for hourly labor rate costs for additional services. The State is not obligated to purchase any additional services.

Labor Rate

Monday thru Friday 7:00 AM to 5:00PM	$_____/HR
Monday thru Friday 5:01PM to 6:59AM	$_____/HR
Weekends and Holidays	$_____/HR

ITR Integrated Threat Report

DTMB Office of Infrastructure Protection

March 2013 Volume 3, Issue 3

The Integrated Threat Report (ITR) is a monthly publication documenting threats directed at State of Michigan employees and resources. This document has been prepared by the Department of Technology, Management and Budget's Office of Infrastructure Protection (DTMB OIP) with the goal of sharing information among departments to enhance the security of state employees and property. Please contact the DTMB OIP at (517) 241-4391 or DTMB-Security@michigan.gov for more information.

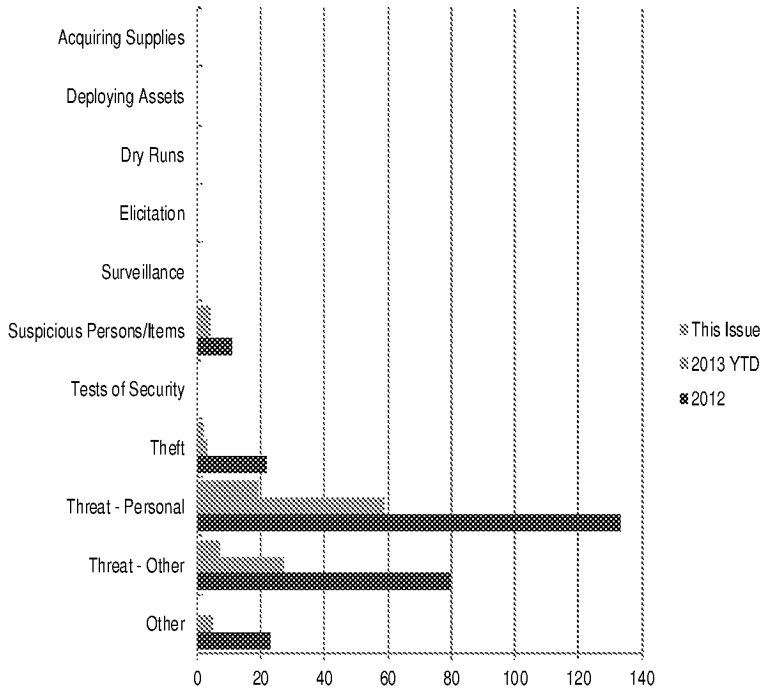
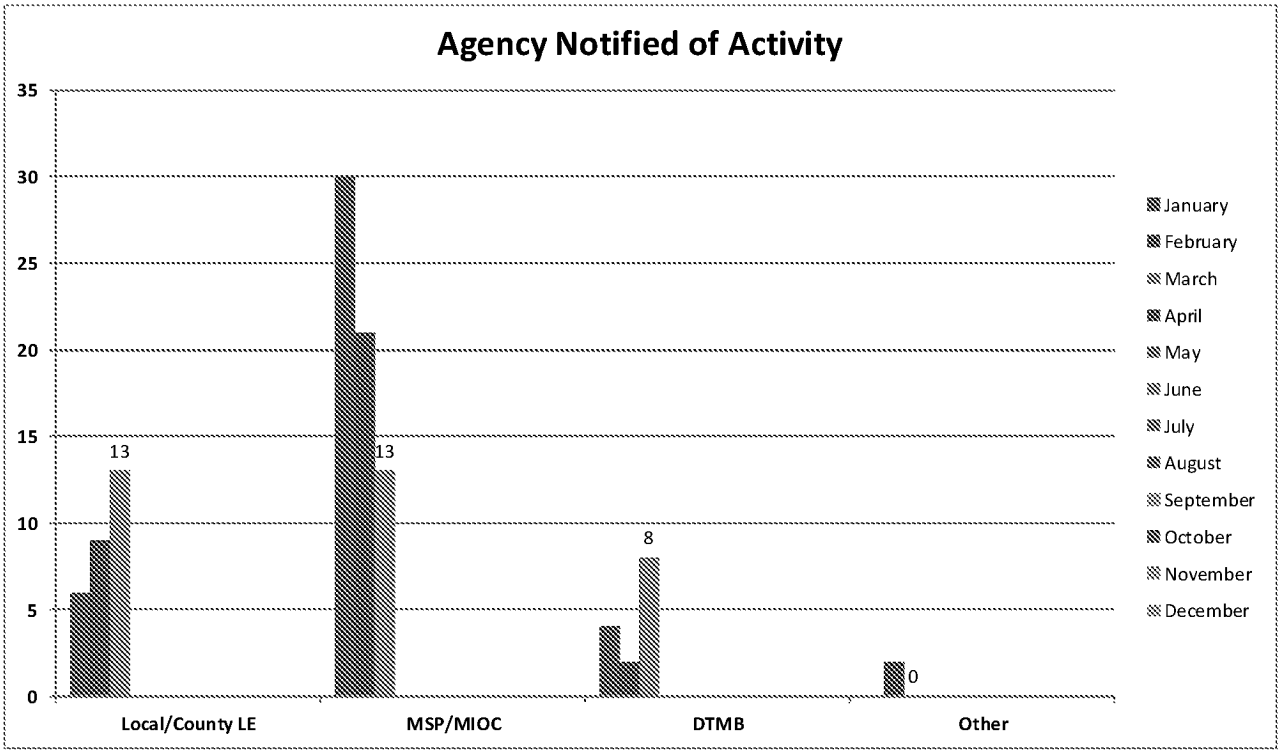
Activity By Type



Overall activity, for the month of March 2013, was high compared to previous reports, with thirty-two (32) incidents reported. Of the thirty-two incidents, nineteen (19) were personal threats towards state employees, seven (7) were general threats directed at the State of Michigan, four (4) were suspicious persons/items, and two (2) were thefts.

DATA ANALYSIS



NOTE: Total number of agencies notified may be more than the total number of incidents due to multiple agencies being notified

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 1, 2013, a woman reported to a Human Services employee that a man threatened to "put a bullet between her eyes" if the employee entered his apartment to remove his child. At the time of the threat, the woman reported that man had a pellet gun in his possession.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030113-071

FOLLOW UP: Local police forwarded the incident to the County Prosecutor's Office for review.

Threat - Personal

On March 1, 2013, a Human Services employee was on a conference call with a male client and a representative from Michigan Works! Association. During the call, the man was being triaged for his third warning for bringing a knife to the Job Education & Training (JET) program at Michigan Work! Association. When the employee was explaining why he was being triaged, the man stated "be thankful I left my gun in the car!"

ACTION TAKEN: No police report filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030113-071

SUMMARY OF ACTIVITIES REPORTED

Threat - Other

On March 1, 2013, a Human Services employee received an email from an aide to a State Senator, regarding a conversation she had with a DHS client and her mother. The client's mother stated she was going to "buy up a bunch of guns and go shoot out the DHS office." The aide to the State Senator asked if she realized she was threatening to hurt and kill people at the County DHS office, the client's mother stated she was "completely aware."

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030113-072

FOLLOW UP: Local police responded to the home of the client's mother and warned the women that threatening a Human Service employee is a felony and any further incidents would be prosecuted under the full extent of the law.

Threat - Other

On March 1, 2013, during a meeting with a male client at a Human Services office, he stated "if I had a gun I would use it." He continued to say that he was a felon and does not own a gun but if he did he would "commit suicide." Later that day, the man came back to the DHS office and complained to an employee that he fell in the parking lot and was going to "sue the state."

ACTION TAKEN: No police report filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030113-073

FOLLOW UP: A DHS program manager contacted the man to address his concerns about his slip and fall accident. The manager also discussed concerns about the gun comment he made during his visit. The man stated that he will never use the word "gun" in the DHS office again.

Threat - Other

On March 5, 2013, a woman contacted Treasury to request a levy release since the funds in her account are Social Security income. The employee stated that the account did not show a levy on her bank account. The employee requested additional information from the woman in the form of a new bank statement showing the levy or a letter from the bank substantiating the levy payment. The woman stated that the bank refused to provide the information and stated she should "take a gun into Communicating Arts Credit Union" to get the information she needed. The employee advised the woman that was not an option the State of Michigan was requesting. The woman continued on with the conversation without further incident.

ACTION TAKEN: No police report filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030513-074

Suspicious Persons/Items

On March 5, 2013, a Community Health employee was approached by a white male (mid 20's) while walking to her car in a State-owned parking lot. The man fled the scene when he noticed other people in the area.

ACTION TAKEN: Community Health reported the incident to DTMB Office of Infrastructure Protection. DTMB ITR # 391-030513-075

FOLLOW UP: DTMB Office of Infrastructure Protection reviewed surveillance video but no persons matching the description were found in the area.

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 6, 2013, a Human Services employee received multiple threatening text messages on her phone from a client's daughter after a supervised visitation. The first message stated "You f****** ignorant stupid c***. Gonna send a poor child out to his dad that rapes him? You're f****** sick. I'm going to kill you." The second message stated "You worthless little maggot. Scotty was crying in the DHS office saying he doesn't want to go back to his dad cause he'll bomb DHS cause he doesn't want to get raped. How the f*** does that make you feel? You're f****** twisted. Go die in a f****** hole."

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-030613-076

Theft

On March 6, 2013, a Licensing and Regulatory Affairs employee reported to State Security in the a State-owned Facility that her vehicle had been stolen from the parking lot. Security asked the woman if a family member could have picked up the vehicle. The woman contacted her husband to see if he took it but he confirmed that he did not take the vehicle.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 071-030613-077

FOLLOW UP: Local police reported that a vehicle matching the description of the woman's vehicle was seen fleeing a hit and run accident and was not recovered. Incident is still under investigation at the time of this report.

Suspicious Persons/Items

On March 7, 2013, a Secretary of State employee received a suspicious envelope wrapped in tin foil in a State-owned Facility Inside the envelope was a "pastry-like" substance.

ACTION TAKEN: Secretary of State reported the suspicious envelope to DTMB Office of Infrastructure Protection. DTMB ITR # 231-030713-078

FOLLOW UP: DTMB Office of Infrastructure Protection reported the suspicious envelope to local police. Upon further investigation, the substance was identified as non-threatening.

Suspicious Persons/Items

On March 8, 2013, an employee reported a suspicious bag in the parking lot of a State-owned Facility between two cars.

ACTION TAKEN: DTMB Office of Infrastructure Protection was notified of the suspicious bag. DTMB ITR # 071-030813-079

FOLLOW UP: DTMB Office of Infrastructure Protection investigated the suspicious bag and found the bag open, containing an employee's lunch.

Threat - Personal

On March 11, 2013, a Human Services employee received a telephone call from a client inquiring why his food stamps were not on his EBT card. The employee informed the client that his redetermination form was not received by the department. The client got upset and stated "I have four f****** kids, f*** you! I'm going to come down and kick you f****** a**." The client then ended the phone call.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 071-031113-080

SUMMARY OF ACTIVITIES REPORTED

Suspicious Persons/Items

On March 11, 2013, a Transportation employee reported that his laptop had been stolen from a conference room in a State-owned Facility.

ACTION TAKEN: Transportation reported the theft the DTMB Office of Infrastructure Protection. DTMB ITR # 591-031113-081

FOLLOW UP: DTMB Office of Infrastructure Protection advised the agency to secure valuable items anytime they are out of the office. DTMB OIP also recommended the agency contact local law enforcement to report the criminal activity.

Threat - Personal

On March 11, 2013, a Human Services employee was approached, while walking, by two white males (mid 20's), asking for a cigarette. The employee informed the men she had mace and to get away from her. The men fled the scene.

ACTION TAKEN: Human Services reported the incident to DTMB Office of Infrastructure Protection. DTMB ITR # 431-031113-082

FOLLOW UP: DTMB Office of Infrastructure Protection recommended the employee contact local police to report the suspicious activity.

Threat - Other

On March 12, 2013, a Licensing & Regulatory Affairs employee received a telephone call from a husband and wife in regards to their case. They were upset about not receiving any money in their case. During the conversation, the woman stated she would "come to Lansing" and LARA will need "six cops" when she arrives.

ACTION TAKEN: LARA reported the incident to DTMB Office of Infrastructure Protection. DTMB ITR # 641-031213-083

FOLLOW UP: DTMB Office of Infrastructure Protection recommended the agency submit a request for a security alert at the State-owned Facility. Also, DTMB OIP requested additional information on previous encounters with the individuals for review.

Threat - Personal

On March 13, 2013, a Human Services employee contacted the caregiver of a client to remind her of a psychological exam scheduled for the client. During the conversation, the caregiver stated "if you come over again, something is going to happen to you. I advise you not to come over, you need to stay away." The employee asked the caregiver to repeat what she said because it sounded like a threat. She replied "take it how you want. It would be good for you not to come back. It would be good for your safety."

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-031313-084

FOLLOW UP: Local police forwarded the report to the County Prosecutor's office for review.

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 13, 2013, a Human Services employee received multiple voicemails from a woman reporting that a male client sexually assaulted an infant child. During the voicemails, the woman stated that she was flying to Michigan in early May and has a friend by the name of "Soul Snatcher" that would love to stick his penis in the employee's mouth and urinate. She also called the employee a "b*****" about thirty times during the messages.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-031313-085

Threat - Personal

On March 14, 2013, a Human Services employee received multiple voicemails from a female client that were threatening in nature towards the employee's family. In the messages, the woman states that she knows the employee's uncle and that she would find her kids and scare them.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-031413-086

FOLLOW UP: Local police visited the home of the woman and while there, they contacted the woman's daughter who took her to a Mental Health Services facility.

Threat - Personal

On March 15, 2013, a Human Service employee received a report that a female client stated she was glad the employee was going to be at a court hearing for a change of custody. The woman stated she was going to "kick her a**" and it would only cost her 18 months in jail.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-031513-087

Threat - Personal

On March 18, 2013, a Human Services employee received a telephone call from a non-custodial father regarding his daughter's case. The father reported that he tried to file a police report about a non-parent male adult hitting his daughter. The father was upset that the employee did not substantiate the man as a perpetrator in a previous investigation and wanted the man substantiated for this complaint. The employee informed the father that the investigation report was with her supervisor for review but since there were not injuries to his daughter, the complaint will likely be denied. The father then stated that he will "maybe come up to the DHS office" and "beat on" the supervisor.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-031813-088

Threat - Personal

On March 20, 2013, a Human Service employee reported that, during an interview at a male client's home, he stated "if Fara were to come back, I would f****** shoot her." He stated that she was a "young, mid-20's woman with long flowy hair" and had "no kids and no business telling him to clean his home."

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032013-090

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 20, 2013, a Transportation employee reported that a woman tried to force her way into her vehicle while stopped at an intersection. Prior to the woman approaching her vehicle, she locked her doors. As she pulled away, she noticed the woman attempting to force her way into other vehicles.

ACTION TAKEN: Transportation reported the incident to DTMB Office of Infrastructure Protection. DTMB ITR # 071-032013-089

FOLLOW UP: DTMB Office of Infrastructure Protection recommended the employee contact local police to report the suspicious activity.

Threat - Personal

On March 20, 2013, a Human Services employee reported that, during a Child Protective Services removal, the mother was very upset and swearing profusely when she realized her son was being removed. When the employee informed the mother of the court hearing, she pushed the employee.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-031413-091

FOLLOW UP: Police accompanied the DHS employee on the removal and witnessed the incident. The mother was arrested at the scene.

Threat - Personal

On March 20, 2013, during a supervised visitation, a female client informed her children that they could do whatever they wanted to the visit room. When the Human Services employee noticed the children throwing toys and the woman not redirecting their behavior, she ended the visitation. The woman began using profanity and arguing with the employee, stating that her visit would not be over until its scheduled time. The employee escorted the woman and her children to the lobby but she continued to state that she was not finished with her visitation. The employee then informed the woman that the police were notified of the incident and were on their way to the office. Once the police arrived, the woman was asked again to leave the building as her visitation was terminated; she complied because it was passed her scheduled time. She was then escorted from the building. Later that day, the woman was notified that the agency would be asking the court to suspend her parenting time. She quickly stated "I'm going there now" and hung up the phone. A short time later, the woman entered the DHS office lobby and proceeded to knock on the doors asking to speak with the employee. She stated she would "stalk and kill" the employee for keeping her kids from her.

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-032013-092

FOLLOW UP: Local police were contacted again after the second incident and the woman was arrested.

Threat - Other

On March 21, 2013, a Human Services employee was speaking with a woman in the lobby about filling out an application. The woman's brother started to get loud and agitated because they needed to fill out an additional application. He stated "I've been waiting for sixteen f****** weeks for unemployment and that's f****** bulls***. Now you know why people walk in and blow your f****** heads off."

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC). DTMB ITR # 431-032113-093

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 25, 2013, a Human Services employee received a telephone call from a woman regarding her case. The employee informed the woman that her Food Assistance Program application was denied and her case was closed due to her felon status. Later that day, the client called back and left a voicemail stating "Saturday they hit my electric which I don't know why because Guardianship Services filled out the application for State Emergency Relief. I contacted Consumers Power and they told me to speak with my worker to see if they can get that payment override...Please take care of that for me and just watch yourself down there. Believe me!"

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032513-094

Threat - Personal

On March 27, 2013, a Human Services employee received a report from a client's therapist that, during her session, the woman stated "If [employee name] comes to my house again, [employee name] will be on the floor and I will be in handcuffs for assault charges."

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032713-095

Threat - Other

On March 27, 2013, a Human Services employee received a text message from a client's ex-boyfriend stating "well it does, that ain't stop u before u guys are full of s*** go f*** ur self." The woman also reported that he is stalking her and has made threats in the past.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032713-096

Threat - Personal

On March 27, 2013, after a parental termination hearing, a female client threatened a Human Services employee by stating "you better watch your back." Later the same day, the employee received a telephone call from the woman's psychologist who informed her that the woman stated she would be "waiting for her after work" and was "going to get her."

ACTION TAKEN: A police report was filed with local police. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032713-097

Threat - Personal

On March 27, 2013, a Human Services employee conducted an interview with a client and he made comments about another DHS employee who was involved in his case in 2009. The man stated if [employee name] were to come to his house, he would be going to jail for assaulting him.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032713-098

SUMMARY OF ACTIVITIES REPORTED

Threat - Personal

On March 27, 2013, a woman came into a Human Service office and demanded to see her caseworker on a scheduled "no-contact" day. The employee asked why she needed to see her caseworker and the woman showed her paperwork. The employee reviewed the paperwork and the woman pointed out that the paperwork stated "no appointment necessary." The employee informed the woman that it meant she only needed to turn the paperwork into DHS and an appointment was not needed. The woman then stated that she knows she doesn't need an appointment but it is an emergency. The employee asked her what the emergency was and the woman stated "Consumers" and handed her a copy of the bill. The employee reviewed the bill and noticed it was not due until March 31 so she advised the woman to staple the bill to her State Emergency Relief paperwork and Consumers would get the payment in time. The woman then got mad and stated "as soon as I walk outside I am going to call and tell them you're not doing your job." The employee then asked her supervisor to speak with the woman. The supervisor tried to help the woman but she continued to argue with him. She then stated "I better never hope I see her out at Macy's or the mall. I don't make threats but this time I am not saying it will be me but I know a lot of people that get shot in the City of Flint and she is gonna be one of them."

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032713-099

Threat - Other

On March 28, 2013, a Human Services employee received a telephone call from a client, who was in the DHS office lobby, asking the status of his disability medical and cash assistance. The employee explained to the man that the Medical Review Team denied his disability claim because he is capable of performing other work. The employee informed him that he could appeal the decision. The man began to get angry and stated he was going to "choke somebody in the lobby." He then left the building.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032813-100

Threat - Other

On March 29, 2013, a woman came into a Human Services office for an appointment with her caseworker. During the appointment, the woman stated "you're pissing me off" and became irate and uncooperative.

ACTION TAKEN: No police report was filed. DTMB Office of Infrastructure Protection reported the activity to the Michigan Intelligence Operations Center for Homeland Security (MIOC).
DTMB ITR # 431-032913-101

Business Development Unit Status Report: August, 2014

Team activities/accomplishments

Assistance to Agencies/Local Government

- Assisted with 1 data request from agencies.
- Assistance to other DTMB offices: Caleb Buhs (new PIO) with 1 inquiry, Eunice Link (InsideMichigan Mailbox) with 1 inquiry, Scott Star (Legislative Liaison) with 3 inquiries.
- Assisted MDOC with 1 inquiry.

CRO Committee

- Attended CRO Committee meeting on 8/19. No set-aside requests.

Data/Metrics

- Worked on 1 recurring data report. Assisted with 19 other data-related requests.
- Processed 2 data requests/queries for staff members.

Education

- Revised/edited Contracting 101 on website to reflect Sharon's feedback.

Enterprise Procurement Communications

- Created new listserv just for Core Purchasing Staff.
- Created and sent out listservs on Training, Town Hall, Buy4Michgian, other misc. messages.
- Created and published newsletter.
- Worked on Communication Standards document.
- Analyzed metrics for newsletter.
- Finalized and published Editorial Calendar.
- Organized intranet material.
- Scheduled Brown Bag Lunch.
- Created charts displaying newsletter success rates.
- Created charts displaying Town Hall attendance in different government agencies.

MiDeal

- Membership count – 1033 as of 8-31-14*. MiDEAL contract count: 399 (286 have administrative fees).
- Conducted MiDEAL vendor training with the following vendors: Bay County Lawn (8/12/14) and Fiberlink (8/28/14).
- Mailed MiDEAL brochures to SnowPlow Roadeo
- Monthly follow-up on vendor non-payment of administrative fees.
- Developed communications to MiDEAL members about this year's road salt situation. Placed calls to several local governments wishing to opt out of their commitments and reiterated DTMB's position (i.e. the commitment is firm). Participated in various meetings, including those with vendors, on this subject.
- Met with Natalie Spaniolo on 8/4 to discuss improving the collection of administrative fees due on SOM purchases. Natalie offered to help audit the collection of administrative fees and referred us to one of her staff for follow-up.
- Conducted meeting with Acro on 8/12 regarding discrepancies between administrative fees received and what we think is owed. Follow-up action on both sides required.

- Met with Financial Services on 8/7 and 8/18 regarding obtaining assistance from them to audit SOM admin fees received from vendors against amount actually due.
- Met with another area of Financial Services on 8/18 to discuss the feasibility of enabling vendors to make administrative fee payments via EFT.
- Created a spread sheet with contact information for all Non-MiDEAL Schools K-12
- Updated and tested BDU Procedure on creating Invoices for new members.
- Reached out and corresponded with 8 MiDEAL vendors on Fall 2014 MiDEAL Catalog Book.

Other

- Assisted with 29 requests/issues as EUC Coordinator. Began work on testing Internet Explorer 11.

SDVOB

- Wrote synopsis for VetBizCentral presentation for their event materials

Social Media

- Continue to submit monthly reports to Christyn Herman
- YouTube hits

- Updated BDU Procedure on tweeting with bitly links and without.

Training/Meeting

- Participated in several training/process improvement meetings.

Upcoming Bid List/Communication of bid opportunities

- There are currently 2,479 people signed up to receive the listserv (-5).

Vendor Gateway

- There were 6 submissions to the Vendor Gateway, 2 were forwarded.

Website

- Assisted the Executive Office with updating content on their Social Impact Bond program.
- Updated website with new Contracting 101, Agency Buyer List, and other fixes.
- In CMA, corrected category names, deleted obsolete categories and pages.

1122 Program

- Approved an order for the Trenton Police Department (GSA – furniture to facilitate relocation of records staff to support emergency response times).

August Outreach Events (31 events FY14)

Upcoming Outreach Events

- Native American Contracting event – 2nd Annual Doing Business with Government Agencies, Sault Ste. Marie – 9/18
- Michigan Regional Conference on Interpreting and Translation, Novi – 10/4
- Meet the Buyer event sponsored by Schoolcraft College, Livonia – 10/7

Introduction

Snow and ice-covered roads can pose significant risks to public safety and can negatively impact economic activity. Many areas of the country, including Michigan, have historically relied upon the application of road salt to allow safe passage for travelers. The efficacy of road salt is well established. For example, a Marquette University study examined highway accidents occurring in winter-road conditions and found that road salt reduced the instances of crashes by 88 percent while injuries and accident costs were reduced by 85 percent.[1]

However, like any commodity, the cost of road salt can vary, and such changes in cost structure can impact normal business operations and budgets. Recent market prices for road salt have done just that and the price increase warrants the Attorney General's close scrutiny to ensure it is not a result of illegal activity.

Our office previously reviewed road salt pricing in 2009 after receiving complaints of higher prices and possible anticompetitive conduct by the salt suppliers. Following an investigation, which included reviewing the suppliers' extensive responses to our civil investigative demands; we found that the evidence did not support an outcome that anticompetitive conduct was the cause. Rather, the concerns were explained by what appeared to be a legitimate salt shortage.

In 2014, prices for entities buying road salt through the MiDEAL purchasing program for the 2014-2015 winter season rose by more than 46 percent from the previous year.[2] Our office received a number of complaints from state and local agencies questioning the high price of road salt, and some local agencies complained of large price differences between neighboring communities. Upon receipt of these recent complaints, we again conducted a thorough investigation into road salt pricing. In addition to using the information obtained from our 2009 investigation, we reviewed all the road salt bids and awards for the MiDEAL program for the past two years; reviewed other relevant documents related to the 2014-2015 request for proposals (RFPs); interviewed representatives from the four road salt suppliers for the 2014-2015 MiDEAL RFPs; spoke with representatives from local municipalities, as well as Michigan Department of Transportation (MDOT), Michigan Department

of Technology, Management and Budget (DTMB), Federal Trade Commission (FTC), and county roads associations; spoke with other states' attorney generals' offices to discuss road salt prices; toured a salt supplier's production facility; and conducted additional research.

Findings

Our investigation focused on anticompetitive conduct. This report summarizes the information obtained during this investigation and supports the conclusion we reached as a result.

- We did not uncover any evidence of illegal price-fixing by road salt suppliers. The most recent price increase was due to legitimate market conditions caused by last winter's harsh weather. Road salt suppliers and government agencies depleted existing inventories at the end of last winter, which was one of the harshest on record. Suppliers consequently had less road salt to supply for this season while agencies were simultaneously purchasing above-average amounts in order to restock. In addition, due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely influenced pricing for purchasers.

- Additionally, it appears there are legitimate explanations for the noted price differences between certain municipalities. The decrease in road salt inventories and less willing bidders resulted in more limited bidding in certain counties and cities. And it appears the timing of the MiDEAL bid played a role in some suppliers' decisions not to bid for certain contracts. Also, some entities locked into lower prices well before the current increase, but neighboring municipalities did not.

- Moving forward, we recommend that DTMB review the timing of its MiDEAL bidding process to see if it may be beneficial to issue requests for bids earlier in the year which may alleviate similar bidding situations in future years. Based on our investigation, it appears that opening bids earlier in the year may generate more bids and at lower bid prices. However, following mild winters, it may not be beneficial to issue bids earlier, especially if there is a large supply of salt. Additionally, we recommend that DTMB and MDOT continue to review ways in which MiDEAL can further utilize alternative products, such as sand, and implement technology improvements to potentially reduce road salt usage, and thereby lower costs. Finally, we recommend seeking opportunities to better utilize the Detroit Salt Mine, a significant Michigan resource.

- See recommendations at the end of this report.

Price-Gouging Versus Price-Fixing

"Price-gouging" and "price-fixing" are terms that need some explanation. People often talk about price-gouging whenever prices for goods or services suddenly increase. But the Michigan Consumer Protection Act (MPCA) does not use the term "price-gouging." Rather the section in the statute that most directly prohibits high pricing says that it is unlawful to charge "a *consumer* a price that is *grossly in excess* of the price at which similar property or services are sold." [3]

The specific language of the statute includes some major limitations in this case. It applies to prices charged to consumers, which means that it limits prices charged for products "primarily for personal, family, or household purposes." [4] And the price charged must be grossly in excess of prices charged by other suppliers for the same or similar product. That means that the statute's limit on pricing does not apply if all businesses are charging the same or nearly the same price for a product, even if the price is high.

Price-fixing, on the other hand, is an antitrust violation. Under the Michigan Antitrust Reform Act (MARA) it is unlawful to enter into "[a] contract, combination, or conspiracy between 2 or more persons in restraint of, or to monopolize, trade or commerce in a relevant market...."[5] MARA was modeled on federal antitrust statutes, primarily the Sherman Act.[6] While there are many intricacies in these statutes, antitrust law is basically about preserving competition in the marketplace. When two or more suppliers of competing products agree to limit the competition between them, for instance by agreeing to maintain or raise the price of their product, it may be an antitrust violation. Proving that competitors fixed prices requires having proof of their agreement to do so. Documents that formalize the agreement or show that an agreement existed are strong proof, but often difficult to obtain or non-existent. But other circumstantial evidence may also show that a price-fixing agreement existed, including facts showing that the competitors had a meeting and shortly thereafter they raised prices in a similar fashion.

In the context of this investigation, price-fixing was the appropriate analysis for review, not price-gouging. As the buyers at issue under the MiDEAL program are governmental agencies, not consumers, the MCPA's limitation on pricing is not

applicable. Moreover, simply being charged a high price does not mean that the amount charged is grossly in excess of prices charged by others for road salt. And, as further detailed in this report, our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct.

Road Salt and Mining Information

Road salt is one of the most popular methods of deicing roadways because of its ease of use, effectiveness, and relatively low cost compared to alternative de-icing methods. Road salt, also known as rock salt, is larger and heavier than table salt. Both are the same molecule—sodium chloride—but table salt is ground, purified, and often has additives like iodine and anti-clumping agents.[7] Road salt's size and weight keep it from being easily pushed off the road, and it is used to keep roads and bridges free of snow and ice during wintery weather. Driven by an increased public expectation for safe and clear roads, and fueled by relatively low costs, Michigan has steadily increased its use of road salt over the last 30 years. It was recently reported that public agencies in Michigan use nearly 2 million tons of salt annually to clear snow and ice.[8]

There are approximately 15 salt mines in the U.S. One is owned by Detroit Salt Company and is located in Detroit, Michigan. The salt under Detroit was first discovered in 1895. Development of the resource proceeded slowly until 1914, when the salt mine produced 8,000 tons of rock salt each month. Because of this local resource, Detroit was the first city in the world to apply salt to its roads in 1940.[9] Two mines are located in Ohio, two in New York, and the remainders are in Kansas, Louisiana, Utah, and Nevada.[10] Overall, approximately 35-40 million metric tons of

Note: There are two salt mines in Ontario, Canada, that produce deicing salt. Morton Salt, which is owned by K+S AG, operates a mine in Windsor, Ontario, and Sifto Canada, which is wholly owned by Compass Minerals, operates a mine in Godderich, Ontario

salt are mined annually in the U.S., of which rock salt for ice control accounts for approximately 30 percent.[11]

Mining takes place about 1,000-2,000 feet below the ground. Most rock salt mines use the "room and pillar" system of mining. Shafts are sunk down to the floor of the mine, and rooms are carefully constructed by drilling, cutting and blasting between the shafts, creating a checkerboard pattern.[12] The salt is then crushed and screened to the desired size and brought to the surface to be bagged or shipped in bulk to the customer via railroad cars, trucks, river barges, or lake boats.[13]

MiDEAL Road Salt Program and Other Procurement Methods

In Michigan there are multiple avenues for a government agency to procure road salt. The agency can solicit its own bids or it can join a consortium of local governments to give it added purchasing power.

MiDEAL is an extended purchasing program that allows Michigan local units of government to use state contracts to buy goods and services, including road salt. MCL 18.1263. Through MiDEAL, municipalities across Michigan order salt in two rounds: early fill and seasonal fill. The first "early fill" delivery arrives in December and by December 31 agencies must take delivery of 100% of the early fill tonnage that they ordered. For seasonal fill awards, the agencies can take as little as 70% of the amount they ordered or as much as 130%. The agencies must take delivery of at least 70% of the seasonal fill road salt by the following October.

DTMB has contracts with four road salt suppliers: Cargill, Compass Minerals (f/k/a North American Salt), Detroit Salt Company, and Morton. The contracts expire on August 31, 2016, with two 1-year options, but prices are rebid every spring. The contracts serve MDOT, and approximately 300 local public entities.

On an annual basis, DTMB collects the salt requirements for MiDEAL participants for the upcoming season and supplies the requirements to DTMB for inclusion in the RFP. Suppliers bid county by county for both the early and seasonal fills.

Wayne County is handled somewhat differently than other counties. For the seasonal fill, Wayne County is divided into over 50 separate "drop points," and salt suppliers can bid on any or all of those areas.

Besides MiDEAL, some local agencies contract directly with suppliers or through purchasing consortiums. For example, Genesee County Road Commission (GCRC) has a contract with Detroit Salt.[14] The Michigan Inter-governmental Trade Network (MITN) is a purchasing consortium comprised of over 100 local government agencies that also purchases road salt. And another group salt purchaser is the Downriver Community Conference (DCC), which has approximately 20 members.[15]

Road Salt Pricing

Because of its solubility and the difficulty of large scale storage, surface salt inventories are usually kept at minimal levels.[16] Inventories kept underground in salt mines are stored for short-term imminent sale, such as near winter use for highway de-icing. The basic difference between salt production and salt sold or used is the mathematical change in inventory.[17]

Generally, road salt prices are based on the costs of mining, transportation, and distribution. Mining costs include labor, energy, heavy equipment, explosives, and the purchase of mineral rights.[18] Transportation costs vary considerably across road salt suppliers, given that the suppliers transport the salt to customers via shipping vessels, barges, trains, and trucks, depending on the location of the mines and the suppliers' stockpiles.[19] Since shipping vessels and barges can carry larger

[19] US Department of the Interior, *US Geological Survey 2012 Minerals Yearbook*, p 6 (2012). Available at http://minerals.usgs.gov/minerals/pubs/commodity/salt/myb1-2012-salt.pdf.

amounts of salt than trains or trucks, moving salt by water is usually the least expensive method of transport. As such, delivery locations nearer to the Great Lakes may see cheaper road salt prices. The price of gas/fuel is another important factor in pricing.

Suppliers' prices are presumably also impacted by market forces, including the prices charged by competitors and information available regarding industry inventory. Competitor pricing is somewhat transparent as governmental RFP bid awards are generally public information.

Supplier bidding is also impacted with uncertainty caused by the bid process. Nine Midwest states, including Michigan, typically open their bids in a short span of time, between May and July. This causes uncertainty because suppliers will not know the tonnage they will be required to supply until the awards are made.

After awards are made, suppliers still face uncertainty because most states require suppliers to commit to supplying anywhere between 70% and 130% of the actual amount of road salt awarded. Some salt suppliers consider spreading their bids out over a wide geography, in spite of transportation costs, because of the 70-130 contract requirements and the unpredictability of snow. If any single geographic area ends up with little to no snow, suppliers run the risk of the community taking only 70% of what was ordered.

Thus, the timing of the bids in other states, the 70-130 structure of the contracts, and the supply left over from the previous season are factors affecting bids as they are developed.[20]

2014-2015 Winter Season Road Salt Prices

According to MDOT, the 2014-2015 winter season average cost of road salt for the state and local road agencies was $65.81 per ton, an increase of about 46 percent over the 2013-2014 average of $44.99 per ton.[21] According to news reports, Washtenaw County reported a 46 percent and 122 percent price hike in 2014 for early and seasonal fills, respectively. And Oakland County expected to pay 25 percent more to get ready for the 2014-2015 winter.[22]

[20] *Id.*; interviews with Cargill representative, 9/23/14, and Compass representative, 9/26/14.

[21] Michigan Department of Transportation, *Salt Prices Jump Nearly 50 Percent as Road Agencies Prepare for Winter*, 11/6/14 bulletin. Available at http://www.michigan.gov/mdot/0,4616,7-151--340721--,00.html

[22] Greenwood, *Detroit Metro Counties Feel Pinch of Salt*, Detroit News (September 24, 2014). Available at

Wayne County reported that in 2013 it was paying $32.67 a ton from Morton Salt for early fill through the MiDEAL program. In 2014, Wayne County ordered 33,000 tons from Compass Minerals for the early fill at a price per ton of $74.42, representing a cost increase to the county of about $1.5 million over last year. Wayne County's 2014 seasonal fill RFP through the MiDEAL program was for 168,800 tons. Detroit Salt bid $47.01 in 11 drop points and won all 11, while Compass bid $58.95 in all 50 drop points and won the drop points where Detroit Salt did not bid. According to Wayne County representatives, the fact that Compass quoted higher prices for the early fill compared to the late fill – $74.42 versus $58.95 – is very unusual.

The City of Dearborn reports that it was paying $74.42 per ton in 2014 for road salt through the MiDEAL program while the Downriver Community Conference (DCC) was paying $50.71 per ton. Jim Perry, the DCC Executive Director, explained that DCC does not obtain its road salt through the MiDEAL program. Rather, the DCC is in the third year of a three-year contract directly with Detroit Salt. Hence, the DCC locked into the $50.71 price two years before prices went up.

Missaukee County has also raised concerns about the high costs of road salt it purchased through MiDEAL, particularly relative to surrounding counties. Compass was the only bidder in 2014 in all of the counties in the top half of the Lower Peninsula. Missaukee County is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton. For the 2014 late fill, Missaukee County is paying $78.61 per ton, while other nearby counties are paying under $70.

The City of Grand Haven reported that its 2014 price through the MiDEAL program went from $48.28 per ton in 2013 to $64.89 per ton in 2014, a 34% increase.

Most recently, the City of Jackson complained to the Attorney General about high road salt prices. Under the MiDEAL program for the 2014 season, the City is paying $80.22 per ton, a 75 percent increase from the $45.98 it paid in 2013. Conversely, Jackson County, which did not participate in the MiDEAL program in 2014, paid $56.17 per ton.

Investigation

The Michigan Attorney General's Corporate Oversight Division took the following actions to investigate road salt prices:

- Reviewed emails between DTMB and the four road salt suppliers for the 2014-2015 RFP.
- Reviewed bid amounts, prices, and awards for 2013-2014 and 2014-2015 RFPs.
- Reviewed the Civil Investigative Demand responses from the four salt suppliers relating to out 2009 road salt investigation.
- Reviewed materials relating to concerns raised by Wayne County, City of Dearborn, and Missaukee County about road salt prices.
- Interviewed each of the four suppliers that submitted MiDEAL bids.
- Toured the Detroit Salt mine production facility.
- Communicated with staff at DTMB.
- Communicated with staff at MDOT.
- Communicated with a representative from the County Roads Association of Michigan.
- Communicated with a representative from the Downriver Community Conference (DCC).
- Communicated with representatives from Wayne County.
- Communicated with other state AAGs to discuss road salt prices.
- Communicated with an attorney at the FTC.
- Reviewed and followed road salt news.
- Conducted independent research on road salt pricing.

2014-2015 Winter Season Road Salt Bids

According to DTMB, two factors combined to create scarce supply and significantly higher prices. Vendors had not sufficiently rebuilt their stockpiles from last year's unusually harsh winter, and some states went out to bid before Michigan. Therefore, bids for the 2014-2015 winter season came in unusually high. DTMB actually conducted second round pricing negotiations, had discussions with all bidders, and then conducted "Best and Final Offer" (BAFO)/third round negotiations in an attempt to get lower prices.

The 2014-2015 road salt bids for the Midwest states were opened in this order:

1.	Minnesota	April 29
2.	Iowa	May 7
3.	Wisconsin	May 13
4.	Ohio early fill	May 13
5.	Pennsylvania	May 28
6.	Indiana	May 30
7.	Missouri early	June 10
8.	**Michigan**	**June 16**
9.	Illinois	July 1
10.	Ohio seasonal fill	July 8
11.	Missouri seasonal	July 22

Notably, Minnesota, Iowa, Wisconsin, Ohio-early fill, and Pennsylvania did not experience the significant price increases seen in Indiana, Missouri, Michigan, Illinois, and Ohio-seasonal fill.

For Michigan's 2014-2015 winter season, DTMB posted the RFP on May 15, 2014, opened the bids on June 16, 2014, and posted the awards on July 24, 2014. The bids were opened over a week later than the year before. And, as mentioned earlier and explained in more detail below, the date of the bid opening appears to be an important date that can influence road salt suppliers' pricing and whether to bid for certain locations.

For the 2014-2015 MiDEAL RFP seeking 1,459,879 tons of road salt:

Cargill bid 0 tons, which is 554,335 tons less than last year.
Detroit Salt bid 226,820 tons, which is 401,680 tons less than last year.
Morton bid 348,295, which is 539,720 tons less than last year.
Compass bid 1,291,079, which is 292,240 tons more than last year.

The Suppliers

Cargill

Cargill, headquartered in Minneapolis, Minnesota, is a privately owned business that provides food, agriculture, financial, and industrial products and services. Cargill Deicing Technology operates three salt mines in the U.S. The mines are located in Cleveland, Ohio; Avery Island, Louisiana; and Lansing, New York. The Cleveland mine, which services Michigan and other Great Lakes states, produces approximately 3.6 million tons of road salt annually. Cargill stockpiles its road salt in the Great Lakes region in Cleveland, Duluth, South Chicago, Green Bay, Milwaukee, Burns Harbor IN, Detroit, and Gladstone, MI.

In Michigan, in response to the 2013-2014 MiDEAL RFP, Cargill bid 236,100 tons of road salt for the early fill and 318,235 in the seasonal fill (but was awarded only a nominal amount). Cargill did not bid any of the 2014-2015 MiDEAL RFP.

In the Midwest, Cargill bid on 4.956 million tons of salt in 2013-2014 and was awarded 2.434 million tons. Cargill bid on 2.808 million tons for the Midwest states in 2014-2015 and was awarded 2.8 million.

Cargill reported that it had very little supply left over after last winter. It also notes that the 2014 demand for salt was high because many expected this to be another rough winter, and states raced to restock their supplies. According to a Cargill representative, crews worked all summer, including on Saturdays, at the company's three salt mines, and the company has even imported salt from Chile to replenish its supply.

Compass Minerals

Compass Minerals, formally North American Salt, is headquartered in Overland Park, Kansas. Compass operates two salt mines that service the U.S. Compass' Godderich, Ontario mine is located on Lake Huron. The mine produces 7.5 million tons of salt annually. It serves areas surrounding the Great Lakes in both the U.S. and Canada and areas that border the St. Lawrence Seaway. Salt is transported to customers via the Great Lakes and the St. Lawrence Seaway. Compass serves Michigan from three stockpiles located on the east coast of Lake Michigan and four stockpiles located on the Detroit River and the west coasts of Lake Huron and Lake Erie.

Compass' second mine is located in Cote Blanch, Louisiana, and services southern states and the southern portions of Indiana, Ohio, and Pennsylvania, plus Wisconsin, Minnesota, and Missouri. Salt is transported from this mine to customers via the Mississippi, Ohio, and Tennessee Rivers.

Compass normally has substantial inventory at the end of a season but had virtually none after the 2013-2014 season. Nonetheless, Compass submitted a bid for every agency on the MiDEAL RFP for both the early and seasonal fills, albeit at higher prices than last year. It appears that their practice is to bid on everything for every RFP with the expectation that they will only get part of the award. In 2014 Compass bid 551,285 tons in the early fill and 739,794 tons in the seasonal fill. Compass was awarded significant tonnage because of the reduced number of tons bid by Morton, Detroit Salt, and Cargill.

Compass was the only bidder for the Wayne County 2014 early fill, priced at $74.42 per ton. Compass quoted $58.95 per ton for all of the Wayne County seasonal drop points and was awarded the drop points not bid on by Detroit Salt. Wayne County representatives explained that it is unusual to see an early fill price higher than a seasonal price. However, as evidenced by the email from Compass asking to have its award reduced, it is apparent that Compass did not expect to win as much of the award as it did. In the 2013-2014 season, Morton Salt won the Wayne County early fill contract and Detroit Salt and Compass won the Wayne County seasonal fill drop points. In a repeat of previous season, for the 2014-2015 season Compass may have bid higher on the Wayne County early fill because it expected to lose and lower on the Wayne County seasonal drop points because it expected to win.

Compass was also the only bidder in 2014-2015 in all of the counties in the top half of the Lower Peninsula, including Missaukee County. As mentioned previously, Missaukee is paying $82 per ton for the early fill while some neighboring counties are paying just under $70 per ton, and for the late fill Missaukee County is paying $78.61 per ton, while some neighbors are paying under $70. A possible reason for the difference in prices between counties this season can be found in last season's prices. In 2013-2014, Compass won almost all of the early fill bids in the North and Grand Regions,[23] except Detroit Salt won those in Missaukee, Roscommon, Osceola, and Montcalm. Hence, it is likely that Compass bid higher in those counties in 2014-2015, expecting to lose to Detroit Salt, but if Compass won it would be able to command higher prices. Compass did win, given that it was the only bidder in those counties.

---

[23] The North Region consists of those counties north of Oceana, Newaygo, Mecosta, Clare, Gladwin, and Arenac. The Grand Region consists of Oceana, Newaygo, Mecosta, Muskegon, Ottawa, Kent, Montcalm, and Ionia counties.

The same is true for the seasonal fill bids. Compass won almost all of the seasonal bids in 2013-2014 for the North and Grand Regions, except Detroit Salt won Missaukee, Morton won Roscommon, Osceola, Oceana, Newaygo, and Muskegon, and Cargill won Kent. Compass bid higher in the counties of Missaukee, Newaygo, and Kent, apparently expecting to lose to Cargill (Kent), Detroit Salt (Missaukee), and Newaygo (Morton).

Similar to the situation in Missaukee County, Compass was the only MiDEAL bidder for the City of Grand Haven in 2014-2015. Compass' prices increased everywhere across the State year over year, and Grand Haven's increased by 34%, which was typical. The increase is explained by the inventory shortages discussed previously.

In total, Compass was awarded over 1 million tons of salt in Michigan for the 2014-2015 season. Because the amount awarded was higher than Compass expected, they requested a reduction in the amount of their award which DTMB denied.

Detroit Salt Company

The Kissner Group, a privately held equity group out of Cambridge, Ontario, purchased the Detroit Salt Company from the Ferrantino family in 2010. Kissner made some investments in the mine this past year with additional contract employees and equipment, so production may increase. The mine is currently running at full capacity. It produces more than one million tons of salt annually. Detroit Salt stockpiles salt for delivery to Michigan customers in Detroit and a new facility (as of November 2013) in Lansing. Detroit Salt delivers salt to its Michigan stockpiles via truck.

In 2014 a substantial portion of Detroit Salt's production was slated for renewal contracts with the City of Chicago, the State of Illinois, Livingston County, Genesee County, and Ft. Wayne, Indiana. Additionally, Detroit Salt provides at least five percent of its production to Kissner for retail sales every year.

For the 2014-2015 season, Detroit Salt bid on the Indiana and Ohio-early fill RFPs before the MiDEAL RFP. The MITN RFP was also opened before the MiDEAL RFP, and MITN awarded 280,000 tons to Detroit Salt. Detroit Salt backed out of the Indiana bid, citing lack of inventory, when Indiana asked it to correct a technicality.

On the MiDEAL RFP, Detroit Salt bid 628,500 tons for the 2013-2014 season and only 226,820 tons for the 2014-2015 season, which is a decrease of 401,680 tons. Detroit Salt was awarded 214,070 tons for the 2014-2015 season. Detroit Salt's representative says that it had virtually no inventory at the end of the 2013-2014 season so all of the salt produced now is being shipped directly to customers. Where

Detroit Salt did bid, their prices were lower than their competition. For example, Detroit Salt bid $47.01 per ton on the MiDEAL Wayne County seasonal fill drop points, while Compass bid $58.95 and Morton bid $65.07. (Cargill did not bid).

Detroit Salt chose not to bid on the City of Jackson's request for 4,525 tons through the MiDEAL program, so the City had to go with the Compass quote of $80.22 per ton it received through MiDEAL. However, Detroit Salt contracted directly with Jackson County for 30,000 tons of road salt at $56.17 per ton. Detroit Salt's choice to bid on Jackson County's RFP but not on the Jackson local units in the MiDEAL RFP appears to be attributable to the timing of the RFPs and the location of the bidder. Just two weeks before the MiDEAL bid was opened, Detroit Salt was awarded the 30,000 ton RFP in Jackson County and another 11,000 ton award in Calhoun County. Detroit Salt did not have enough inventory to bid on all of the MiDEAL requests. It chose not to bid on the City of Jackson's MiDEAL request because it did not want to commit to delivering an even larger amount of salt in the same geographic area, especially in the event of a significant snow event.

During our interview with Detroit Salt's representative, he recommended that the State bid as early as possible following a harsh winter because depleted inventories will push prices higher. In contrast, he recommended the State bid later following a mild winter, when inventories are closer to capacity.

Morton Salt

Morton is headquartered in Chicago, Illinois. It operates the Ojibway mine in Windsor, Ontario, Canada, which can produce approximately 2.569 million tons of road salt per year, and a mine in Fairport, Ohio that can produce approximately 1.4 million tons annually. Morton can stockpile road salt for delivery to Michigan in Benton Harbor, Detroit, Muskegon, Saginaw, and Toledo. Morton transports salt from its mines to its stockpiles by truck.

In Michigan, for the 2013-2014 MiDEAL RFP, Morton bid 888,015 tons and was awarded 162,400 but actually sold 194,856 tons to Michigan agencies because of the harsh winter. In 2014-2015, Morton no-bid the early fill and bid 348,295 tons in the seasonal fill. Morton was awarded only 30,000 tons. In the Midwest states, Morton bid 4.502 million tons in 2013-2014 and sold 1.82 million tons. In 2014-2015, Morton bid 3.147 million tons and was awarded 1.473 million tons. Morton reported it cannot take additional business due to its inventory levels, salt production capacity, and service commitment goals.[24]

[24] Shaver, *Morton Unable to Provide Bulk Road Salt to Wellston*, Jackson County Daily (October 16, 2014). Available at http://www.jacksoncountydaily.com/news/article_72b82f86-436b-570d-abfd-7eb76eba90bc.html.

2014-2015 Winter Season Road Salt Prices in Other Midwest States and Canada

The issue of high road salt prices for the 2014-2015 winter season was not unique to Michigan:

Ohio

Increased salt prices appeared to hit hardest in Ohio, where most counties paid between 43 percent and 128 percent more for salt in 2014 compared to 2013. Some counties rejected bids that were too expensive or received none. The state has stepped in to try to help those counties by buying 170,000 additional tons of salt from an Indiana supplier, Midwest Salt.[25] Midwest Salt reported that it plans to obtain the salt from Morocco and bring it in through the port of Toledo.[26]

Ohio used more than 1 million tons of salt on state roads during the 2013-2014 winter season, which was a nearly 60 percent increase over the average. In 2014, the road salt prices, which are bid on by county, were higher for the first round of bidding for early fill between $36 a ton and $81 a ton, compared to the state average of $35 per ton in 2013. Some communities waited until the second round of bidding for the seasonal fill in hopes of getting a better price, but prices went up, including one quote of $165 per ton. Furthermore, 15 counties received bids of more than $100 per ton, and 10 counties received no bids from suppliers.[27]

Cargill and Morton are the only two companies with salt mines in Ohio. And they have been the only two suppliers of road salt to Ohioans since 1997; probably because Ohio has a "Buy Ohio" law that favors companies that mine salt in Ohio over out-of-state competitors (Ohio miners received a 5% pricing advantage). ODOT only awarded contracts to one of these two companies, even if a non-Ohio salt company submitted a lower bid. This practice discouraged out-of-state vendors from bidding on Ohio salt contracts.[28]

The Ohio Attorney General filed a state antitrust case against Cargill and Morton in Ohio state court in 2012. *State of Ohio v Cargill et al*, Docket No. 12-cv-030268,

[28] See *Erie County v Morton Salt, Inc.*, 2011 WL 4361615, *1-2, (ND Ohio 2011).

Tuscarawas County Court of Common Pleas. The complaint alleges that the two vendors allocated public purchasers, including ODOT, geographically, and therefore were able to raise prices. The State of Ohio survived a motion to dismiss its claim. Discovery is ongoing, and a trial is scheduled for May 12, 2015.

Another complaint making similar allegations was filed by Erie County, Ohio, on behalf of itself and other Ohio counties, in 2011. *Erie County v Morton Salt, Inc et al*, 2011 WL 4361615 (ND Ohio 2011). The district court granted Morton's and Cargill's motions to dismiss, opining that the suppliers' duopoly and increased profits were the result of "'marketplace dysfunction' caused by ODOT's erroneous interpretation of the Buy Ohio law, not of any wrongdoing by the defendants."[29] Erie County appealed to the U.S. Court of Appeals for the Sixth Circuit. While the appeal was pending, Erie County discovered that the counties have never been bound by the Buy Ohio law.[30] The Sixth Circuit affirmed on other grounds, holding that while it appeared that the salt companies engaged in parallel conduct, plaintiffs did not "allege facts sufficient to raise a plausible inference of an unlawful agreement to restrain trade."[31]

Had the counties been bound by the Buy Ohio law, however, the Sixth Circuit court opined that facts were sufficient to raise an inference that the companies engaged in sham bidding.[32] That is because under the Buy Ohio law, for one of the two defendants to automatically win, there has to be bids from at least two suppliers that mine salt in Ohio. As a result, the suppliers bid everywhere, but it appeared that they purposefully submitted losing bids in each other's historical territories.[33]

Indiana

An Indiana procurement agent supplied DTMB with copies of the Indiana road salt awards for 2013-2014 and 2014-2015. Those awards show that Indiana paid between $48.75 and $79 per ton in 2013 and between $71 and $106 per ton in 2014. All four suppliers responded to the initial 2014-2015 RFP, but Detroit Salt withdrew its bid during an initial clarification round. For the past five years, the state has used on average 352,000 tons of salt. During the 2013-2014 winter season, which saw heavy snow and bitterly cold temperatures, the state used more than 437,000 tons of salt.[34]

Illinois

Illinois officials said the 2014-2015 season's prices ranged from $75 a ton to more than $130 per ton, up from the previous year's statewide average of about $55. Like other states, Illinois offered centralized purchasing to local governments, but many did not receive bids. Illinois said that it is continuing to work with those communities by connecting them with vendors, and believes that those who need salt ultimately will be able to get it.[35]

Illinois reported to DTMB that it coordinates road salt bids for over 500 local entities, with RFPs requested for half of the locals each year, in alternating years. One of the two-year contracts in their portfolio has a cap on price escalations during the second year. That vendor did honor the 5% escalation contract cap for the usage specified ($55-$60/ton) for the 2014-2015 season.

The locations being taken to market for 2014-2015 pricing had a different experience. In the initial round of bidding, 195 of the local public entities received no bids. Of the locations bid, pricing ranged from approximately $70 - $140 per ton. Illinois chose to issue a second bid, along with 90 local entities, and only 20 locals received bids. Some pricing was over $140.

Missouri

MoDOT said the department paid an average of $80 per ton for road salt for the 2014-2015 winter season. In 2013, it was paying an average of $60 per ton. The department headed into this winter with 220,000 tons of road salt, and on average it uses 180,000 per winter. During the 2013-2014 winter, however, the department used 215,000 tons and bought additional road salt during the season.[36]

Pennsylvania

Pennsylvania reported a modest 8 to 9 percent increase in salt prices for the 2014-2015 winter season. State transportation officials said they used about 1.2 million tons of road salt during the previous winter, a 43 percent increase over the five-year average.[37] Pennsylvania opened its bid before Indiana, Illinois, Michigan, Missouri, and Ohio-seasonal.

Wisconsin

Officials in Wisconsin paid on average 14 percent more for salt in 2014. A Wisconsin state highways official said he knew the increase was coming but was grateful the state was able to secure salt for all of Wisconsin's 72 counties and hundreds of municipalities.[38] Wisconsin was the third of the Midwest states to open its bid.

Iowa

Iowa officials said that planning ahead enabled the state to lock in a good price for the 2014-2015 season. The Iowa DOT was proactive in putting together a contract for the year and no supply issues were reported.

Statewide prices went up an average of $10 per ton, depending upon which part of the state. The overall average price per ton is $82, about a 13 percent increase over 2013.[39] Iowa was the second state to open its bid.

Minnesota

Minnesota communities paid about 4 percent more on average in 2014 for salt, which the state is crediting to securing prices in early spring before prices jumped. Some local governments paid about 15 percent more, but most increases were more moderate.[40] Minnesota was the first of the Midwest states to open their bid.

Canada

Governmental agencies in Canada did not experience the price increases and shortages that we saw in the U.S for the 2014-2015 winter season. In Canada, regional and provincial government agencies typically contract with private entities to provide winter services. The services include plowing, salt application, sidewalk clearing, etc. These private entities have contracts with the road salt suppliers that are typically multi-year agreements for the purchase of a specified amount of salt. The contracts contain negotiated annual price provisions, which specify the size of a price increase, irrespective of any significant fluctuation in year-to-year demand. Additionally, the salt suppliers' contracts have staggered end dates, so they start each bid season with a known, "committed" amount of salt to be sold to Canadian purchasers.

Investigation Conclusions

Our investigation did not find evidence of price-fixing or other illegal anti-competitive conduct. The 2013-2014 winter was the snowiest winter on record in many Great Lakes states. Michigan's four suppliers report that they depleted their inventories by spring 2014, which is highly unusual as they typically have 15-20 percent inventory remaining at the end of a season. In addition, many states, counties and local municipalities depleted their inventories as well, so the tonnage they requested increased.

A review of road salt contracting in eight other Midwest states indicates that road salt prices increased as the states' bids were opened between May and July 2014. In other words, the later the bid was opened, the higher the price of salt. This timing issue is consistent with salt suppliers having insufficient inventories to cover the demand.

When salt suppliers bid for states' business, they try to win only as much business as they can serve with their expected inventories, and this year their inventories were low. They might bid higher prices in areas where they don't expect to win and lower prices in areas that they want to win. With decreased inventory, they bid higher in a greater number of areas than usual. If they win the higher priced bids, they can meet their obligation with higher cost product, such as salt mined in South America. Due to heavy market demand, fewer road-salt suppliers were willing to bid for supply contracts under the MiDEAL program, which adversely affected pricing for purchasers.

---

http://bigstory.ap.org/article/7623d35d1a6145e9b88ec6ade6db229e/summary-snow-states-road-salt-problems

It also appears that there are legitimate explanations for the salt pricing issues raised by Missaukee County, the City of Grand Haven, the City of Jackson, Wayne County, and the City of Dearborn. Due to low salt supplies, only one supplier bid in Missaukee County and City of Grand Haven for the 2014-2015 winter season. This same rationale also applies to the City of Jackson. Detroit Salt did not bid for Jackson under the MiDEAL program in 2014 due to low salt supplies and a need to not overextend itself in the area, since two weeks before the MiDEAL bid was opened Detroit Salt was awarded a 30,000 ton contract with Jackson County and an 11,000 ton contract with Calhoun County. Likewise, Wayne County's pricing anomalies were likely caused by low inventories and the fact that only one supplier bid on the 2014 early fill. Lastly, the City of Dearborn's higher prices compared to the Downriver Community Conference are a result of DCC's three-year contract with a salt supplier.

Recommendations

1) Consider updates to the State bidding process

While this investigation focused on anticompetitive conduct, based on our findings, it appears the timing of the bidding is a crucial factor affecting road salt prices. Understanding that pricing of road salt is a complex process, we recommend further discussions with DTMB and MDOT to identify ways to improve Michigan's position in MiDEAL's road salt bidding process. One potential option is to set an earlier bid date to enable local governments to buy salt earlier in the season and to negotiate multiyear contracts. It appears that opening bids earlier in the year can generate more bids and at lower prices. We understand, however, that following mild winters it may be advantageous to delay the bidding process since stockpiles are high and prices may be lower. Accordingly, we recommend that DTMB review the timing of the bid process and work closely with municipalities to lock in competitive road salt prices.

2) Consider alternatives to road salt and modifying distribution methods

During our investigation we learned that one way to stretch the limited supply of salt is to combine it with other materials. Sand is most commonly used, but it is not the only option. It is our understanding that public works agencies are working with local businesses to obtain manufacturing byproducts to mix in with the salt. They are experimenting with additives such as cheese brine and molasses, rum and vodka distillery leftovers, and sugar beet juice.[41] We recommend that DTMB and MDOT reevaluate how MiDEAL can further utilize alternative products, including products already available under the MiDEAL program.

[41] This report does not address any environmental issues concerning the use of road salt or alternative road de-icing materials.

MDOT is already looking for ways to make salt distribution more efficient and implement techniques to reduce "bounce and scatter" and we encourage this continued review. Properly calibrated dispensing equipment can cut waste by nearly 35%.[42] Washtenaw County, for example, is having salt trucks drive slower and pre-wetting the salt to prevent bounce and scatter.[43]

Combined, new materials and efficient distribution can potentially reduce usage, and thereby lower costs.

According to Mackinac Center for Public Policy, there is no single "silver bullet," but rather a collection of practices that improve overall efficiency and effectiveness. The Center recommends improved plowing technologies, greater focus on calibration procedures, operator training, materials-placement strategies, greater use of liquids, advanced forecasting of weather and pavement conditions, improved material-spreading equipment, and greater public awareness.[44]

3) Evaluate ways to better utilize the Detroit Salt Mine

A major Michigan salt resource is the Detroit Salt Mine. This mine has been in operation for almost 100 years and the Detroit Salt Company appears to have potential to improve its delivery and production methods. Such improvements may potentially result in lower salt prices for the State of Michigan and its citizens. The mine is located 1,200 feet beneath Detroit's surface, spreads out more than 1,500 acres and has over 100 miles of underground roads.[45] As stated previously, it produces more than one million tons of salt annually. This is a smaller operation compared to the other mines in the area.

We recommend that the appropriate state agency meet with Detroit Salt to see if there may be ways to encourage better use of this resource. The company provides jobs to Michigan citizens and the mine is part of Detroit's history. One area to address is Detroit Salt's current delivery methods. It delivers salt to its Michigan stockpiles via truck, and does not use shipping or rail for Michigan deliveries. Increasing Detroit Salt's access to Michigan docks, thereby improving their ability to deliver its salt may allow it to bid in more Michigan communities. Due to its close proximity there may be an opportunity to reduce transportation costs if

delivery methods improve. In theory, increased competitive bids will result in better pricing. We also recommend discussing ways that the State can support improving Detroit Salt's production methods. An increase in production may allow Detroit Salt to bid in more Michigan localities.

Hi Eunice,

Are you familiar with the Contract Connect Flint Emergency Purchasing Button/form that Jenni inserted into our website last week? It worked Friday, but has not been working this week. I need to get it fixed ASAP. Can you help me or refer me? Jenni is on vacation this week.

Thanks!
Genevieve

It should be. But the responses aren't automated. I believe they go out once a day.

Copying Jenni Riehle to double check.

Thanks,

Brom Stibitz

Is there any way to have DTMB send a confirmation receipt to folks that submit their companies information online? We are getting many people wondering if their submission went through.

Thank you,

Laura

Good afternoon,

I just finished completing and submitting our emergency vendor aid sheet, and I never received any sort of confirmation that it was sent. Would it be possible for you to direct me to the right people, or place to confirm that this did go through. If it did not then I will need to resend it, that's okay I just don't know if it went through. Please see attachment to view completed document.

Thank You,
B/R

Rebecca and Jeanette – Here is another submission. I noticed that Mr. Langeveld did not submit the attached document he referenced, so I requested it from him and will forward it if/when he provides. Thanks.

Company: Landstar • JNJ Global Logistics
Location: MI
MainPhone: 1-888-292-6504
WebAddress: www.jnjgloballogistics.com
ContactName: John Langeveld
ContactTitle: President • GM
DirectPhone: 908-675-6806
Email: john.langeveld@landstarmail.com
ProductTech: 6500 Gallon Water Tankers with Pumps Hoses and Valves to distribute clean potable drinking water to the city of Flint.
ProductDescription: We Can Help!

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide Clean Potable Drinking Water to public schools, hospitals, churches and cruise ships that housed all emergency personnel and other public and private facilities.

Flint's current situation is so drastic that it requires a much more bold and comprehensive response to solve what could develop into a disaster if it's not tackled aggressively! We can strategically position Water Tankers around the city at key public facilities and pump the water into those facilities using our own independent pumps and hoses so the water is not affected by the contaminated pipes. This solution albeit temporary is very environmentally sound as you are not polluting with millions of bottles of water and the water is clean and safe as we would be bringing it in from another municipality. This solution will afford you the time to develop a strategic plan to deal with the pipe infrastructure and reconnecting to a safe water source.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply.

LANDSTAR

Emergency

Transportation Services

- We Can Help!

- 293,809 cases of bottled water have been distributed in Flint since January 9th = 705,120 Bottles of water
- 705,120 Bottles of water = 11,916,528 Ounces of water
- 1 Water Tanker Holds 832,000 Ounces of water
- 11,916,528 Ounces of water = 14 Water Tankers
- Recycling can handle only so much volume - Water Tankers = No Pollution of bottles in the City Landfills

Dear Logistics Chief,

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply in Flint. We can strategically position Tanks around the city to support both public facilities & the local residential communities.

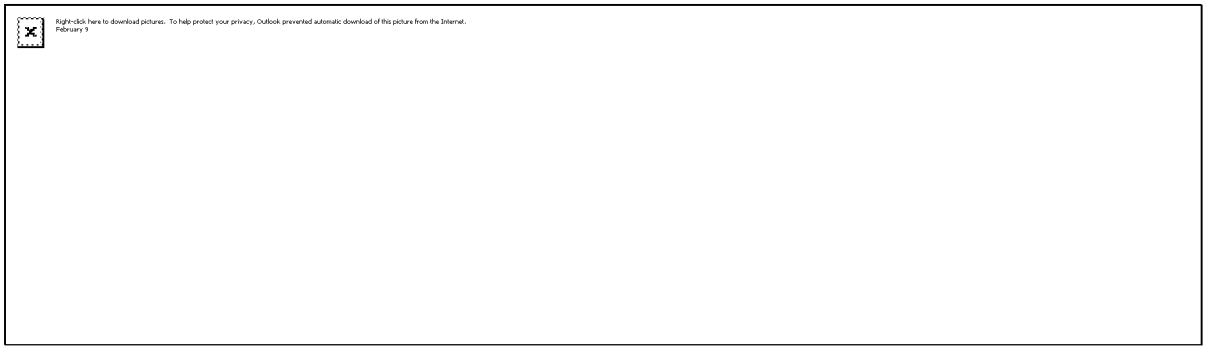
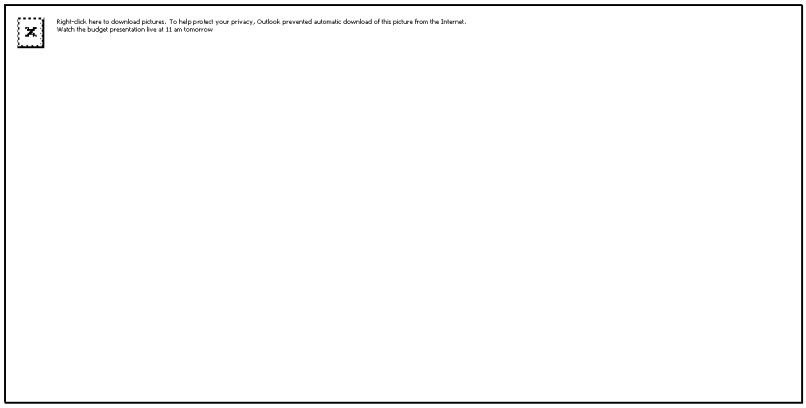
To: John.langeveld@landstarmail.com
Subject: Tuesday, Feb. 9 update from the Flint Water Response Team



This daily update is being issued in order to provide the latest information regarding actions and available resources.

LIVE at 11 AM tomorrow: Governor Rick Snyder presents his FY 2017 budget



Governor Rick Snyder will present his FY 2017 budget live tomorrow at 11 am. You can watch it at www.mi.gov/MIBudget. Join the conversation online using the hashtag #MIBudget.

Over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency

Volunteers are coordinated through the Volunteer Reception Center, operated jointly by the American Red Cross and United Way of Genesee County. These volunteers have performed numerous tasks throughout the community from delivering water resources door-to-door to assembling water test kits. Click here to learn more.

Outreach to Flint's blind community helps ensure access to information and resources

The Bureau of Services for Blind Persons (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency. Bureau staff contacted nearly 40 BSBP clients living in Flint by either home visit or phone to ensure they had access to all health-related water emergency information and to offer assistance in obtaining bottled water, filters, water replacement cartridges and water testing kits.

Flint families need critical clean water resources. Since January 9, the state has distributed:

- 293,809 cases of bottled water
- 104,256 water filters
- 210,596 replacement cartridges

- 35,499 water testing kits

REMINDERS

- For Flint water assistance: Dial United Way 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing United Way 211 please call the Governor's office directly at 517-335-7858.**

ProductTech: Maxi-Mizer (MXM) Technology
ProductDescription: A NASA originating technology that transforms all fossil fuels (including coal) into a clean green energy source by destroying carbon and all harmful toxins inside of the combustion process without releasing any into the atmosphere, thereby preserving our our most vital resources that human existence depends on - Breathable Air, Drinkable Water, and Fertile Soil. MXM Technology will catapult the State of Michigan into saving lives, significantly reduce health care cost, significantly improve our environment,and generate revenue in the hundreds of millions of dollars where it was never thought possible. We own the patent, registered with the EPA since 1984, and has been proven with over 12 years and 302 million miles of documented and scientific research by the top two INDEPENDENT Laboratories in the Nation, this transnational technology will provide the State of Michigan and the world with the most efficient and effective means of utilizing today's gaso line, di esel, and all other alternative fuels.
FreeorInKind: NO.
URL_for_Product: www.mxmtechnology.com
Comments: I do not want Governor Snyder to step down, but I do want to help him step up. Implementing MXM Technology right now will help him to address and solve his most pressing dilemma (Flint Crisis) right now. Based on the science and documentation of our technology, we are aware that many in his staff, maintenance directors, and city managers, will continue to doubt our technology only because of what isn't understood on paper that cannot be applied from their knowledge or understanding, but please stop to consider the 30 years we have been in business on a global scale. We look forward to helping Governor Snyder.

Subject: Thank you for your response

Dear Ms. Hudson,

Thank you for your recent submission to the State of Michigan's purchasing department. All vendor submissions to assist the Flint emergency will be reviewed. You ***may*** *be contacted by state representatives for additional information regarding your product or service.* ***Not all vendors will be contacted*** *to provide additional information.*
We encourage you to register your business on the state's bid posting website www.Buy4Michigan.com. This is where the state will post contract opportunities $10,000 and above. The state is required to competitively bid the purchase of most goods and services.
You may also register your business on the Contract and Payment Express which is the state's electronic fund transfer system. In the event that you are awarded a contract or the state would like to make a purchase from your company, registration on this website will ensure you are able to be paid. Visit www.michigan.gov/cpexpress.
For more information on the state's contracting process, please visit the Contract Connect website at www.michigan.gov/micontractconnect. The Contract Connect website will provide you with training tutorials, purchasing laws and policies, and much more.
Thank you again for your submission and readiness to assist the residents of Flint.

Sincerely,
Department of Technology, Management and Budget – Procurement

Subject: RE: Thank you for your response
Importance: High

Mr Hayes,

Here are the attachments you requested:

Also after running some numbers I came to some conclusions how we could eleviate a potential environmental disaster with all these empty water bottles!

- 293,809 cases of bottled water have been distributed in Flint since January 9th = 705,120 Bottles of water
- 705,120 Bottles of water = 11,916,528 Ounces of water
- 1 Water Tanker Holds - 832,000 Ounces of water
- 11,916,528 Ounces of water = 14 Water Tankers
- Recycling can handle only so much volume - Water Tankers = No Pollution of bottles in the City Landfills

1	**Comments/Questions**
2	Patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%. Produce 52 gallons of purified water per hour. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water. Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank.
3	The Citizens of Flint need more than bottled water. They need to be able to use the tainted water they are still paying for. Roving Blue gives them that freedom and a sense of hope until those old pipes are replaced.
4	
5	This is ideal ans so useful for the families with babies in Flint, Michigan, as they are relying on bottled water and bottled drinks.

6	908-675-6806	john.langeveld@landstarmail.com	6500 Gallon Water Tankers with Pumps Hoses and Valves to distribute clean potable drinking water to the city of Flint.	We can strategically position Water Tankers around the city at key public facilities and pump the water into those facilities using our own independent pumps and hoses so the water is not affected by the contaminated pipes. This solution albeit temporary is very environmentally sound as you are not polluting with millions of bottles of water and the water is clean and safe as we would be bringing it in from another municipality. This solution will afford you the time to develop a strategic plan to deal with the pipe infrastructure and reconnecting to a safe water source.
7	703-867-4376	gmiller@caylym.com	Fontana - water storage and transportation	The Fontana is a reusable 275 gallon container that ships efficiently, assembles in minutes and is reusable without any cleaning. Replace the liner and refill. It fits in the back of any standard pickup and can be filled and transported to site then convenient spouts allow for quick and efficient dispersion to cans, bottles, and containers.
8	502-499-4977	media@a2zozone.com	Aqua 6 Multi-Purpose Ozone Generator	The Aqua Multi-Purpose Ozone Generator is used to add ozone to drinking water, water for bathing, water for dental hygiene, and cleaning fruits and vegetables to help them stay fresher for longer. If this unit was used in water in Flint, once the ozone was added, it would cause the lead in the water to sink to the bottom. Thus, leaving clean drinking water on top. If the water on top was filtered, it would be perfectly healthy to drink.
9	830-302-0433	info@atlascoolers.com	ATLAS A2350 Faucet filter, M1340 Showerhead prefilter	We manufactur NSF 53 compliant faucet filters with a capacity to be able to meet the needs of the current situation going on in Michigan. We also off shower filters, and countertop filters that are proven to remove 99.9% of lead contamination.

10	I do not want Governor Snyder to step down, but I do want to help him step up. Implementing MXM Technology right now will help him to address and solve his most pressing dilemma (Flint Crisis) right now. Based on the science and documentation of our technology, we are aware that many in his staff, maintenance directors, and city managers, will continue to doubt our technology only because of what isn't understood on paper that cannot be applied from their knowledge or understanding, but please stop to consider the 30 years we have been in business on a global scale. We look forward to helping Governor Snyder.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz
Chief Deputy Director
Michigan Department of Technology, Management and Budget

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of documents (electronic or otherwise) that correspond to the issues identified in the search terms correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Documents (electronic or otherwise) that correspond to the issues identified in the search terms from the past 10 years should be included.

You should search for *each term exactly as it is shown in Appendix 1. This will vary depending on which operating system you are using.* After you complete a search term, check the box beside the term.

Search Terms:

- ☑ Legionnaire
- ☑ Legionella
- ☑ boil water order and Flint
- ☑ coli and Flint
- ☑ bacteria and Flint
- ☑ microb and Flint
- ☑ TTHM and Flint
- ☑ Lead and Flint
- ☑ emergency and Flint
- ☑ Karegnondi
- ☑ Genesee County Health Department
- ☑ Flint and utilities
- ☑ Lead and Copper Rule
- ☑ Detroit Water and Sewerage Department and Flint
- ☑ DWSD and Flint
- ☑ Flint River
- ☑ Pb and water
- ☑ KWA
- ☑ Flint and water

Search conducted on the account of: Genevieve Hayes

By (your name): Genevieve Hayes Genevieve Hayes

Date completed: 2/19/16

Estimated time spent conducting search: 1 HOUR

Please return this completed Checklist to DTMB Director's Office staff by close of business on Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

Subject: BC Water News: Great Lakes -- Detroit wins bondholder approval for new water authority

VIEW THIS EMAIL IN YOUR BROWSER

Tuesday, Dec. 8 , 2015

Good morning,

Detroit has cleared the final major hurdle that will enable a new regional authority to take over operations and debt of the city's water and sewer department by Jan. 1, city officials said. Jon Wheatley, the department's public finance manager, said the city surpassed a 51 percent threshold of water and sewer bondholders consenting to the transfer of more than $4 billion of debt to the Great Lakes Water Authority, which grew out of Detroit's historic bankruptcy.

Some other stories making news across the Great Lakes:

- In Minnesota's farm country, clean water is costly
- Bill would regulate Wisconsin manure spreading
- Flint water still unsafe without lead filters, professor says
- Waukesha closer to diverting Lake Michigan water
- Cleveland council OKs $51 million in sewer, water repairs

Michigan's top environmental official resigned after an independent task force delivered its initial findings on the Flint water crisis - conclusions that also prompted an apology from Gov. Rick Snyder. Dan Wyant, director of the Department of Environmental Quality since 2011, tendered his resignation last week, marking the second agency shakeup in just over two months related to Flint's drinking water problems.

Good morning,

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.

Michigan Gov. Rick Snyder declared a state of emergency in Flint last Tuesday over problems with lead in the city's drinking water, the same day federal officials confirmed they're investigating the matter. Snyder's action follows emergency declarations by the city and Genesee County, which requested help from the state. Michigan's declaration makes state resources available in cooperation with local response and recovery operations.

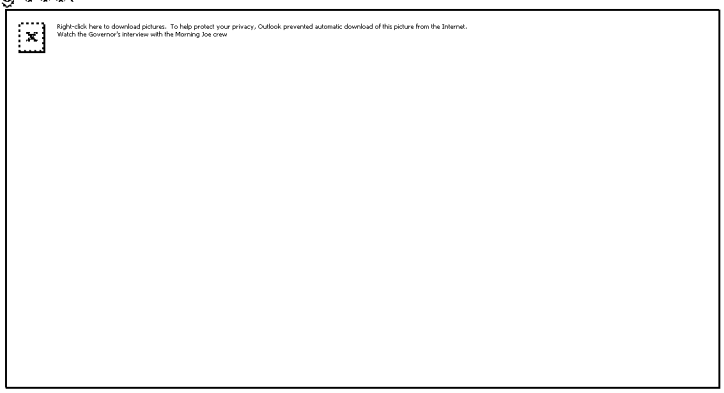
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

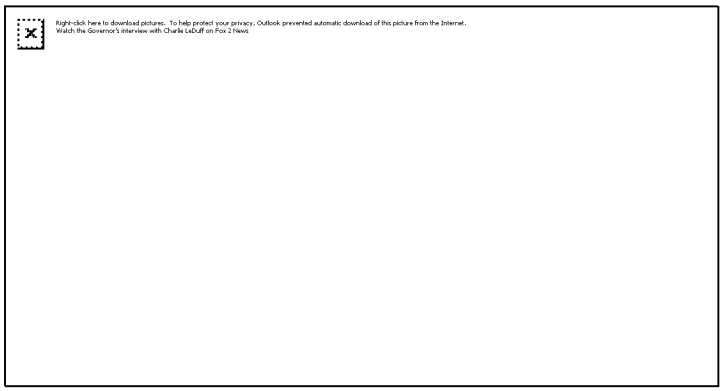
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

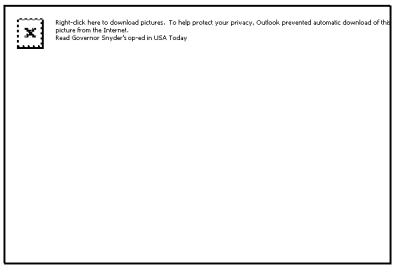
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

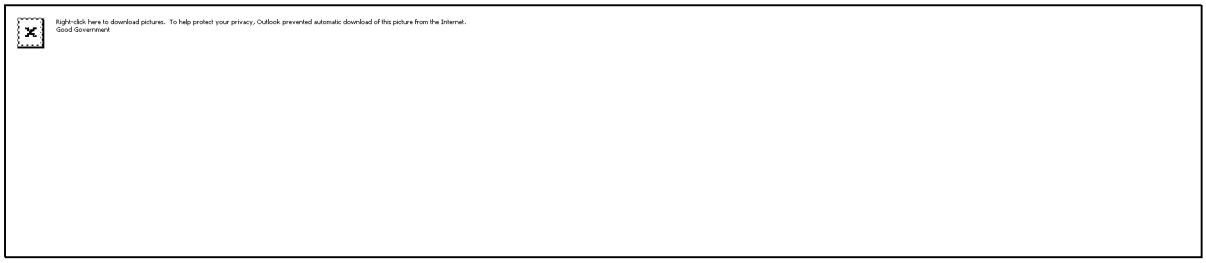
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

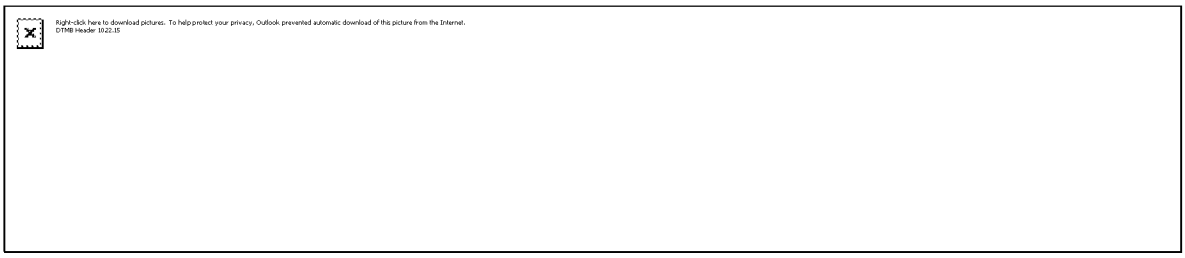
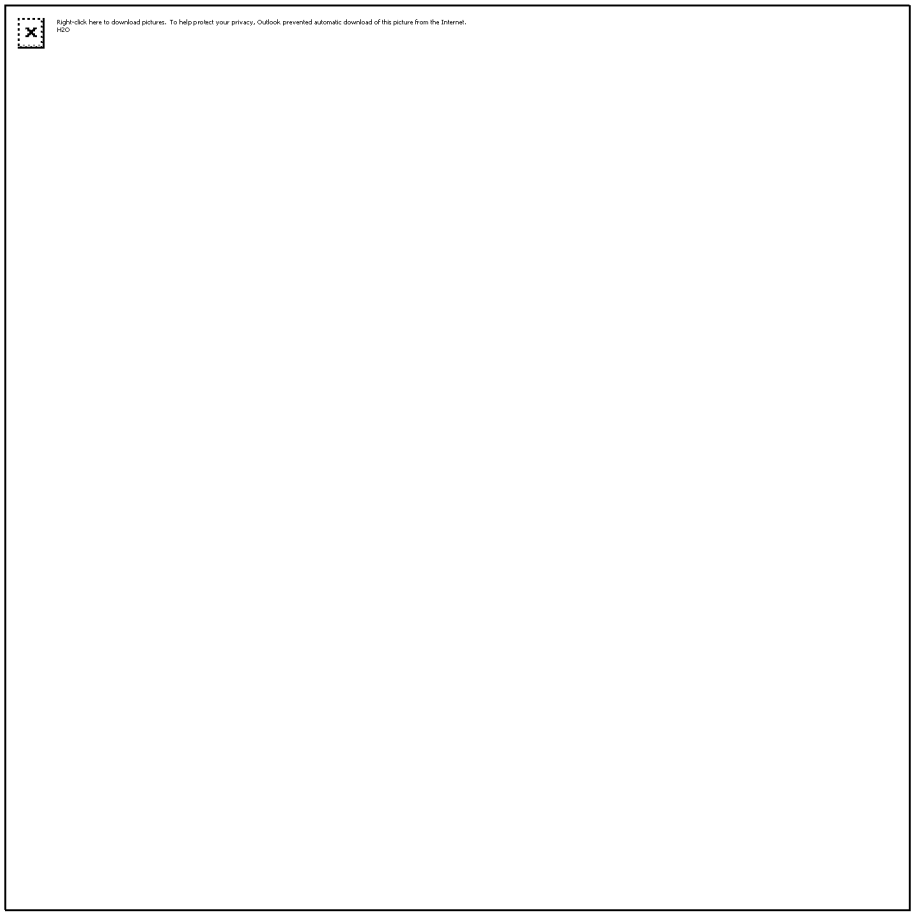
Sent: Tuesday, January 26, 2016 8:39 AM
To: Hunter, Lymon (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

President Barack Obama said Thursday his administration is giving $80 million in aid to Michigan mostly to help repair Flint's water infrastructure and make the drinking water safe. Speaking to a gathering of mayors at the White House, the president called the lead contamination of drinking water in Flint an "inexcusable" situation. A White House official later said the revolving fund money would be made immediately available.

Under mounting pressure to rip out and replace lead pipes that connect an estimated 15,000 or more customers to main water lines, Michigan Gov. Rick Snyder said that the state first intends to make the existing pipes safe by rebuilding a protective coating between the lead and the water. The governor said the state is still trying to determine where all the lead service lines in Flint are located, and that replacing them will be a long-term issue.

New Best Practice

The Place of Public Procurement Within The Entity

The placement of Procurement should be operationally distinct from other departments and divisions.

The 'Place of Procurement' refers to positioning Procurement within the entity to optimize the influence and impact of Procurement on internal and external stakeholders.

This best practice builds a case for the strategic placement of the Procurement function. This placement maximizes the effectiveness of Procurement within the entity and is critical for the entity to fully benefit from Procurement operations.

Subject: RE: State of Michigan Elevator Bid

Lymon,
I see on from the bid document that the mandator walk through schedule has
10 official set locations and times. I realize that a number of those will encompass multiple locations. There are a number of locations that are not represented in the walk through schedule such as Jackson, Flint, Saginaw, Escanaba, Grand Rapids, Port Huron - Blue Water Bridge, etc. (as well as a number of the Correction Facilities). How will the remaining facilities be handled? Will there be no walk through at these building? Thanks for any information you can provide.

Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

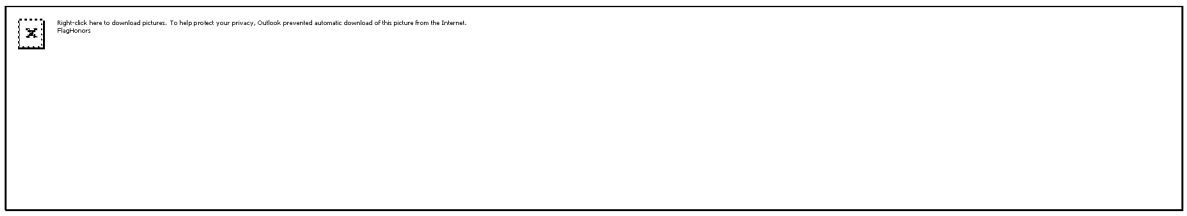
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

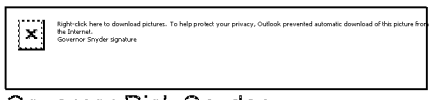
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Attachments: SOM Armed2.doc; ATT00001.htm; Flint Emergency Guard Request

Importance: High

Rebecca,

MSP made an emergency request for an armed guard for after-hours patrols of the warehouse where supplies for the Flint water emergency are being stored. Attached is revised pricing for the armed guard in support of the State emergency operations in Flint. Jeff Pratt's original email with the previous pricing is also attached.

My understanding is Jeff Pratt spoke to you on Sunday, January 17th and you instructed him to contact DK Security for emergency deployment of an armed guard.

I estimate the 4 week cost on the previous MOU from DK to be $25,676 and the 4 week cost for the revised pricing to be $16,573.60. Do you approve the revised pricing for this emergency purchase order?

Thank you,
Denice

Ladies,

On Sunday Jan. 17th we received a request from the State Emergency Operation Center to deploy an armed security guard in support of State emergency operations in Flint. The details of the deployment are contained in the attached MOU provided by DK Security. I am requesting your assistance with the creation and issuance of an emergency purchase order. We informed DK Security that the deployment would be on a month-to-month basis to start. The deployment commenced on Jan. 17th at 3:30pm. The hours of operations are 7p to 7a Sunday through Saturday.

Hopeful I have provided you with the appropriate details required for the PO. Please contact me if there is anything further you need or actions that I need to take.

Thanks,

Jeff

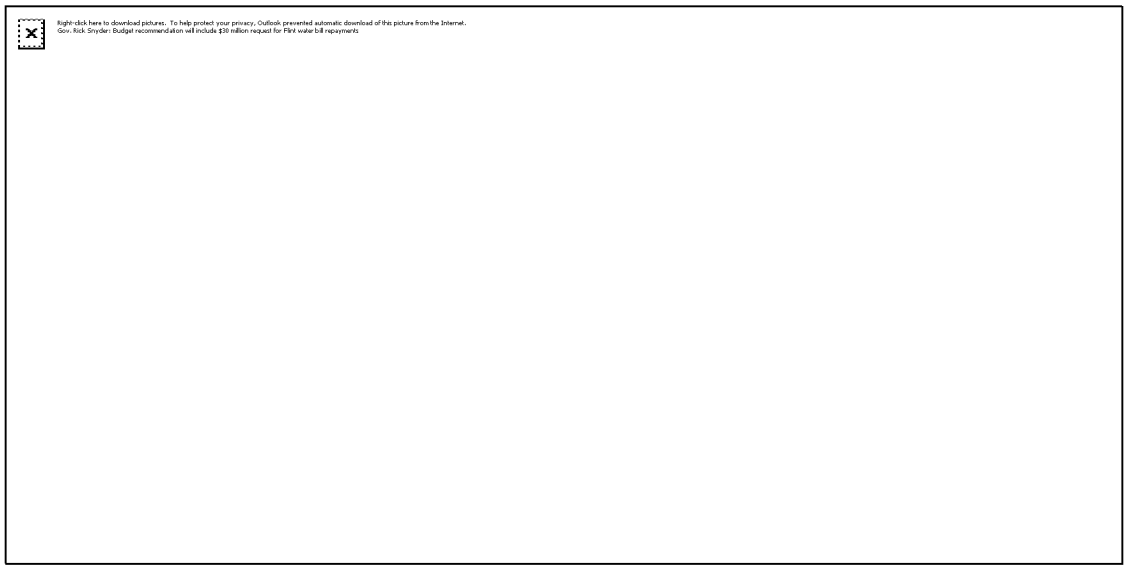
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer

costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

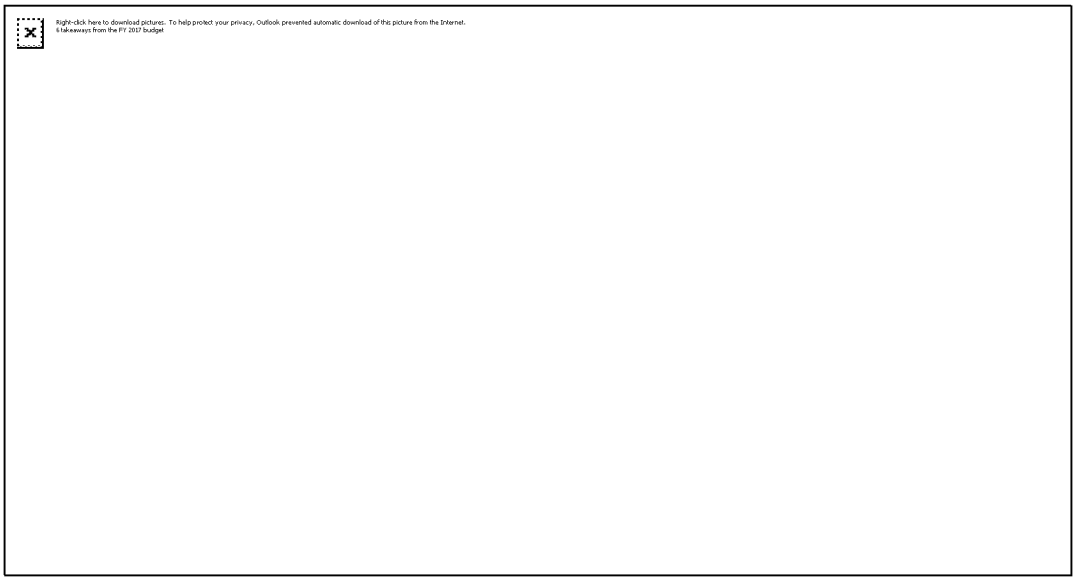
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



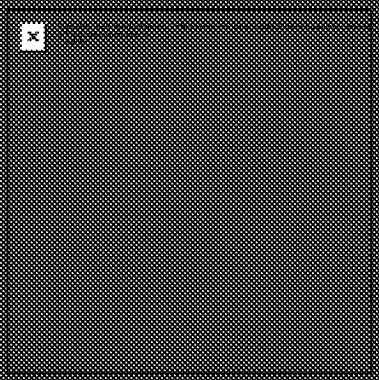
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

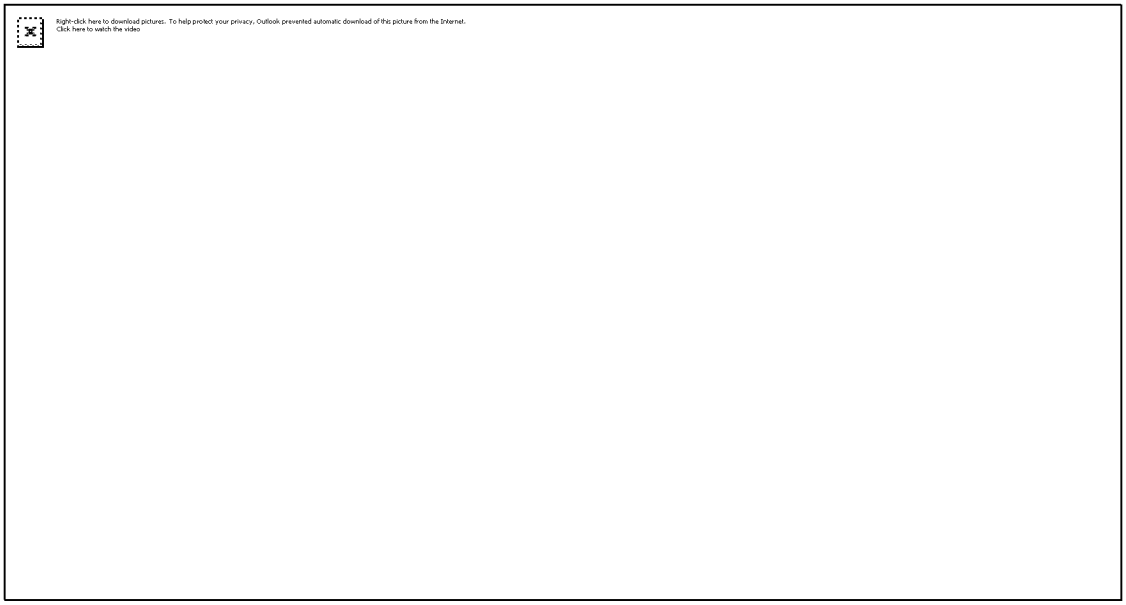
Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

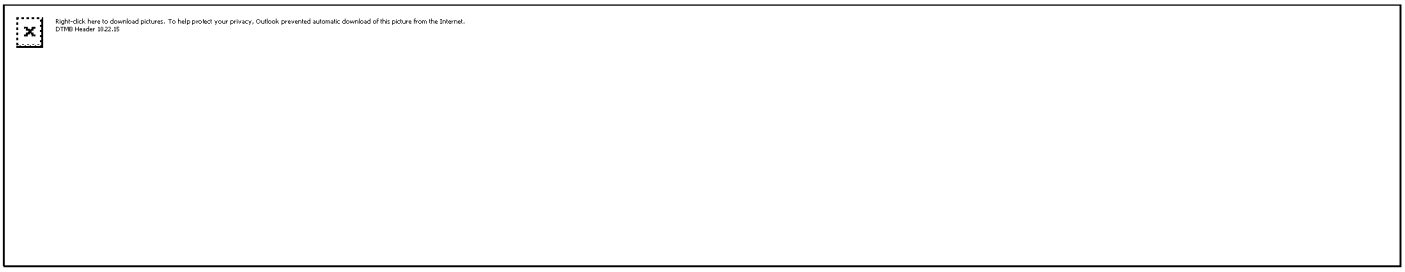
From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Hunter, Lymon (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: Armed Guard Deployment - Second Flint warehouse
Attachments: Tables - Security Guards Armed and Unarmed.xlsx

Denice;

Please see attached Armed Security Guard Table that reflects all the current hourly bill rates and wage rates as well as OT rates where applicable.

Also, I researched our entire armed guard portfolio and gleaned that the bill rate includes "staff, vehicle and vehicle maintenance costs" where roving patrols are required.

Finally, as it relates to mileage, "If roving patrol is performed by vehicle, Contractor must keep a daily mileage log showing the number of miles covered during each roaming patrol. These reports shall be provided to the CCI at a specified time on a regular basis or upon request."

Please let me know if you have any questions with any of this information.

Thanks,

Lymon C. Hunter, CPPB

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Denice - No. Per my previous email - when I did a cursory check while Lymon was on vacation, the rates appeared to be in the $19.10 to $36 range for current DK armed contracts.

Lymon - Please work with Denice to:

- Verify the current range of rates for DK armed security
- Quantify the night premium, and/or any overtime. The $43 may be explained by adding that to the top of the range above.
- Verify whether we pay for a marked car on other security contracts to benchmark the rate if possible.
- Verify whether mileage is paid on other DK contracts.

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Jeff – Is the $43.50/hour rate effective from January 17, 2016 when the first armed guard was deployed at the first location in Mt. Morris? (The original request was for $68/hour.)

Rebecca – Does DK's explanation below look satisfactory? It is a single guard on duty for a 12 hour shift, so there are 4 hours of overtime every day. Also the hours worked are from 7 p.m. to 7 a.m., so I also assume a night premium is included in the hourly rate.

Thanks,

Denice

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Denice,

At your request DK Security has provided the following cost breakdown for the guard and vehicle associated with the Governor's declared state of emergency for the Flint water crisis. Please let me know if you require anything further or if there are additional questions.

Guard

Normal bill rate for armed staff is $65/hr. Because the SOM is a current client we dropped that rate considerably. The $43.50 is based on several factors. One major factor is what we pay our staff. All of the armed staff are paid at least $20/hr. We pay this to ensure you get quality staff. Any armed officer we deploy to this site has an extensive security background as well as a long history of weapons safety and training. We also factor in the location, available staff in the area, what amount of OT it going to cause, management time and involvement and what equipment and supplies will be needed. All these factors play a role when setting the bill rate.

Vehicle

We bill $250 week for vehicle use. That rate is to account for fuel cost, wear and tear (we already picked up a nail in the tire) and the fact that it is a fully marked vehicle with lights and sirens.

Mileage

Standard IRS rate .54/mi

Thanks,

Jeff

Denice

Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.

Please let me know if you have questions.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

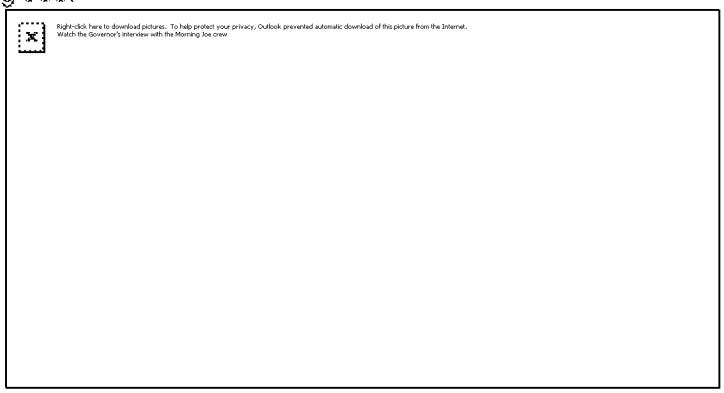
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

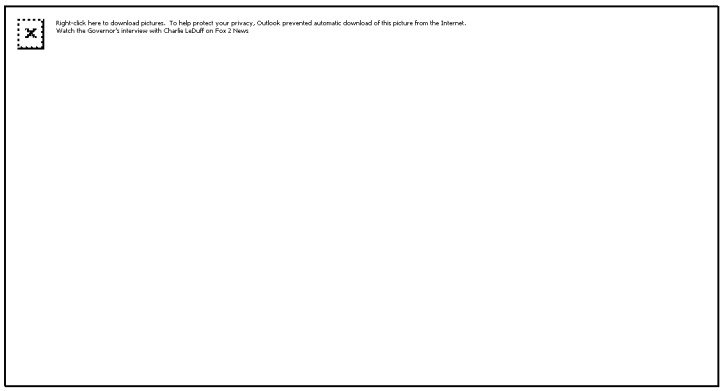
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

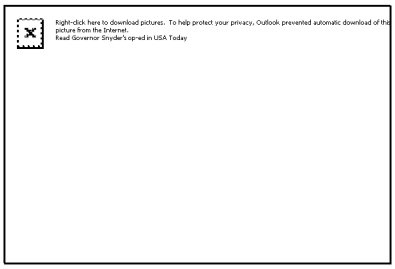
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

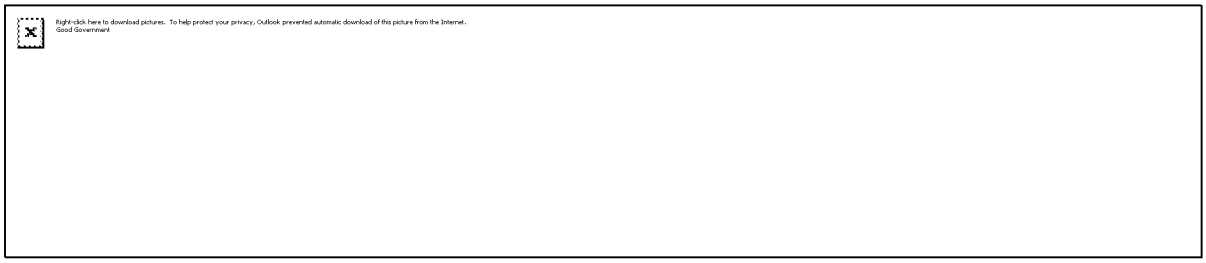
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Wireless Emergency Alert (WEA) - What is it and why does it wake us up?

By: Karole L. White, MAB President/CEO

On Friday, January 15 at 2:00 AM, a WEA was issued for the full states of Michigan and Colorado by Michigan State Police in the form of an AMBER Alert for two missing/abducted children from Coloma, Michigan. Thanks to excellent police work, a law enforcement officer in Colorado recognized the vehicle from a police notification he received earlier, and the abductor was captured. The children were recovered unharmed. Read more...

Here's Your Most Important Digital New Year's Resolution

By: Seth Resler, Jacobs Media

It's that time of year when we step back to look at the big picture. What do we hope our stations will accomplish in 2016? I'd like to suggest one digital New Year's resolution above all the others: Set up a weekly web meeting. Read more...

ASSOCIATE MEMBER HIGHLIGHT: THE YAFFE GROUP

By: Mike McClure, Creative Director at The Yaffe Group

Our founder, Fred Yaffe, helped Little Caesar's come up with the "Pizza Pizza" concept.

Over half of our staff has been here for more than 10 years and the majority of them have been here for more than 20 years.

Tired of seeing the best advertising prospects coming from MSU, Fred founded the Yaffe Center for Persuasive Communication in the Ross Business School to give his alma matter, the University of Michigan, a way to create marketing professionals of equal or better caliber.

Subject: Bluewater Water Purification System for Flint Michigan

Follow Up Flag: Follow up
Flag Status: Completed

I am writing this email to check whom I should contact for Flint water crisis.

Bluewater donated two Reverse Osmosis Water Purification System to Flint and local residents already start to use pure water from our machine. The one at Catholic Charities serve 1000 meals everyday and their kitchen use our machine to produce pure water and prepare food there.

We would like to know if there is any chance that Michigan government can purchase more these machines for Flint, we got many emails from journalists ask if we can help, some schools kitchen are forced to use bottle water to prepare for food. One Pro reverse osmosis water purifier can produce 52 gallon pure water per hour, which can help 2700 people with 2 Liter pure clean water, you can save 4800 of 1 liter bottles for environment. Meanwhile, its professional Model for restaurant ,hotel and hospital to use. It is direct flow and doesn't need water storage tank, products are made in Sweden . Once you open faucet it is 24 hours pure water. If government can purchase 38 these machines install at public area, it can help Flint residents survive with pure water every day. We have warehouse in Kansas City can ship to Flint the second day.

Please let me know whom I can follow up or contact for this case. We want to help Flint and will look forward to hearing from you soon. To know us more, please visit http://www.bluewatergroup.com

Below are two contacts you can reach out to check the water quality before/after with Bluewater water purifier.

Location 1 we donated:
Liz Ruediger
Director of Operations & Development
Shelter of Flint
605 N. Saginaw Street, Suite 2A
Flint, MI 48502
810-600-4537

Location 2 we donated:
Shegos, Sheila <sshegos@ccsgc.org>
810 232 9950 ext. 325
Catholic Charities of Shiawassee
and Genesee Counties
901 Chippewa St.
Flint, MI 48503

Look forward to hearing from you soon. Thanks!

Best Regards
Lin

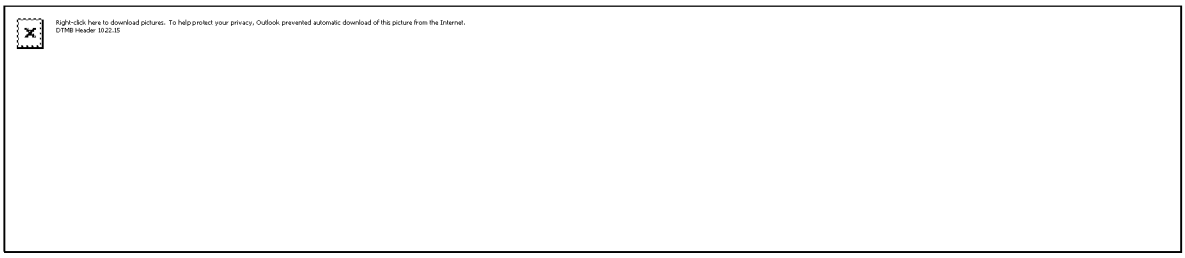
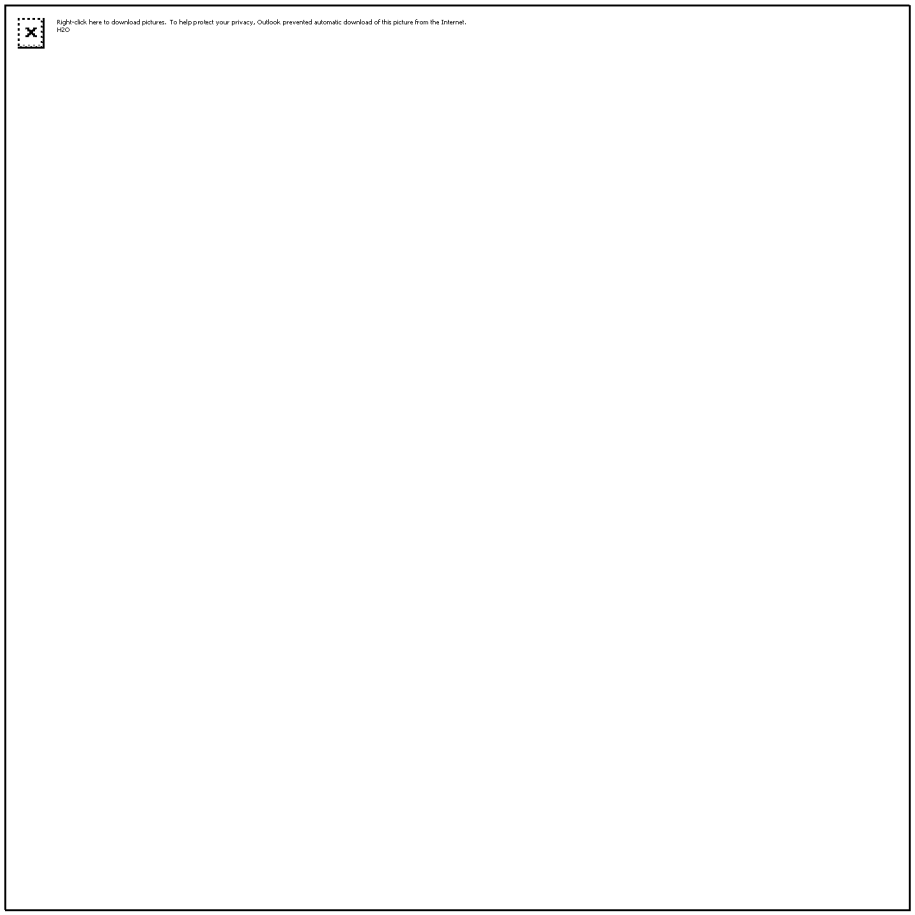
Turning tap water into healthier drinking water.

From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Riehle, Jenni (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: Flint Response - Vendor Outreach needed.

Jeanette

Our vendor outreach coordinator, Jenni Riehle, is working with our PIO/Caleb and CPO/Jeff to coordinate a solution with Shannon and Tori.

I'm asking Jenni to be the lead on getting website changes or other information in place, based on a conversation Jeff and Caleb had this afternoon.

Sounds like they want inquiries to route into the SEOC. Items like the one below would need to be routed to DEQ technical staff for evaluation.

Jenni will be reaching out, please feel free to contact either of us directly.

Thank you.

Chris-
We (many people in Silicon Valley) would like to help, and we keep trying to work with the people trying to solve the Flint water crisis. MSU Alumni Assoc in NorCal is now engaged. So is the Chairman of the Board of Cal Water, Peter Nelson, the #6 largest public utility in the USA.

We keep getting zero feedback, no guidance, so we are doing what we can: working with churches and with relatives in Flint.

Tomorrow, we will pull additional water samples from several places, and run those through an EPA certified lab. I expect that we'll have data that shows we can pull water directly from the Flint River, run it through our purifier, and have 100% of all pathogens destroyed, zero lead, zero arsenic, etc. Plus a few more tests from various Flint tap water sources. Of course, with 0.5 micron filtration and 72k mV/cm**3/sec, no pathogen can survive. EPA certified lab tests from multiple states can document that. In addition, the science is well understood. But we'll do it – yet again – with a lab in Michigan, using Flint water sources – in order to try to increase the chances that the gov't people in charge of the fix will pay attention.

Can you or your designee get on a phone call, no recording, no press, just you, me and Peter Nelson, explain where your "fix" is really, and use the engineering resources of Cal Water to help out?

Wishing you continued good luck. What happened in 2014 and in 2015 can't be changed. Going forward, it's about stopping all additional lead contamination, and making the water 100% safe to drink/shower in/etc for the people in the Flint Muni water district.

Jeanette,
After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. There are a few things that need to be considered though.

- Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all.
- If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed.
- Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at 517-303-4038.

Importance: High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on www.helpforflint.com to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

Michigan Business Network

Hi Jenni,

It seems like just yesterday we were clinking our glasses of champagne and ringing in the New Year. Somehow, with barely a breath taken, January is coming to a close. Is it just us, or is 2016 flying by? We are happy to report, however, that business this year is off to a great start! We'd love to hear how your business is doing thus far as well. Email us!

The MBN team has been busy on the road this month covering important statewide events. Additionally, we have leveraged the time and talent of the industry experts, who assist in creating the great shows for Michigan Business Network.

Also, our auto reporter extraordinaire, Steve Purdy, made it back safely from driving a leg of "The Drive Home." You may have heard about his experience with his report, which can be found by clicking here. He has since gone on to do MBN's on site coverage of the world-wide event, North American International Auto Show. Additionally, Steve will be taking to the road again this week, and learning

all the ins and outs of The Michigan International Auto Show coming up in Grand Rapids.

Road shows are not uncommon for our hosts; for example, Taylor Kelsaw recorded some of his December segments of *Show Biz Weekly* from California. We often catch up with Jim Wardlaw of *Pocket Change*, while he is in the State of New York rather than his Michigan offices.

February's schedule already has some events planned for our road team, so if you see us out and around, please stop by and say hello!

Thanks again,

The MBN team

Top Stories of the Week

Here are a couple top stories of the week. But there's a lot more good stuff below! Be sure to keep scrolling so you don't miss anything.

Are You in a Social Media Quagmire

Chris talks with Candy Jones-Guerin, of WebWorld Advantage, about the social media quagmire. It takes a real effort to stay on top of it, needing continual policing and regulating. Constant Contact did a study and the average cost to businesses for social media is $273 an hour.

Candy shares a five-step approach to handling social media in your business, so you can get out of the quagmire!

Due Diligence Workshop

Great Lakes Angels

February 10, 2016, 12:30 p.m. - 6:15 p.m.

On February 10 the Great Lakes Angels are proud to present a half day seminar on Due Diligence.

Understanding how to prepare for and perform due diligence on a company is one of the most important pieces of executing a successful early stage equity deal. Angel Groups and Investors that have a strong due diligence process are better positioned to increase returns. In fact, the Kauffman Foundation report, "Returns of Angels in Groups," found that there is a direct correlation between the more time investors spend on due diligence and an increased rate of return on their investments.

FROM THE DESK OF DAVE LORENZ

As the Pure Michigan Snow Day promotion continues, it's been great to see so many in the travel industry send in their snow day dance videos and share their "snow day" adventures via social media. On Monday, we hosted a #PureMichiganSnowDay Twitter chat discussing ways to take a Pure Michigan Snow Day – a special thank you to everyone who participated and especially to Shanty Creek and Stormy Kromer for offering our fans terrific giveaway items.

If interested in re-living the chat and seeing comments and reactions from our fans, check out posts from January 25 on the Pure Michigan twitter page from noon – 1 p.m.

I've had the opportunity to be in northern Michigan for several meetings the past two weeks and although I haven't yet had time to throw on the skis myself, it's been rewarding to see the buzz of activity at our resorts. We're hopeful the pent-up demand that was created by a slow to develop winter will drive travel to ski, snowmobile and do all of the other things we love to do at this time of year.

The big challenge we are dealing with right now is the water contamination issue in Flint. I know you are as concerned as I am for all of those who have been affected by the situation. I can only say that I'm confident that everything that can be done to find solutions, will be done.

For those of us in the travel industry – we can do our part to help by doing what we do best. Let's stay positive promoting the great State of Michigan as a premier place to visit, four seasons of the year. By doing so we'll continue to positively impact our economy, generating jobs and revenue, which can be used to benefit our entire society.

This state has faced many challenges over the years and we have always come together in unity to resolve our issues. Let's hang tough and support Flint and everyone working to make things right. For more information on what is happening in Flint visit www.michigan.gov/flintwater and to find out how you can help visit www.helpforflint.com.

Last, but not least, Happy 179th Statehood Day Michigan! Hear what folks love most about Pure Michigan in this statehood video.

Sincerely,

Dave Lorenz, Vice President Travel Michigan

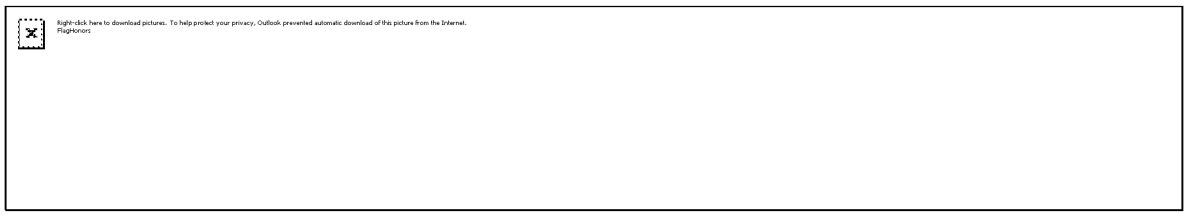
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

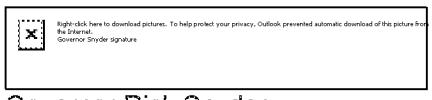
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

maintained by the Commission in its own database; the Commission will include documents already on file with the FCC in the online file;

· Exempt existing political file material from the online file requirement, and require that political file documents be uploaded only on a going-forward basis, consistent with the approach taken in the television transition;

· With respect to radio broadcasters, impose the online file requirement initially only on commercial stations in the top 50 Nielsen Audio markets with five (5) or more full-time employees, while delaying for two years all mandatory online public file requirements for other radio stations;

· Permit entities that are temporarily exempt from part or all online public file requirements to upload material to the online file voluntarily before the delayed effective date of their online file requirement;

· Permit entities that have fully transitioned to the online public file to cease maintaining a local public file, as long as they provide online access to back-up political file material via the entity's own website if the FCC's online file database becomes temporarily unavailable.

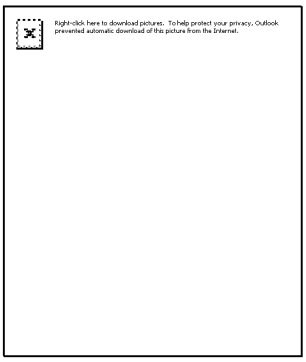
Federal/Congressional Update

Update from the NAB

By: Bruce Goldsen, Jackson Radio Works & NAB Radio Board Member



Congress Passes Legislation That Grandfathers Joint Sales Agreements: Legislation passed in December limits a 2014 Federal Communications Commission (FCC) decision that made most television joint sales agreements (JSAs) count toward strict ownership limits, violating media ownership rules.

Copyright Royalty Board (CRB) Announces Reduced Streaming Rates: As a result of NAB advocacy, the CRB reduced royalty rates for radio broadcasters' streaming services by 32 percent in 2016, moving rates in the right direction.

Subject: Michigan Talent: Challenges and Solutions

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.
Michigan Business Network

Hi Jenni,

If you recall in the most recent Accident Fund Insurance Company's Michigan Future Business Index, the number one challenge to businesses in the state of Michigan is securing and maintaining talent; quality employees who bring value to the company. With that in mind, it is important we think about where those employees come from. Invariably, they come from an educational or training system. Most employers realize that no matter how well prepared an education or training system makes an employee, there is going to be continued training required by that new employer, before the employee brings value to the company. The real problem occurs when that potential employee comes to the company unprepared or ill-equipped to make use of their training. It's very similar to giving a college scholarship to someone who isn't college ready. It turns out to be an incredible waste of everyone's time.

There are a variety of reasons why people are not ready to be trained, but the reason really doesn't matter that much. At the end of the day, they're simply not ready. They won't help us. So, what do we do? We get involved in the training programs. Get involved in the schools. Get involved in mentoring, internships and any other initiative we can think of to give us an edge in this talent competition. It is our challenge as business people. Let the solution to this problem be ours as well.

Have a prosperous week,

Chris Holman
MBN Founder and CEO

Top Stories of the Week

Here are a couple top stories of the week. But there's a lot more good stuff below! Be

sure to keep scrolling so you don't miss anything.

Grand Traverse Pie Company Using Michigan Honey

Chris Holman talks with Mike Busley, of Grand Traverse Pie Company. They currently have 15 Grand Traverse Pie shops across Michigan and Indiana, with the first opening 20 years ago. It all started in Traverse City.

Mike is traveling around the state promoting National Pie Day, which is on January 23. On this day Grand Traverse Pie Company offers a free slice of apple or cherry crumb pie at its stores. In addition, Mike is promoting their latest member to its pie family, the Michigan Apple Honey Pie. There is no sugar in this pie, just Michigan honey harvested at Sleeping Bear Farms. The bees on this farm are critical to apples and cherries, as well as the honey in this pie.

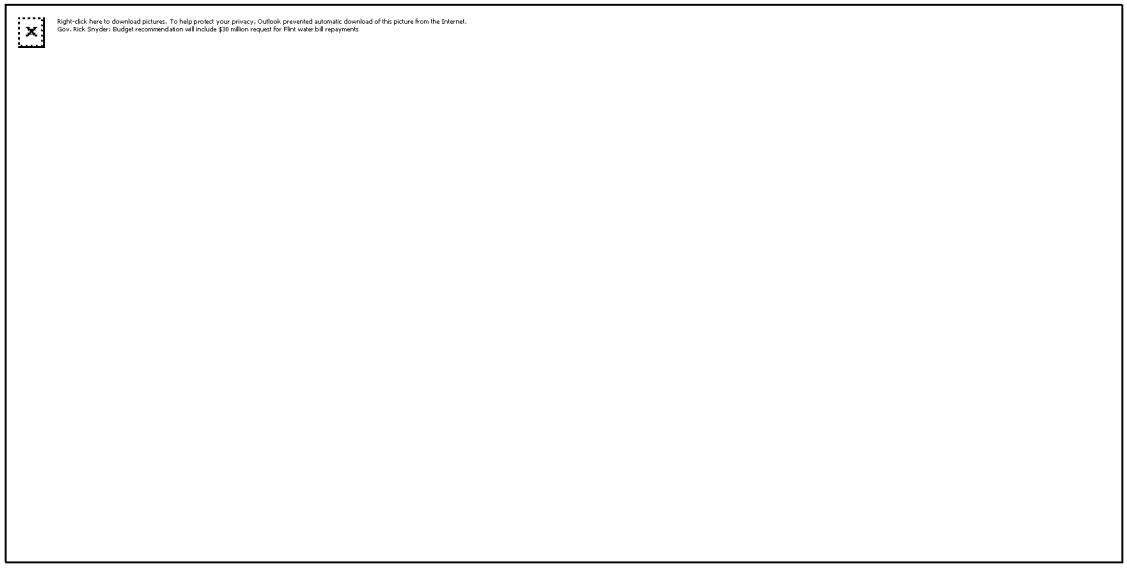
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



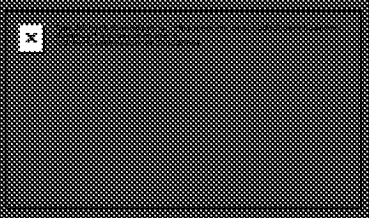
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

<image001.png>

Per our discussion tonight and Captain's request, here's a draft process for any inquiries regarding possible products for Flint coming through DTMB Procurement's new dedicated online portal http://michigan.gov/micontractconnect/0,4541,7-225-75359---,00.html.

- The submissions will come into a general DTMB Procurement email box
- The DTMB Vendor Outreach Coordinator, Jenni Riehle, or her back up will perform an initial review.
    - Any general "how to do business" questions will be

answered by Jenni

- Any suggestions regarding possible products that could be used in Flint will be referred to (either Jeanette, or Rebecca and then Jeanette -- ***need input here***. Current process is Rebecca and then Jeanette) I think the procurement website will be just fine and then including them into the weekly report.

- Jeanette will log into SEOC for a technical evaluation to be performed, and a contact person to respond back to the vendor. The once a week report will be given to the Captain, we will ONLY contact vendors that we need. I would not want to say we will contact all of the vendors.

From our discussion, I understand that the Captain would like a weekly report to facilitate him obtaining status updates within SEOC for the assigned referrals.

- It is difficult to predict volume of inquiries at this point.
- You indicate that a spreadsheet format is acceptable.
- The Captain can provide feedback regarding content based on this week's report.
- Report headings should include: (***need input here***) This is great for now,

we will provide the first one and see what changes are recommended

- Date inquiry received
- Company
- Contact Name
- Direct phone
- Email
- Description field
- URL for product/service
- Comment field in response to "Are you offering any free or in-kind products or services (if applicable)
- Comments/questions field (filled out in vendor submission)

- The DTMB Vendor Outreach Coordinator will prepare a weekly report of vendor referrals. (This week's report should include the attached inquiry.)
    - Jenni – is there any report functionality from the portal, so that this does not need to be created manually? (***need Jenni's input here***)
    - Vendor Outreach Coordinator submits weekly report to (either Jeanette, or Rebecca and then Jeanette, to mirror

process above? ***Need input here***)

- **FIRST REPORT IS DUE THIS FRIDAY BY 3 PM.**

Who will make the final decisions on process - Chris and Jeff? – Because this will be a procurement process I feel Jeff should have the final. I am happy to help with the logistics.

Should all inquiries received by DTMB Procurement staff be referred into SEOC, whether or not they come through the portal? (Jeff may need to communicate this to the entire office.) Not to the SEOC, let's keep them in the portal and if questions arise they will be contacted by someone from the SEOC.
If so, how would those be included in a weekly report, if needed?

Rebecca

Subject: Vendor Link

Rebecca –

Captain Kelenske has asked that DTMB provide a list of vendors who have entered information in the vendor list weekly. Logistics will then provide the information to the proper state agency as to viability of use.

Could you provide a list every Friday by 3 pm?

4	Patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%. Produce 52 gallons of purified water per hour. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water. Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank.

Dear Jennifer,

It's time to introduce myself to you! I am Rhiannon, the Digital Media Coordinator here at the Michigan Association of Broadcasters. My job during the week is to find, hone, and post the content you see here in the newsletter and on our news site.

When you have news on what your station is doing in the community, station and personnel changes, editorials written for your fellow broadcasters, or if you have suggestions for spotlighting your engineers and traffic directors, please email cahours@michmab.com. You can also find a contact form here.

In this issue, we see more of how members are positively impacting the people of Flint, important legislative updates, information about training available at GLBC in May, and spotlights of both a traffic director and an engineer.

Thank you!

LEGISLATIVE UPDATES

State of Michigan Legislative Update

MAB Testifies on a Drone Bill in Senate Committee

Last week, MAB Government Relations Manager Elena Palombo testified in the Senate Transportation Committee in opposition to Senate Bill 432 - legislation that prohibits drones from operating within 1,000 feet of Mackinac Bridge. Read more...

Bill Restricts Advertising for Healthy Michigan Fund

MAB opposed Senate Bill 542, introduced by State Senator Tonya Schuitmaker (R-26), which prohibits the use of state funds to advertise or encourage enrollment in the Healthy Michigan Fund, a Medicaid extension program authorized through the Affordable Care Act. Read more...

Senate Panel Reinstates Some Tax Credits

The Senate Finance Committee unanimously approved a four-bill package to reinstate some of the tax credits that were slashed or eliminated in 2011 when Governor Snyder's (R) tax reform was enacted. Read more...

Federal/Congressional Update

FCC Adopts Online Public File for Radio

At its open meeting on January 28, the FCC adopted rules requiring radio to have an online public file. Click for the listed rules...

AM Revitalization Rules to Take Effect February 18

The FCC's AM revitalization rules have been published in the Federal Register on January 19. The publication sets the effective date of the new rules as February 18, and establishes the framework for the one-time FM translators-for-AM stations filing windows in 2017, the continuation of "MATTOON Waivers" and the 250-mile window for moving existing translators for use as AM simulcasters. Read more...

Fire Chiefs Support Liking WEA, FM Smartphones

According to the report in Radio Business Report (RBR), The International Association of Fire Chiefs (IAFC) is urging the FCC to explore activated FM chips in cellphones because of radio's importance during a crisis. Read more...

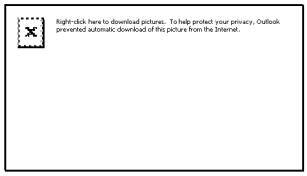
New Training Platform... Thinkzoom

Nearly everyone has been introduced to our new training platform



which we call Thinkzoom from P1 Learning (Watch Video). It's a brand new and exciting way to train and collaborate with each other.

If you haven't registered for the new training platform, please contact P1 Learning's support team by email at support@p1learning.com or by phone at 888-944-9377.

Nathan S., a station sales manager says, *"As someone who is responsible for the onboarding and development of new Account Executives, I have access to many different training platforms. P1 Learning, however, is my go-to resource. The content is fresh, relevant, and easy to understand and the AE's love it! Not only do I incorporate P1 Learning into my new AE development, but I often use the content in my weekly sales meetings with senior level staff as well."*

Create Support Documents to Get Your Blog Off the Ground

By: Seth Resler, Jacobs Media

As I've discussed before, the way to pull all of your different digital tools together is to use a content marketing strategy. To do this, of course, you're going to need to implement a system to consistently create online content. When I say "online content," what I'm talking about is called a blog. But unlike the blog that we write here at Jacobs Media, this is a stream of stories on your website that can be the engine for your content marketing strategy. Read more...

MABF

MABF Scholarship Deadline in Three Weeks on Friday, February 26, 2016.

Each year the MABF awards over 30 scholarships to deserving students in Michigan who are planning to pursue a career in broadcasting and media. If you have a deserving student who attends a qualified institution, be sure to get their application in by February 26.

COMMUNITY SERVICE: HELPING FLINT

WZZM-TV Launches Project to Help Flint

WZZM-TV (Grand Rapids) has launched a project to help their neighbors in Flint. The "Water for Flint" campaign is a partnership with Sleep Doctor stores. They are collecting cases and jugs of bottled water, and have sent several truckloads of water to Flint already. Click to see photos and read more.

WXYZ-TV Takes Part in Special Effort to Help Flint

WXYZ-TV (Detroit) took part in a special effort to assist Flint during the ongoing water emergency. According to WXYZ-TV's website, 7 Action News was the exclusive broadcast partner in a campaign that was launched by Detroit City Council President Brenda Jones, Councilman Andre L. Spivey, representatives from Faygo, and the United Way to raise funds for water. Click to read more.

Small Business Opportunity For Radio

By: Paul Jacobs, Jacobs Media

Our recent blog post focuses on an amazing story that unfolded this past Sunday during the Super Bowl. Intuit, the huge company who created QuickBooks and TurboTax, recently held a contest ("Small Business Big Game") that gave away a $5 million ad in the game. As you'll read in the blog post, the winner is a small coffeemaker with eleven employees from Round Lake, New York called Death Wish Coffee Company that bested 15,000 other entrants. Read more...

Michigan Radio's Coverage of Flint Water Emergency

By: Kristen Loszewski, Michigan Radio Marketing

Over the past few weeks, Flint's water crisis has exploded as a huge national news story. **Michigan Radio (91.7 FM Ann Arbor/Detroit, 91.1 Flint, 104.1 West Michigan)** has been covering the story from the very beginning, including the April 2014 water supply switch to the Flint River, the first citizen complaints about the smell and taste of the city's tap water, and the first reports of lead in the drinking water last July.

ASSOCIATE MEMBER HIGHLIGHT: RADIO MUSIC LICENSE COMMITTEE

Radio Music License Committee

By: Bill Velez, Executive Director at Radio Music License Committee

I owe my job at the Radio Music License Committee (RMLC) to Michigan's own Ed Christian of Saga Communications. My first job out of college in 1972 entailed licensing radio stations at American Society of Composers, Authors and Publishers (ASCAP). Ed was one of my radio accounts, and I did a favor for him at the time. I had no idea when I approached the RMLC for a job in 2007 that Ed was the Chairman of the RMLC.

Like they say, what goes around, comes around!

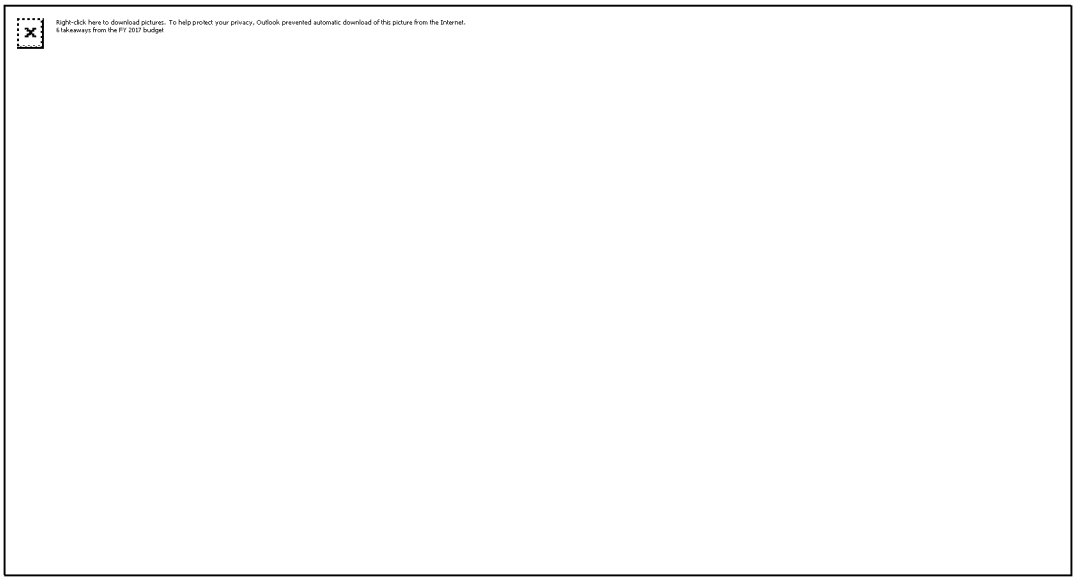
VIDEO: What Governor Snyder's FY17 budget means for Michigan



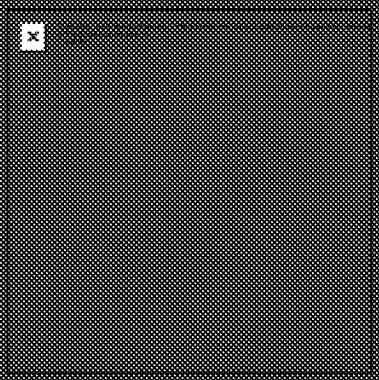
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

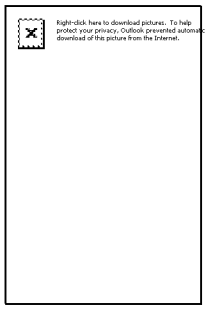
How to Plan an Automated Email Drip Campaign for Your Radio Station

By: Seth Resler, Jacobs Media



There are two types of automated email campaigns that radio stations can use to engage their listeners. The first is a campaign to send out their latest content. For example, at Jacobs Media, you can sign up to receive our blog on a daily basis. This is done using an RSS-to-Email feature.

I want to talk about the other type of automated email campaign. This type of automated email campaign sends outs evergreen content. It is often called a "drip" campaign because we are dripping out content over time. Read more...

Community Gathered for Black Panther Documentary Screening and Conversation at MSU

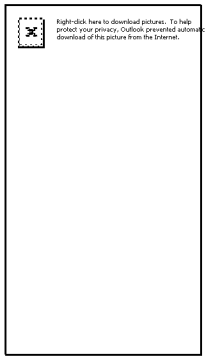
This past Thursday February 11, **WKAR (East Lansing)** hosted a community conversation around the new film "The Black Panthers: Vanguard of the Revolution," by award-winning filmmaker Stanley Nelson. Interest in this film is very high, and all seat reservations were filled for this free event on the MSU campus. Click to read more.

2016 Public Media Impact Awards - Criteria and Information

Professionals, volunteers, and donors involved in Michigan public radio or television are eligible for nomination. Nominations can be made by colleagues, supervisors, and/or station managers. Activities for which the person is nominated may be long-term, to recognize lifetime contributions to public broadcasting, or more recent, to reflect a concentrated period of achievement. Click here for all criteria and information.

TRAFFIC DIRECTOR SPOTLIGHT: JESSICA BOERMA

Jessica Boerma, WSYM-TV



Jessica Boerma is the Senior Traffic Coordinator at **WSYM-TV Fox 47 News (Lansing)**, where she has been for the past three years.

Q2: Which Superhero would you be, and why?

Jessica: Iron Man because he can fly and has awesome toys!

Q3: When I'm not working, I'd rather be...

Jessica: Outside playing with my three dogs and husband or going to car shows.

Click here to read the rest of Jessica's spotlight article.

ENGINEERING SPOTLIGHT: ERIC SEND

Eric Send, Midwestern Broadcasting Company

Eric Send handles Engineering & IT for **Midwestern Broadcasting Company**, where he's been for the past sixteen years.

Q: How did you get started in broadcast engineering?

Eric: My grandfather got me interested in HAM radio. I got my HAM license (N8STO) when I was 12. A good friend and Chief Engineer for Good News Media, Don Parker, mentored me into the profession.

Click here to read the rest of Eric's spotlight article.

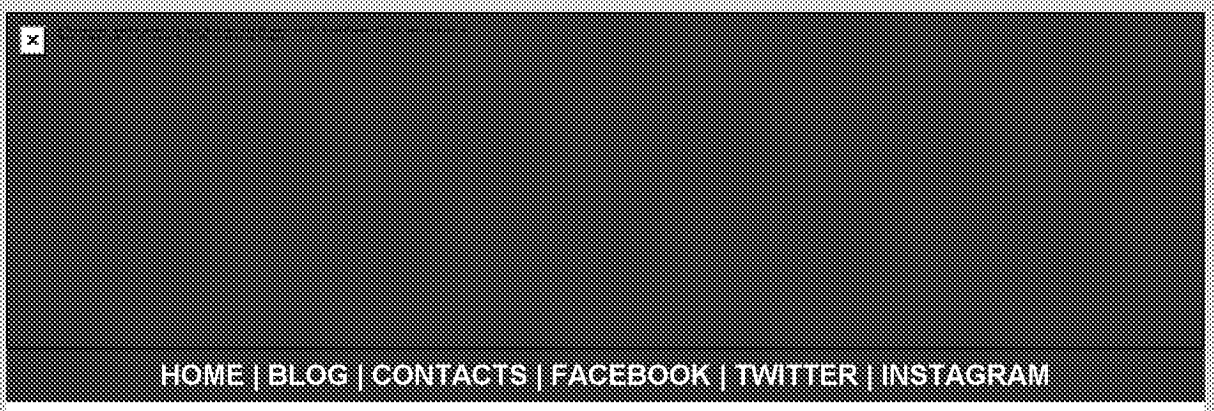
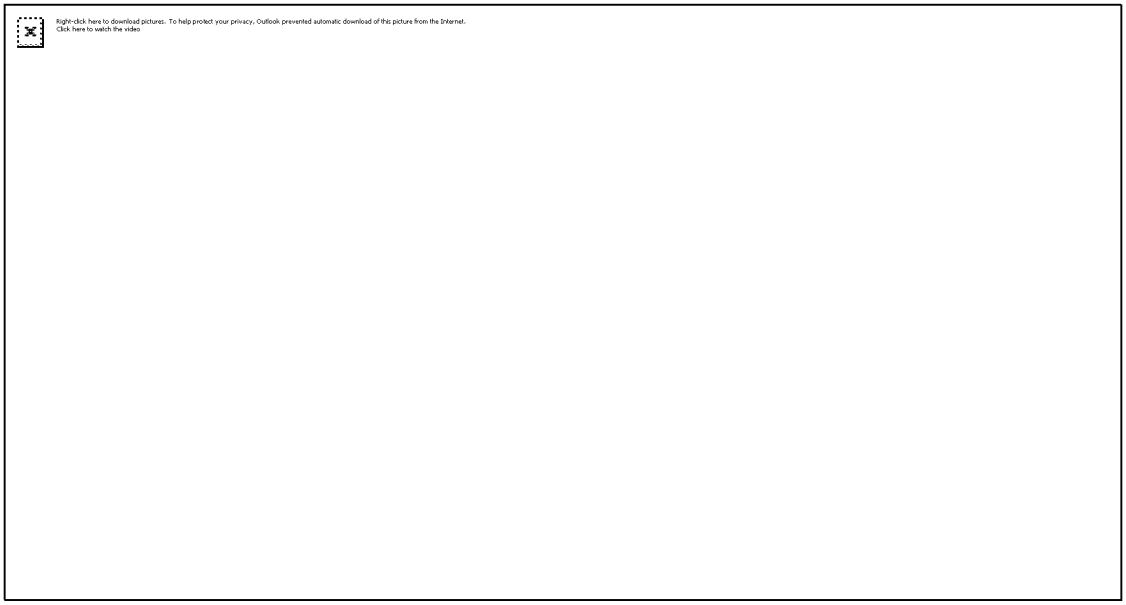
Subject: VIDEO: Volunteering in Flint



VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

Sent: Wednesday, February 17, 2016 10:10 AM
To: Riehle, Jenni (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Jeanette,
After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. There are a few things that need to be considered though.

· Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all.
· If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed.
· Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at 517-303-4038.

Importance: High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on www.helpforflint.com to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

After they submit the form the website will say that the submission was successful. I can manually send out a standard email as I receive submissions coming in. I would need an email box dedicated solely for this to make an automatic email response.

I can type up a draft of a standard email and get it over to you tomorrow morning. Is that okay?

Thanks,

Jenni

Good afternoon,
I just finished completing and submitting our emergency vendor aid sheet, and I never received any sort of confirmation that it was sent. Would it be possible for you to direct me to the right people, or place to confirm that this did go through. If it did not then I will need to resend it, that's okay I just don't know if it went through. Please see attachment to view completed document.
Thank You,
B/R

Kevin,

Thank you for your response. I apologize for this rather informal iPhone response; however, I am off-site until Friday and wanted to respond quickly as this problem dictates.

Our team is working up a proposal to conduct an on-site Demo to process your source water directly into a drinking glass.

However, as requested earlier, and I know you're in the process of building your team and dealing with 1000's of requests such as this, my engineers need a copy of your latest Water Test Lab Report which will identify all inclusive metals, minerals, microbial's, etc. in ppm's (Parts per Million), so we can set our patented equipment to remove all the undesirable elements from your water.

I am currently available by email and cell - 703-915-4318

Best regards,

Richard Brown

Rick,

First, let me say that my thoughts and prayers have been with you and your team. I can't even imagine the heartache you are experiencing over this situation.

You know how friends are, we can't help but try to see what ideas we can come up with to help provide some type of solution. One my High School friends thinks she and her family have one.

It is a Michigan based company that has a water filtration solution. Below is the information he shared with Debbie Stabenow, you may have already seen this, but in case you haven't I thought I would pass it along.

I can't think of a person better suited to lead us all through this situation. Thank you for your balanced and thoughtful leadership.

Kindest Regards,

Jackie

Jackie -

Here is the letter that Joe sent to Senator Stabenow. Since then, the Merlin was installed at St Mary's church to supply water for the homeless, in their shelter. The next Merlin will be installed at St Luke's Women's and Children's Center. Thank you for your efforts.

We appreciate it.

Subject: Flint water problems.
To: Joe Novitsky <joe@jsn-aia.com<mailto:joe@jsn-aia.com>>

Good Morning Senator.

Please take the time to read this—WE CAN HELP--

This is Joe Novitsky, Architect and inventor of a water purifier that can eliminate or minimize the bottled water eco disaster pending in Flint.

We have been studying the problem, testing the water, and watched you last night on Rachael's show.

YOU DID GREAT! You are the ONLY one that understands the problem right now—even Rachael is not as clear as you on the solution.

Yes, we need filtered water and no one is ever going to dig up the entire City—the pipes will re-coat, and the new supply form Lake Huron will be complete within 18 months and the City system will again be healthy, but what to do until then?

We have a plan.

Of the 100K residents affected we estimate 25,000 households, and 14,000 businesses, based on information taken from the internet.

Each household of 4 needs 5 gallons per day for drinking and cooking.

We can service this need with approximately 300 units, distributed across the City with the HELP OF the COMMUNUIY, and that is where you come in. These Places distributing water must be relieved from paying for the water being distributed. If that can be accomplished, we can solve this 18 month problem for about $2.5M—FAR LESS than any other proposed effort we have heard about.

We would recommend filtered shower heads, (about $50 each), maybe for the clothes washer as well, and one Merlin Eco Solutions unit for about 80-100 homes (one unit / station per every three blocks), at $2,000 each, installed by currently unemployed technicians and Vets- that will be paid to do this. We could distribute in 5 gallon camping containers, and each resident would have to lug their daily water no more than a block and a half. It's a pain – but what other REAL choice do we have? The filters they are distributing now are good for 100 gallons, untested, and again an eco-disaster in and of themselves. Our lead filters do not have to be changed for up to 10,000 each and the first primary filter is ceramic and can be cleaned re-used for as many as half a million gallons each!

This same equivalent in bottled water equals 1,250,000 bottles spent PER DAY!! The raw cost, ($1/bottle) and associated cost of the current campaign are certainly not sustainable nor acceptable. Have you ever tried to shower with a bottle of water?

Please see the Flint water test results attached. A photo of one that was being installed in a Flint shelter is also attached. The two samples in the other photos are from Michigan Works!, just down the street from your Office, before and after purifying.

Our website is: www.merlinecosoltuions.com<http://www.merlinecosoltuions.com>

We are currently working on getting one or two installed at St. Mary's Church currently servicing the bottle distribution, homeless shelter and Michael's Soup Kitchen. This will make an immediate contribution and difference. We did this with funds from GoFundMe site and contributions! (see attached). By the time we get something going with you, you will have their support as we took their water samples yesterday and they are being tested today. Deacon Paul is our contact there. We are currently attempting to help Dr. Mona as well----

FYI—Stanford University Medical Staff, Dr. Weiss, has endorsed this unit and science and Michigan State Chemistry and Biology Labs and Students will be monitoring the units we install to safeguard the residents and process. National Testing Labs have been the Lab we are using to date., (see attached).

I can be reached and will come demonstrate and show off our unit and results whenever you have time – if you are inclined to help us.

Thanks for the time--- and your awareness--- and focus on the solution—

Sincerely,

Joseph S. Novitsky, AIA

To: DTMB-micontractconnect <DTMB-micontractconnect@michigan.gov>
Subject: Bluewater Water Purification System for Flint Michigan

I am writing this email to check whom I should contact for Flint water crisis.

Bluewater donated two Reverse Osmosis Water Purification System to Flint and local residents already start to use pure water from our machine. The one at Catholic Charities serve 1000 meals everyday and their kitchen use our machine to produce pure water and prepare food there.

We would like to know if there is any chance that Michigan government can purchase more these machines for Flint, we got many emails from journalists ask if we can help, some schools kitchen are forced to use bottle water to prepare for food. One Pro reverse osmosis water purifier can produce 52 gallon pure water per hour, which can help 2700 people with 2 Liter pure clean water, you can save 4800 of 1 liter bottles for environment. Meanwhile, its professional Model for restaurant ,hotel and hospital to use. It is direct flow and doesn't need water storage tank, products are made in Sweden . Once you open faucet it is 24 hours pure water. If government can purchase 38 these machines install at public area, it can help Flint residents survive with pure water every day. We have warehouse in Kansas City can ship to Flint the second day.

Please let me know whom I can follow up or contact for this case. We want to help Flint and will look forward to hearing from you soon. To know us more, please visit http://www.bluewatergroup.com

Below are two contacts you can reach out to check the water quality before/after with Bluewater water purifier.

Location 1 we donated:
Liz Ruediger
Director of Operations & Development
Shelter of Flint
605 N. Saginaw Street, Suite 2A
Flint, MI 48502
810-600-4537

Location 2 we donated:
Shegos, Sheila <sshegos@ccsgc.org>
810 232 9950 ext. 325
Catholic Charities of Shiawassee

and Genesee Counties
901 Chippewa St.
Flint, MI 48503

Look forward to hearing from you soon. Thanks!

Best Regards
Lin

Greetings,

Thank you for your recent submission to the State of Michigan's purchasing department. All vendor submissions to assist the Flint emergency will be reviewed. You may be contacted by state representatives for additional information regarding your product or service. Not all vendors will be contacted to provide additional information.

We encourage you to register your business on the state's bid posting website www.Buy4Michigan.com. This is where the state will post contract opportunities $10,000 and above. The state is required to competitively bid the purchase of most goods and services.

You may also register your business on the Contract and Payment Express which is the state's electronic fund transfer system. In the event that you are awarded a contract or the state would like to make a purchase from your company, registration on this website will ensure you are able to be paid. Visit www.michigan.gov/cpexpress.

For more information on the state's contracting process, please visit the Contract Connect website at www.michigan.gov/micontractconnect. The Contract Connect website will provide you with training tutorials, purchasing laws and policies, and much more.

Thank you again for your submission and readiness to assist the residents of Flint.

Sincerely,

Department of Technology, Management and Budget – Procurement DTMB-micontractconnect@michigan.gov

ProductTech: Roving Blue Portable Ozone Water Purification Unit
ProductDescription: WE GET THE LEAD OUT!
Roving Blue is a revolutionary PORTABLE water purification and sanitizing unit has launched and is in production!

The Roving Blue Lightweight Portable Water Purification System (Roving Blue) is a very lightweight, portable water purification system that produces purified and sanitized drinking water from any fresh water source including rivers, streams, and lakes. It weighs less than 25 pounds and can purify and sanitize 190 gallons of water every 24 hours at roughly 4 cents a gallon, which equates to about a Company-sized element daily. In addition to using the water for drinking and personal hygiene, the sanitized water can be used to sanitize food, surfaces, water storage containers, and medical equipment as well as to irrigate wounds.

Please visit us at www.rovingblue.com and feel free to contact me directly at ericc@rovingbluewashington.com or my cell at 425.241.0810 if you have an interest in learning more or have questions. The attached spec sheet gives you an idea just HOW critical the Roving Blue for people without a clean drinking water source.

If you know someone who would be interested in becoming a dealer or distributor of this product as well let me know.

We are in business, but we are concerned about the clean drinking water for everyone

I look forward to speaking with you soon.

Best,

Eric Clayton
Sales Representative

Comments: Greetings from north of the boarder. My name is Susan Jarvis. I reside in Regina, Saskatchewan, Canada. I hope this email reaches you as I was unable to get through the contact portal on your main website as it does not allow Canadian based content. After contacting your office by phone I was given some more direction on whom to reach out to.

First and foremost, I hope you are making more and more positive strides in your pursuit of a 'fix' for the current water crisis in Flint. I, and many fellow Canadians, have been following the situation very closely.

The intent of this email is in the hope that my great friend's company, Pure Water Box, may be able to help assist you in your efforts. In a nutshell, Pure Water Box resides in Markham, ONT. and has the ability to provide an ERT (Emergency Response Trailer) that can be operational within hours of arrival at a disaster/crisis zone. It is probably one of the most innovative and reliable systems I have ever had the chance to set on eyes on.

I know you are very busy with tons of groups reaching out to you and that you have limited resources, but I strongly feel that the conversation with the President of the company, Ryan Mitchell, is well worth the time and energy in order to see what can be accomplished.

For more information please go to www.purewaterbox.ca.

Ryan Mitchell's direct contact info is Cell: (416) 662-6923 Email: ryan@purewaterbox.ca

Thank you in advance for your time and all the best in your endeavours to fix what needs to be fixed.

ProductTech: Water Distillers
ProductDescription: I am with Nautilus, a division of The Legacy Companies, and we are a manufacturer of household point-of-use water distillers which have been proudly made in the U.S. for many years. We are very passionate about spreading awareness to water quality issues and would love to find a way to help in Flint or elsewhere around the country. We believe distillation is a possible temporary solution for this problem, particularly where the lead

contamination is so bad as to render filtration systems ineffective. I believe the filters you have distributed do not adequately remove all of the lead and that distillation is the best current option. Our distillers completely remove all traces of lead from any water source including tap water.
Our website provides more information about our family owned and operated company, www.water123.com and www.thelegacycompanies.com.

If there is any way for us to get involved and contribute to the solution, I would greatly appreciate the opportunity for us to have a discussion.

Thank you very much, and I hope to hear from you soon!
FreeorInKind: We want to partner with the government to raise awareness about clean water and the benefits of water purification systems including distillation. We are open to partner in different ways possibly to include free training, distribution, products, etc.

Subject: RE: Suppliers Submission Form (ContentID - 375142)

Greetings,

Thank you for your recent submission to the State of Michigan's purchasing department. All vendor submissions to assist the Flint emergency will be reviewed. You may be contacted by state representatives for additional information regarding your product or service. Not all vendors will be contacted to provide additional information.

We encourage you to register your business on the state's bid posting website www.Buy4Michigan.com. This is where the state will post contract opportunities $10,000 and above. The state is required to competitively bid the purchase of most goods and services.

You may also register your business on the Contract and Payment Express which is the state's electronic fund transfer system. In the event that you are awarded a contract or the state would like to make a purchase from your company, registration on this website will ensure you are able to be paid. Visit www.michigan.gov/cpexpress.

For more information on the state's contracting process, please visit the Contract Connect website at www.michigan.gov/micontractconnect. The Contract Connect website will provide you with training tutorials, purchasing laws and policies, and much more.

Thank you again for your submission and readiness to assist the residents of Flint.

Sincerely,

Department of Technology, Management and Budget – Procurement DTMB-micontractconnect@michigan.gov

ProductTech: Dashboard based Real-Time reporting of Water Quality to inform the public
ProductDescription: Using an "Internet of Things" approach AT&T and its partners can install a small number of sensors in the Flint water distribution system to sample water for common water quality parameters (for example; pH, temperature, conductivity, total organic carbon phosphate, chlorine, and alkalinity) then report the data back to a dashboard that would be available to the public at large. The benefit of this approach is that public officials and the public at large would be able know

the quality of the water in real time and have confidence in its safety. Real public health issues as well as perception and economic development issues can be managed accordingly.
FreeorInKind: To be determined
URL_for_Product:
Comments: If this idea is of potential interest AT&T will assemble a team of experts to work with points of contact identified by the State of MI team to further develop the scope of this and provide costs estimates at that time.

ProductTech: Water purification consulting services including procurement and installation phase project management
ProductDescription: Would like to propose the submission of a quick project feasibility study to be the basis for the deployment of a distributed purification solution. This distributed system entails the use of a water purification unit utilizing a process technology capable of producing from 50 Liters/hr to 400 Liters/hr of purified water scientifically proven to remove any traces of lead while reducing other contaminants/dissolved solids to the required levels for safe

drinking. Utilization of a distributed model with a purification unit installed at each household appears to be a far more cost effective and rapid deployment method than replacing the entire current centralized system. Initial installations of the units could begin in 4 weeks from receipt of order. We could proceed in a 2 phase approach with a pilot study involving a few hundred homes as the scope of Phase 1. After data review, deployment model assessment and completion of an accelerated permit approval p rocess, we could proceed to secure funding and enter a 2nd phase where we accelerate and scale up implementation at a citywide level with a view of what is necessary in the emergency response phase transitioning into a reliable long term sustainable solution. The entire project would be managed by professional managers and engineers utilizing independent certified labs for water sample chemistry analysis.

Greetings,

Thank you for your recent submission to the State of Michigan's purchasing department. All vendor submissions to assist the Flint emergency will be reviewed. You may be contacted by state representatives for additional information regarding your product or service. Not all vendors will be contacted to provide additional information.

We encourage you to register your business on the state's bid posting website www.Buy4Michigan.com. This is where the state will post contract opportunities $10,000 and above. The state is required to competitively bid the purchase of most goods and services.

You may also register your business on the Contract and Payment Express which is the state's electronic fund transfer system. In the event that you are awarded a contract or the state would like to make a purchase from your company, registration on this website will ensure you are able to be paid. Visit www.michigan.gov/cpexpress.

For more information on the state's contracting process, please visit the Contract Connect website at www.michigan.gov/micontractconnect. The Contract Connect website will provide you with training tutorials, purchasing laws and policies, and much more.

Thank you again for your submission and readiness to assist the residents of Flint.

Sincerely,

Department of Technology, Management and Budget - Procurement

ProductTech: LMI Chemical Metering Pumps
ProductDescription: Liquid Metronics Inc. (LMI) and Detroit Pump has been a Chemical Metering Pump supplier to the City of Flint for many years. We appreciate your business and would like to express our gratitude at this important time. LMI and Detroit Pump would like to make a donation of LMI Pumps and Parts for use in your plant and systems requiring

chemical dosing. Both LMI and Detroit Pump would like to see our products have a positive impact on the recent challenges to the City and Community.

Bob Zukowski and John Swantek of Detroit Pump & Mfg Co. are your local LMI representatives and are available to evaluate your metering pump needs. We will select and size the pumps according your specific applications and objectives. Our goal is for LMI, Detroit Pump and the City of Flint to work together to allow this donation to have a positive impact on the City and surrounding community.
FreeorInKind: Yes, we are offering free LMI Chemical Metering Pumps. Please see details in the Description Field above.

Subject: RE: Flint Water

Jenni,

I don't think it is newsletter worthy. We are just helping DHHS get the necessary water filters and water pitchers from the existing Home Depot contract. It isn't anything that anyone else in our department wouldn't have done to support another agency.

However, I do think that this shows the importance of category management and building relationships with agencies and contracted vendors.

Okay, I will wait to hear from you then. Rebecca sent the following message out to MSP-EOC-MDTMB after you sent yours. I think there might be some confusion on what needs to happen. I will wait to hear back from you on it before I reach out to anyone. Thanks! -Jenni

Jeanette

Our vendor outreach coordinator, Jenni Riehle, is working with our PIO/Caleb and CPO/Jeff to coordinate a solution with Shannon and Tori.

I'm asking Jenni to be the lead on getting website changes or other information in place, based on a conversation Jeff and Caleb had this afternoon.

Sounds like they want inquiries to route into the SEOC. Items like the one below would need to be routed to DEQ technical staff for evaluation.

Jenni will be reaching out, please feel free to contact either of us directly.

Thank you.
Rebecca

Subject: Re: Next Step

In a perfect world, that's how it'll work. We'll have to see if the SEOC would like to make any changes to what I suggested.

Jeanette,
After talking this over with Jeff Brownlee, there does not seem to be any legal reason why they couldn't add a button, as was requested below. There are a few things that need to be considered though.

- Expectations need to be set for the response to these inquiries. It would be best if the receiver of these submissions was located at the SEOC, so they could review with the appropriate agency leads and determine an appropriate response. If it is expected that DTMB Procurement serve as the contact, the response to vendors will be severely delayed and in some cases they may not be able to get a response back at all.
- If it is determined that a submission is feasible, the SEOC should work with Procurement to make sure all proper procedures are followed.
- Shannon Banner has provided some language to the SEOC for the button that should be utilized.

Feel free to contact me if you need any further help. I've been working at the JIC in Flint today and am available by cell at 517-303-4038.

Thanks,

Caleb Buhs

Importance: High

Can you check with DTMB on this. Tori Sachs with the Gov's Office was considering adding a button on www.helpforflint.com to capture vendors who want to pitch their product/idea; however, last I talked with her, there were concerns about violating state procurement processes.

Maybe DTMB has an email account already established for people who want to do business with the state? This is what FEMA has on their website for disasters.

Seems to me this should be handed off to DTMB procurement for a solution.

Can someone please address this. If there is going to be zero communication with 'vendors', then there needs to be a canned response indicating such. I spend an inordinate amount of time with these missives as they are coming into my work e-mail, calling the LEOC phones, and showing up at the LEOC doorstep pitching their solutions because nobody is communicating with them.

Subject: RE: EcoSmarte Scalable water filtration supply via Home Depot vendor contract

Thanks Steve. I shared the information and should know if additional filters/cartridges are needed as the day progresses. I've requested they notify me ASAP. With the door-to-door visits we may see the current quantities dwindle quickly. DEQ is currently conducting the water testing at their laboratory (just over 600 of 45,000 facilities in the area), so we have a lot more to go!

Genesee County and the SEOC are working on plans now. Sorry for the late response – I kept getting interrupted and just realized the message hadn't been sent!

Jeanette,

Just an FYI. Dan Montag from EcoSmart reached out to me yesterday about how they could help the city of Flint with their water filtration systems. Below is his message to me.

After reading the quote from Chris Kelenske in Gongwer about one of the goals is to ensure that every source of drinking water in Flint has a filter, I thought that this might be a good company to think about because of what they can provide as far as filtration systems for homes, schools, hospitals, etc.

Let me know if you need me to follow up with this company for you.

To: Rigg, Steve (DTMB) <RiggS@michigan.gov>
Subject: EcoSmarte Scalable water filtration supply via Home Depot vendor contract

Good afternoon Steve,

Per our conversation, I have reached out to Kelly Mayhall the Midwest Regional Vice President of Home Depot (734-855-1300 X429) re: the supply of a scalable filtration system: she was out of the office this afternoon and is going to get back me via phone later today or tomorrow morning.

EcoSmarte has the necessary infrastructure Michigan to support the supply chain per the following:
-Ecosmarte Michigan, West Olive, MI (www.ecosmartemichigan.com) - local distributor
-Meg Service, West Bloomfield, MI (www.megservice.com) - installation subcontractor
-National Testing Laboratories, Ypsilanti, MI (www.ntllabs.com) - EPA rated water testing laboratory

EcoSmarte's filtration systems are scalable from single family homes to apartment buildings to schools to restaurants to hospitals, etc. We're in the process of putting some materials which will provide an overview of the filtration method and scalability, which we are overnighting to you.

FYI - EcoSmarte will also provide an EcoSmarte filtration system and complete water analysis (before/after) at no charge via the National Testing Laboratory in Ypsilanti, MI; the testing turn-around is ~24 hrs. post filter installation.

I'll get back to you as soon as I speak to Ms. Mayhall.

Best Rgds.

Daniel Montag

Subject: RE: Sci Spec Contract - Funding & Extension Contract No. 071B9200238

I was able to catch Kirby in between Flint meetings, we need to add an additional $100,000 to the contract. Kirby placed an order today that will eat up most of the remaining dollars; the $100,000 will be in addition to be used as necessary until a new contract is in place.

Due to his meeting schedule and planning on the Flint testing, I will not be able to get the other necessary information today, but will work on the specifics and iTRAC sometime this week.

Leave the funding as previous 50% RD-LAB-DW LAB FEES and 50% RD-LAB-ENV LAB IDT.

It is my understanding that Sci Spec will be able to fulfill the orders. Please contact me on my cell phone this afternoon if you have any questions at 749-0796.

Thank you.

Subject: Sci Spec Contract - Funding & Extension Contract No. 071B9200238
Importance: High

Tara:

Per our conversation, I went ahead and prepped the paperwork for AD Board approval. Due to the nature of our request, I should be able to submit this to AD Board for tomorrow's meeting/approval as a supplemental; however, time is critical for submission.

I am going to ask for a six month extension instead of the three we discussed earlier. Because we will need to test the proposed bottles during the evaluation process, that is going to take time. With the current State of Emergency, I don't want to overload the lab any more than we have to.

I will also need a funding amount and idea of how we came about that number. Even if Kirby can tell us approximately how many tests they conduct annually in their lab, we might be able to back into an approximate number that way.

If not all of the bottles on this contract are required for the water testing, we may also be able to procure some of the others through alternative contracts, alleviating any potential strain on SciSpec.

Will the funding source stay the same as last time? 50% RD-LAB-DW LAB FEES and 50% RD-LAB-ENV LAB IDT.

Once I have the approximate funding requirements, I will be able to submit the paperwork for approval.

If you need anything else from me, please do not hesitate to contact me.

Hi Marsha,

Per our conversation, I will be increasing the PCard limit for Lisa Hagerman, DEQ Laboratory, to $50,000/$200,000 to cover emergency purchases necessary for the declared emergency in Flint. Per discussion with DTMB, our current laboratory bottle contract is unable to supply the bottles necessary to keep up with demand. We will alternate ordering between vendors as needed to secure the number of bottles necessary.

The off contract vendor that will be supplying bottles is:

ENVIRONMENTAL EXPRESS
2345-A Charleston Regional Parkway
Charleston, SC 29492
Telephone: 843-881-6560
Fax: 843-881-3964

Environmental Express is not currently registered as a vendor with the State of Michigan. PCard purchases will continue until such time as the vendor is able to set up registration.

Please contact me if you have any questions. Thank you.

Tara,

Per our conversation, a one-time exemption for Lisa Hagerman and Carol Smith to have an increase to their limits (STL:$50,000/CL:$200,000) to purchase bottles for samples during the duration of the Flint water emergency is approved. This approval is based on the vendor not being in MAIN and the current vendor not being able to provide the necessary bottles due to the increase need. Please be sure to attach this authorization email to the transaction detail reports in which the transactions occur.

Let me know if you have any questions.

Updated, two bottle types and these are quantities in cases. Note, our lab did reach out to VWR, they can potentially supply the product, but are unable to fulfill the order on demand; bottles have to be ordered and there is a significant lead time.

Subject: RE: BPC3174 availability

Kirby,
I just spoke to Pete and he also offered the BPC1172, which is our certified version of the BPC3174. I can offer this at the same exact cost and each bottle will have a bottle number and lot number on the box. We will have 100 cases of the BPC1172 ready to ship Friday if needed. I understand that you need to test them first so I've asked Pete to send some free samples to your attention for delivery tomorrow.
http://www.envexp.com/products/11-Sample%20Collection/2323-Sample_Collection_Containers/32P-Plastic_1000mL/BPC1172-HDPE%2C_63mm_Nat_WM%2C_32oz%2C_1L%2C_72%7CC

We believe that the BPC1172 is a better option for you since we have closer control over the certification process/lot control. BPC3174 is that same bottle as it comes in from our supplier.
I appreciate your patience. Pete also said that we could guarantee the same lot number on the balance of the other 200 cases. I do need to get a possible ship date from him still
Lisa

Subject: RE: BPC3174 availability

Thanks, Lisa – On the 300 cases that I may need, I will confirm with you today if I need to order these. There is a possibility that someone else may order these and not me. I will provide that individual the attached quote that you sent as reference. Can you please confirm the following again if possible.

100 cases available for immediate shipment and all of the cases are the same lot# (this would be the immediate need)
150 cases available next week and lot# if you can find out.
50 cases available by end of month and lot# if you can find out.

If we order these, deliveries will be made to an address in Flint, MI. If all bottles are from the same lot# as the case that was shipped to us already, they can all be shipped to this address in Flint, MI. If any case is of a different lot#, we must lot test here at the Lab first. Let me know if this is not clear.

Importance: High

Hi Marsha,

Per our conversation, I will be increasing the PCard limit for Lisa Hagerman, DEQ Laboratory, to $50,000/$200,000 to cover emergency purchases necessary for the declared emergency in Flint. Per discussion with DTMB, our current laboratory bottle contract is unable to supply the bottles necessary to keep up with demand. We will alternate ordering between vendors as needed to secure the number of bottles necessary.

The off contract vendor that will be supplying bottles is:

ENVIRONMENTAL EXPRESS
2345-A Charleston Regional Parkway
Charleston, SC 29492
Telephone: 843-881-6560
Fax: 843-881-3964

Environmental Express is not currently registered as a vendor with the State of Michigan. PCard purchases will continue until such time as the vendor is able to set up registration.

Please contact me if you have any questions. Thank you.

Importance: High

Due to the declared emergency in Flint, I need to make an emergency purchase of laboratory water sample bottles. The vendor is not registered in MAIN and I don't have time to deal with that process. Can we get special authorization to use the PCard? The order(s), may be multiple, will be upwards of $40,000 each.

Please call me. Thanks.

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: Procurement for Flint Drinking Water Project
Importance: High

Tara, can we please sit down asap and figure out who's doing what in the purchasing process for the Flint project – esp. related to requests from other Departments/Agencies/etc.

As you know, the lab has been ordering bottles and supplies. Today we received an unexpected purchase request via DTMB (from the MSP Emergency Operations center) for an order of bottles to be delivered to Flint, and we want to be sure the proper approvals, tracking and notifications are in place. Delivery of these items in a quick manner is essential, therefore procurement needs to be as streamlined as possible.

Objectives:

1. We need to make sure the lab staff aren't working any more than they absolutely have to on filling out purchasing paperwork/getting quotes as they are very, very busy processing the samples. In regards to bottles, VWR and Sci-Spec can supply the bottles. Who is authoring or the number of bottles needed is unknown to me. No paperwork should be necessary from Kirby to order from either of these contracts, but the DEQ is still responsible for POs, payments, etc.

2. We should look at the p-card as an alternative for further emergency purchases. We've had our lab p-card limits increased temporarily related to one vendor contract; could we check with DTMB to see if they will allow us to continue the exception based on the purchases needs related to the Flint project? (From our understanding, you've asked us to process individual Reqs/PO's for each purchase in order to avoid encumbering large blocks of funding. VWR is a state contract vendor who accepts p-cards. Can we use that instead and/or find out what their minimum limit is for direct billing without having to set up a PO (if any)? The PCard increase was for an emergency purchase of the bottles per Kirby last week from a vendor that was not registered in MAIN. We cannot continue to order the bottles off contract since VRW and Sci-Spec can supply them. I spoke with VRW just within the hour; we do not need to cut a PO for each order; payment can be dealt with by PCard or DV at invoice. DV will be easier to track.

3. We need to avoid duplicate orders or confusion, therefore who should we expect purchase requests from (the lab? the SEMOC?), what are the proper approvals, who is establishing the PO & for which purchases, etc. Who will be verifying that the goods were received and backup documentation is retained? I'm in the dark at this point as to who is authorizing orders from the Emergency Operations center, I am looping in Jeanette Doll, as they will need to be in the conversation to address the concerns you have expressed. Please initiate a meeting for tomorrow morning.

Hi Jeanette

The information on what we need a PO today for:

Vendor = VWR
Product ID: 71001-158 32oz (1L) HDPE, Wide Mouth bottle
Contact: Nina Cole 858-210-1543 nina_cole@vwr.com
They are currently on contract for lab supplies.

We need to order 50 cases of 144 bottles/case for shipping Wednesday 1/20 and overnight delivery to 4315 N. Clio Rd. warehouse. I do not have the cost yet. It's likely that we'll also order up to 100 more cases for shipment on 1/22 and hopeful delivery on 1/23.
Thanks

Mitch

To clarify question #3. We did an emergency change notice to increase the contract value in MAIN by $30,000,000. Current value is $38,000,000. We have increased the line of credit with Home Depot to $20,000,000. We currently have just over $10,000,000 worth of invoices with Home Depot, so the credit limit increase was necessary.

Questions/Discussions in PLT....

1. Do we Dtmb or other agencies always issue POs for purchases PRIOR to receiving goods or allowing ordering verbally....or are emergency pos been issued after the fact?
   Could be either, depends on situation. Ideally issue an emergency PO or p-card transaction. Priority is getting what we need.
2. Is there any accountability or record keeping for all orders issued by agencies and us?
   Chris Christensen should be copied on all orders, as well as the agency's purchasing manager.
3. Is it true Home Depot we have $20M?
   Significant funds have been added to the contract and will be reported out as an Emergency Purchase Change Notice to Ad Board 4. What is FEMAs role regarding purchasing?
   Still being clarified whether they will do the sourcing or just provide a 75% reimbursement. A 25% state match is required.
5. How are we communicating to other agencies?
   Agencies have a rep in the SEOC. Purchasing Managers should identify their SEOC rep. SEOC is the primary for all comms.

6. Has there been any direction re: what agencies are to be tracking.....including overtime? What have we tracked for Dtmb central.

Issued through SEOC, not central Procurement.

Mdoc and DHHS asking questions.

May suggest quick call between Dtmb and mdoc DHhs, plus others? Thx.

Happy to, can Wendy set it up?

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

FYI- I did speak with Nina last night just before leaving and asked that she followed up with an email so Mitch could inform everyone. I see that did not occur until late last night so we are all getting the info this morning.

For George, at what point do we want to agree that we have a representative sample amount? Should we consider still offering testing for anyone who wants it but relieve the push of these to the extent we have been? We would need to develop appropriate messaging. At this point with the orders coming in through next week we will have distributed in excess of 70,000 water test kits.

Subject: RE: HDPE Bottle update Tracking included

Hello everyone,

I have left messages with some of you and I was able to talk with Jennifer Wolf at the Emergency Management center. We have had problem with the full shipment being overnight shipped to MI. We apologize for the confusion for the shipment not going out next day air. The overnight shipping costs for this shipment would have totaled into the thousands, closing in on $10,000 for the total amount of cases shipped on Tuesday. Our supplier did not think that this was approved. However, we have worked to find a solution so this lot can be tested by Kirby tomorrow.

What have done to remedy the situation this afternoon is ship one case (of the same lot) overnight to Kirby Shane at the MDEQ lab. Five cases will be shipped overnight to the Flint location so they have them on hand. Kirby will get two cases of this lot, one tomorrow and one Friday due to this error.

I apologize for the shipping confusion and I hope that our solution to ship 6 cases tonight will be acceptable to everyone else. Thank you Jennifer for letting me know this works for you.

Jennifer and I have discussed the shipment for the remaining cases and we do not need to send any other cases overnight, they should be fine with stock as the Tuesday shipment will arrive soon after the 5 cases tomorrow.

Please let me know if anyone has questions. Thank you.

Best,

Nina

Subject: RE: HDPE Bottle update Tracking included

Hi Nina – I just tracked the 1 case coming to the Lab for lot testing and UPS indicates that it won't be here until Friday. Any way for you to change this to Tomorrow?

Hello Everyone,

Please see below for the tracking information for the shipments that will arrive tomorrow.

The 41 cases going to Flint, MI are being shipped UPS Freight, tracking # 319315780
1 case going to Lansing, MI UPS Ground, tracking # 1Z91AE800371241770

Best,

Nina

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: RE: Conference Call ref. Purchases

Hi Jen,

As we discussed in our conference call, Melissa and I are the afterhours contacts for any emergency orders on water testing bottles. We can be reached as follows:

Tara Premoe	517-749-0796	premoet@michigan.gov	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	sambiagiom@michigan.gov	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory.

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Hello Everyone,

Please see below for the tracking information for the shipments that will arrive tomorrow.

The 41 cases going to Flint, MI are being shipped UPS Freight, tracking # 319315780
1 case going to Lansing, MI UPS Ground, tracking # 1Z91AE800371241770

Best,

Nina

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into

this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Subject: HDPE Bottle update

Hello everyone,

Thank you for all of the calls yesterday and today. I would like to update everyone on the status of the VWR order, order number 8018384025 for 150 cases of 71001-158. We have C&G container shipping 42 cases tonight. One case will be going to Kirby at the Lansing lab and 41 cases are to arrive in Flint. When shipments have tracking information we will be able to send the tracking information to all of you.

For the Friday shipment, C&G will now only be able to allot 50 cases to the shipment. I have called and alerted Kirby and the Emergency Management team about this development. They have assured me that this will work fine.

Next week our C&G rep will update us as soon as we know the remaining 58 cases will be shipping. I will continue to update everyone if there are any changes. I will also be sending the tracking information to everyone on this email chain when I receive it.

Please let me know if there is anyone else that needs to be added to this email chain for updates about this bottle order.

If MDEQ can forecast how many more bottles that will be needed in the future we will be able to avoid the rush shipment charges. C&G has waived a 25% fee that usually accompanies the rush order's assembly for this shipment but I do not think they will waive the 25% rush assembly fee for any future orders.

Please let me know if you have any questions.

Best,

Nina

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe 517-749-0796 Office hours 7:30 am to 4:00 pm

Melissa Sambiagio 517-404-0000 Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Mindy

Our cell phone coordinator Kelly is out sick today. Jeff Wellman asked me to check into getting two of our buyers State phones while they are involved in supporting the Emergency Ops Center/Flint.

Can you help me through basics to get rough numbers? Appreciate any assistance you can provide.

FYI – no action needed.

Just wanted to share we have a second staffer stepping up and delivering great customer service related to Flint. Melissa has volunteered to take phone questions related to water sampling bottles during the SEOC hours of 8 am to 8 pm. Or whenever the phone rings.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Attached is the form that will need to be completed for both users. The devices available are:

iPhone 5S - $0.99

iPhone 6 - $99.99
Samsung Galaxy S5 - $99.99

Once it has signed approval, please e-mail the form to me and I'll get them ordered.

Our cell phone coordinator Kelly is out sick today. Jeff Wellman asked me to check into getting two of our buyers State phones while they are involved in supporting the Emergency Ops Center/Flint.

Can you help me through basics to get rough numbers? Appreciate any assistance you can provide.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly

FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Per this mornings news, the EPA is taking over water testing in Flint. Can we establish scope and timing so that we can determine whether any pending orders for water sampling bottles should be canceled?

Melissa, please forward to Tara. Her email is not coming up in my iPhone.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

JAN 21 2016

THE ADMINISTRATOR

The Honorable Rick Snyder
Governor of Michigan
P.O. Box 30013
Lansing, Michigan 48909

Dear Governor Snyder:

Thank you for your time today to talk about our shared concerns for the people of Flint. As we discussed, today I am issuing an Order, pursuant to Section 1431 of the Safe Drinking Water Act, directing the Michigan Department of Environmental Quality and the City of Flint to take immediate action to address serious and ongoing concerns with the safety of Flint's drinking water system. The U.S. Environmental Protection Agency is deeply concerned by continuing delays and lack of transparency and has determined that the actions required by the Order – the key elements of which are summarized below – are essential to ensuring the safe operation of Flint's drinking water system and the protection of public health. The Order, which has been transmitted separately, directs that the state notify the EPA in writing within one day of its intent to comply. Recognizing that you have made changes to the leadership at MDEQ, it is imperative that our respective teams set up a meeting no later than next week to begin the work that is before the state, the city and the EPA.

The EPA and other federal agencies are working closely with the state and city to address the public health emergency that is now unfolding as a result of the failure to properly operate Flint's system, leading to multiple health-based drinking water violations and unsafe lead levels in the city's drinking water. As part of these efforts, this past October the EPA established the Flint Safe Drinking Water Task Force (the "EPA Task Force"), composed of EPA scientists who are recognized experts in the field of corrosion control in drinking water systems. The EPA Task Force has provided written recommendations to the city and MDEQ, clearly addressing specific steps needed to re-optimize corrosion control, as well those needed to ensure that the system maintains optimal corrosion control throughout the transition of Flint's water supply from the Great Lakes Water Authority (Detroit) to the Karegnondi Water Authority (KWA) that the city is planning for the summer of 2016. These recommendations have been publicly posted at http://www.epa.gov/mi/flint-drinking-water-documents.

As you and I discussed, some progress has been made in addressing these recommendations; but there continues to be inadequate transparency and accountability with regard to provision of test results and actions taken and those are critical for the people of Flint. In addition, there is an increasing concern about capacity to carry out the recommended actions and to safely manage Flint's drinking water system – especially in the context of the intended transition to KWA water in summer 2016. The EPA Task Force, the city, and the state have had to devote substantial effort to issues related to the planned

transition from treated water purchased from Detroit to untreated water from KWA. That transition presents complex technical and managerial challenges, above and beyond those related to the immediate need to reduce lead levels in Flint's drinking water, that have serious implications for drinking water safety and public health. Finally, it must be recognized that the EPA Task Force's expertise and technical advisory role are narrowly focused on corrosion control, and that there is a much broader set of issues that must be addressed to ensure the safety of drinking water provided by the Flint system.

For these reasons, the EPA's Order requires the state and the city to take a number of actions, summarized below, to ensure that Flint's drinking water system is re-optimized for corrosion control, that the city establishes the capacity to safely and effectively operate its drinking water system, and that there is public transparency and accountability with regard to these actions:

1. Promptly provide the EPA and the public with official, public and timely responses to the recommendations of the EPA Task Force, including status and plans with regard to implementation of recommended actions.

2. Fully implement the EPA Task Force's recommendations with regard to lead sampling; promptly and continuously share the results of all lead sampling and other relevant Flint drinking water data with the EPA and the public, with proper protections for personally identifiable information; and cooperate with the independent EPA sampling effort described below.

3. Ensure, including through the provision of state resources as necessary, that the city has the full complement of qualified professionals needed to safely operate Flint's drinking water system.

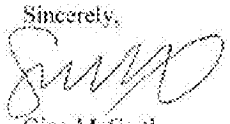
4. Obtain, through a publicly transparent process and with the support of state resources as necessary, advice from independent, nationally-recognized experts on drinking water treatment, sampling, and distribution system operation -- in order to ensure safe and effective management of that system and to restore public confidence.

5. Prior to implementing any transition to KWA water, make an affirmative determination, with appropriate expert advice and an opportunity for public input, that the city has the technical, managerial, and financial capacity to safely and effectively operate its drinking water system, and that all necessary infrastructure upgrades, analysis, and testing have been completed, in order to ensure a safe transition to KWA.

To help ensure transparency and accountability, the EPA will work with the city in the near term to oversee and participate in the collection of Lead and Copper Rule drinking water samples by Flint residents, will have these samples analyzed in a certified laboratory, and will provide this data to the public, with appropriate protections for personally identifiable information. Further, the EPA will conduct additional, sequential sampling at locations throughout the distribution system, which will be used to further inform the treatment optimization process. The EPA underscores that the state and city ultimately will need to work with independent recognized experts to undertake a broader effort to fully assess and verify the safety of Flint's drinking water system-wide.

The steps outlined above are essential to fulfill our shared interest in the protection of public health against further harm from drinking water contamination, and to restoring public confidence that the ongoing drinking water crisis will be promptly and fully remedied. I expect to receive prompt written notice of the state's intention to promptly and fully comply with the requirements of the Order.

Sincerely,



Gina McCarthy

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML

bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Subject: FW: Blood Lead Testing Supplies - Flint Water - RUSH - J & B Medical Quotation
Attachments: Genesee County 01-25-16.xls

Thank you Sue, Barb Bidigare just provided me the info on the test kits, and yes they are the Lead Care II,

Regarding the table covers, they actually need something that would resemble a place matt, something easy to dispose of instead of an entire table cover.

Please look into this for us and provide any information you obtain.

Thank you

Subject: FW: Blood Lead Testing Supplies - Flint Water - RUSH - J & B Medical Quotation

Shirley –

Attached is the J & B Medical quotation and information in the email below for the items DHHS requested (excluding #5 micro-cuvettes), pending the agency's confirmation of the model nos.

If the 2" x 2" gauze squares that are on contract are not acceptable, J & B can order the 1" x 1" gauze squares for you.

As soon as DHHS confirms the specific models, I will forward them to J & B Medical to update their quote.

Thank you.

Subject: RE: Blood Lead Testing Supplies - Flint Water - RUSH - Need Emergency Contact

Good Morning Sue,

We can have the gloves, bandaids (both sizes), alcohol preps, and gauze sponges delivered today if needed. We have a driver standing by right now.

Regarding the quote, the only item I haven't included is the Microcuvettes.

Please note on the 1" x 1" square gauze, I quoted a 2" x 2" gauze that is on the contract because we have them in stock and ready to ship out. We didn't have any 1" x 1" gauze on hand. I hope this will work.

On the Leadcare II items, we can order these today and they will ship to us tomorrow. We should have them here by the end of this week.

I quoted a few different sizes on the table covers, these are all plastic backed. The manufacturer has a facility in Westland, MI and they said they would work with us to get product out asap to Flint.

Thank you,
Chris Respondek

Good Morning Sue,

I received your email and I'm working on this right now. Is it possible to obtain the information on the plastic backed table covers and Micro-cuvettes as well? The table covers come in a wide variety of sizes and the micro-cuvettes have a few manufacturer's and these usually work with specific test kits.

Thank you,
Chris Respondek

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Hi Melissa,

Thank you for taking the time to talk with me today! I have added your email and Tara's email to the online accounts for the DEQ. You both should have a welcome email in your in-box.

This will give you both access to all the invoices under the two account numbers. I have a quick guide below on how to use, Where Is My Stuff (WIMS) the new order status platform for VWR online. Please see below for a quick guide on how to access this area of vwr.com.

I wanted to make sure that you both had this account information as well, you have access to both accounts online.

Account [redacted] ships to the main lab.

Account [redacted] ships to the warehouse.

Please let me know if you have any questions.

Best,

Nina

Subject: RE: VWR Lab Bottle Orders

Hi Melissa,

Yes! There is just one order. I have sent it to Tara earlier this week. Please see below for the order confirmation. It does not have the rush shipment charges on it, they will be added to the one invoice that has the 6 cases on it. All other cases have shipped ground and per NASPO, no fees apply. Also, the shipping date on the order is not correct. It is a computer generated shipping date. Tara noticed this before and I just wanted to let you know about it now. Please let me know if you need anything else.

Also, the account number on this order is to the lab address. If they need products delivered to the lab address it will be this account number, if they need them to the warehouse, they do have a separate account number.

Best,

Nina

Tara:

When I log into the system the only invoice I see is the one Nina sent us on Friday. This invoice is for 42 cases of the 150 we ordered.

The other part of the order, 108 cases, show an estimated delivery date of 2/11/2016 **(the original estimated delivery date was 2/9/16)**. There are no rush charges nor shipping charges for this order, so the total should be $11,010.60. (108 cases x $101.95/case)

The six cases that were overnighted to Flint are not yet in the on-line system. Shasta – Is there any way to get at least a verbal on the cost of the shipping for that order?

I don't see any other orders, in the system, for Flint.

Hi Tara,
I'm currently on the phone with our helpdesk. She will send you a temporary password to get onto the site. She advised that you may want to check your spam mail also. You should receive the temporary password within 5 minutes. Should you not receive it please let me know. I'm working on the invoices as well.

Thank you,

Shasta Dixon

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer

(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Hi Melissa,

Thank you for taking the time to talk with me today! I have added your email and Tara's email to the online accounts for the DEQ. You both should have a welcome email in your in-box.

This will give you both access to all the invoices under the two account numbers. I have a quick guide below on how to use, Where Is My Stuff (WIMS) the new order status platform for VWR online. Please see below for a quick guide on how to access this area of vwr.com.

I wanted to make sure that you both had this account information as well, you have access to both accounts online.

Account 80157411 ships to the main lab.

Account 80157410 ships to the warehouse.

Please let me know if you have any questions.

Best,

Nina

Subject: RE: VWR Lab Bottle Orders

Hi Melissa,

Yes! There is just one order. I have sent it to Tara earlier this week. Please see below for the order confirmation. It does not have the rush shipment charges on it, they will be added to the one invoice that has the 6 cases on it. All other cases have shipped ground and per NASPO, no fees apply. Also, the shipping date on the order is not correct. It is a computer generated shipping date. Tara noticed this before and I just wanted to let you know about it now. Please let me know if you need anything else.

Also, the account number on this order is to the lab address. If they need products delivered to the lab address it will be

this account number, if they need them to the warehouse, they do have a separate account number.

Best,

Nina

Cc: Burger, Penelope (MSP) <BurgerP@michigan.gov>
Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

> > To clarify, DTMB Procurement is not in a position to track usage and spend, so we are unable to assist in your response to MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,

Subject: Re: Flint Issue Questions from DTMB Procurement

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

> Chris/Jeanette,
>
> My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the

processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?

8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Barb –After this initial order, will DHHS need to continue to procure the test kits, labels, microcuvettes, etc. on an ongoing basis? I did not know how long this supply of items will cover their needs. I was thinking we should have J & B check with the manufacturers for availability and their standard lead times, for DHHS planning purposes. Please advise. Thanks. Sue

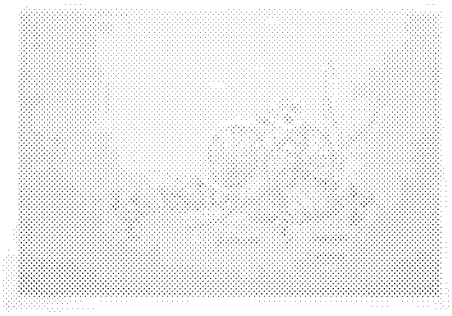
Good Morning,

Here is the revised quote with a new Bath Mat we offer that is also on the contract. These are disposable and plastic like. I think they'll work to meet your needs, and we have exactly 10 cases in stock.

The only remaining item left to price out is the microcuvettes; if you have any information on these it would be greatly appreciated. I can quote one of the versions we sell, but the only way to make certain it will work for your needs is to find out which machine, or which microcuvette is currently being used.

TID950255

TIDI BATH MATS Bath Mat, White Paper, Printed Blue "Shell", 14½" x 20", 500/cs



Available : 10 (Cas)

Thank you Sue, Barb Bidigare just provided me the info on the test kits, and yes they are the Lead Care II,

Regarding the table covers, they actually need something that would resemble a place matt, something easy to dispose of instead of an entire table cover.

Please look into this for us and provide any information you obtain.

Thank you

Shirley –

Attached is the J & B Medical quotation and information in the email below for the items DHHS requested (excluding #5 micro-cuvettes), pending the agency's confirmation of the model nos.

If the 2" x 2" gauze squares that are on contract are not acceptable, J & B can order the 1" x 1" gauze squares for you.

As soon as DHHS confirms the specific models, I will forward them to J & B Medical to update their quote.

Thank you.

Subject: RE: Blood Lead Testing Supplies - Flint Water - RUSH - Need Emergency Contact

Good Morning Sue,

We can have the gloves, bandaids (both sizes), alcohol preps, and gauze sponges delivered today if needed. We have a driver standing by right now.

Regarding the quote, the only item I haven't included is the Microcuvettes.

Please note on the 1" x 1" square gauze, I quoted a 2" x 2" gauze that is on the contract because we have them in stock and ready to ship out. We didn't have any 1" x 1" gauze on hand. I hope this will work.

On the Leadcare II items, we can order these today and they will ship to us tomorrow. We should have them here by the end of this week.

I quoted a few different sizes on the table covers, these are all plastic backed. The manufacturer has a facility in Westland, MI and they said they would work with us to get product out asap to Flint.

Thank you,

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Hi Melissa,

Thank you for taking the time to talk with me today! I have added your email and Tara's email to the online accounts for the DEQ. You both should have a welcome email in your in-box.

This will give you both access to all the invoices under the two account numbers. I have a quick guide below on how to use, Where Is My Stuff (WIMS) the new order status platform for VWR online. Please see below for a quick guide on how to access this area of vwr.com.

I wanted to make sure that you both had this account information as well, you have access to both accounts online.

Account 80157411 ships to the main lab.

Account 80157410 ships to the warehouse.

Please let me know if you have any questions.

Best,

Nina

Subject: RE: VWR Lab Bottle Orders

Hi Melissa,

Yes! There is just one order. I have sent it to Tara earlier this week. Please see below for the order confirmation. It does not have the rush shipment charges on it, they will be added to the one invoice that has the 6 cases on it. All other cases have shipped ground and per NASPO, no fees apply. Also, the shipping date on the order is not correct. It is a computer generated shipping date. Tara noticed this before and I just wanted to let you know about it now. Please let me know if you need anything else.

Also, the account number on this order is to the lab address. If they need products delivered to the lab address it will be this account number, if they need them to the warehouse, they do have a separate account number.

Best,

Nina

Hi Melissa

See the attached we got from VWR today, in which they claim we are owed 52 cases from our original VWR order of 150 cases, with an expected ship date of 2/11. We received an order in Flint today, I think it was 56 cases.
We can't wait until 2/11 or 2/12 to receive the remaining 52 cases from the original order at the rate we've been going through the bottles.

Are the 6 cases mentioned in your note below from a new order you just placed?

Thanks!

Subject: RE: Test Kit Bottles

There were six (6) cases shipped overnight to Flint, on a separate order. We are working with VWR to receive the invoice for details.

There are currently 102-108 cases scheduled for delivery between 2/9/16 and 2/11/16. I'm working on verifying the exact date of delivery and whether the six overnighted cases came from this original 150 case order.

All new lot numbers will have one case delivered to the DEQ lab for testing.

Through VWR, we only pay shipping charges for *EXPEDITED* shipping. Normal shipping (those of the 42 cases already delivered and of the upcoming 102-108) is free.

Tara and I will work on placing an order for an additional 20,000 bottles and forward the details.

If you have any questions, please do not hesitate to contact me.

Melissa & Tara

Please note that we need to ensure that 1 case of each lot number gets shipped to the DEQ lab so they can do "lot-testing" for quality assurance purposes, in case you weren't aware of that. Thanks

Mitch

Looks like we are ok with quantity. As soon as I can verify we have enough instruction sheets and labels, I'll probably bring in resources (tomorrow or Wednesday) to make sure we have enough test kits and don't run out. Current quantity of prepped kits

should last at least a couple of days. Institution sampling will start to go through bottles fairly quick starting the weekend after next and we'll have to monitor to make sure we maintain enough assembled kits to meet demand.

OK. See attached spreadsheet. I believe the shipment received are the two top in the highlighted area. The shaded area are the numbers Nina advised were shipping. So there is an error somewhere with 6 extra cases if Bonnie is reporting accurately. Anyway, we have the remaining order of 58 cases still to come in. Hopefully Shasta will get back to us with shipping estimates and accurate quantities.... Does it appear we are holding up with demand now with ample cushion?

Thank you.

No one assigned to ARC today. We have about 6,000 assembled kits currently. Trying to find out when shipments will be received so we can plan to finish up all of the kits without delay. Resource(s) will be deployed to ARC in the near future to finish up that activity.

I was just told that was a shipment of 56 cases. There should be 144 bottles to a case. I believe this is the second to last shipment we have with VWR at this time. Is someone assigned to ARC today? These should be the same lot as the last shipment. Of course must be confirmed with each case.

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

Hi Lisa

Your vendor name is spelled incorrectly in MAIN. Please see if it's possible for you to correct it. If unable to, you'll want to call the helpline at 1-888-734-9749 and have them correct it. It shows up as [redacted] EXPRESS INC

The mail codes say ready to prenote, so the EFT portion should be all set. Please let me know if further questions. Thanks, Mary Jo

Hi Lisa

I'm sending a reminder about the vendor registration with the State of Michigan. We were able to procure the large bottle order on the credit card last week only as an emergency purchase. If there is a chance we'll need to place future orders with you for this item, we would need you registered in our system to issue a purchase order. I don't see as of today that your company has registered. Thank you for your assistance. Feel free to contact me again once registered. Mary Jo

Hi Lisa

Per our conversation here is the link to register with the State. If you have questions during registration let me know and I'll see if I can locate a direct contact for you to work with.

Once registration is complete and I'll follow up with the registration office to confirm we have all necessary information from you. Thank you for your prompt response with this order and process. Mary Jo

Vendors can register and sign up for the Electronic Funds Transfer (ETF) authorization at: www.cpexpress.state.mi.us

Any vendor questions about the registration or EFT authorization process should be directed below.

Subject: RE: BPC3174 availability

Kirby,
I just spoke to Pete and he also offered the BPC1172, which is our certified version of the BPC3174. I can offer this at the same exact cost and each bottle will have a bottle number and lot number on the box. We will have 100 cases of the BPC1172 ready to ship Friday if needed. I understand that you need to test them first so I've asked Pete to send some free samples to your attention for delivery tomorrow.
http://www.envexp.com/products/11-Sample%20Collection/2323-Sample_Collection_Containers/32P-Plastic_1000mL/BPC1172-HDPE%2C_63mm_Nat_WM%2C_32oz%2C_1L%2C_72%7CC

We believe that the BPC1172 is a better option for you since we have closer control over the certification process/lot control. BPC3174 is that same bottle as it comes in from our supplier.
I appreciate your patience. Pete also said that we could guarantee the same lot number on the balance of the other 200 cases. I do need to get a possible ship date from him still
Lisa

Sent: Thursday, January 14, 2016 10:22 AM
To: Riley, Lisa
Subject: RE: BPC3174 availability

Thanks, Lisa – On the 300 cases that I may need, I will confirm with you today if I need to order these. There is a possibility that someone else may order these and not me. I will provide that individual the attached quote that you sent as reference. Can you please confirm the following again if possible.

100 cases available for immediate shipment and all of the cases are the same lot# (this would be the immediate need)
150 cases available next week and lot# if you can find out.
50 cases available by end of month and lot# if you can find out.

If we order these, deliveries will be made to an address in Flint, MI. If all bottles are from the same lot# as the case that was shipped to us already, they can all be shipped to this address in Flint, MI. If any case is of a different lot#, we must lot test here at the Lab first. Let me know if this is not clear.

Subject: RE: Warehouse for Sample Storage
Attachments: 160127230206.pdf; 3306 N. MLK, Lansing Warehouse.pdf

Attached is a copy of the rental agreement that Paul has signed and sent to DTMB Real Estate for their signature and finalization. We will have access 2/1/2016 which is next Tuesday. I will work with Carol Smith and the landlord/Real Estate on the details of gaining keys/access to the site.

The DEQ's intention is to only use the garage space so we will be securing that space separately from the house. DTMB Real Estate is in discussions with DHHS regarding some of their staff utilizing the house for the same criteria, Flint related and temporary. If in fact they decide they have interest in entering into this agreement, we would discuss any concerns prior to creating an MOU with DHHS. I have made it clear what we want to keep the spaces secured separately and that we would need the driveway free and clear to allow access to the garage bays for the daily activity of the pallets of water samples form the Lab. I will keep you posted if that progresses any further.

I will pass along the FINAL rental agreement once we receive it.

Please let me know if you have any questions or concerns.

Thanks

MK

Agreement #11870 - 2016

RENTAL AGREEMENT

Between

GAMUT GROUP LLC

A Michigan Limited, Liability Company

and the

State Of Michigan

THIS RENTAL AGREEMENT (hereinafter referred to as "Agreement") is entered into by and between **Gamut Group LLC**, a **Michigan Limited Liability Company**, as Landlord, whose address is **5591 Creekwood Lane, Haslett, Michigan 48840**, and the State of Michigan, by the Department of Technology, Management & Budget, whose address is 7150 Harris Drive, Suite 3B, Dimondale, MI 48821, for the Department of **Environmental Quality (MDEQ)**, as Tenant, and establishes the following terms, conditions, performance obligations, and covenants between the parties:

1. Premises & Rent –
   - 1.1 Landlord hereby rents to Tenant approximately **1,600** usable square feet of warehouse space and **1,200** usable square feet of office space for a total of **2,800** usable square feet, as further described in Attachment "A" to this Agreement, in the building commonly known as **3306 N. MLK, Lansing, MI 48906** (the "Premises"). The Tenant shall further have non-exclusive use of the parking areas, entrances, hallways, and the restroom facilities of the Premises in common with the Landlord and/or other tenants of the Premises.

   - 1.2 Tenant shall pay to Landlord rent at the rate of **One Thousand Two Hundred and 00/100 Dollars ($1,200.00)** per month. Rent consideration installment payments shall be made during the month for which the installment applies.

2. Term - The term of this Agreement begins on **February 1, 2016** and ends on **January 31, 2017**, subject to the cancellation provisions of this Agreement.

3. Holding Over - In the event Tenant remains in possession of the Premises after the expiration or termination of the Agreement (not to exceed 6 months), it shall be deemed to be occupying the Premises as a Tenant from month-to-month, subject to all conditions, provisions and obligations of this Agreement, and the rent shall remain the same as the monthly rent owing at the end of the Agreement.

4. Cancellation - This Agreement may be cancelled by the Tenant upon ninety (90) days written notice to the Landlord delivered to the address as set forth under the "Notices" Section of this Agreement, or to such other address as either party may designate in writing for the delivery of notices under this Agreement. This agreement will supersede and cancel all prior agreements.

Upon cancellation or termination of this Agreement, the Tenant shall clean the Premises to "broom-clean condition", and shall remove all Tenant furnishings from the Premises. Furnishings remaining in or on the Premises after the cancellation or termination effective date shall be considered abandoned property, and the Tenant shall be obligated to pay the Landlord for all reasonable removal costs.

5. Services and Responsibilities of Landlord - **Landlord shall furnish the following at its own expense:**
   - 5.1 Heating, mechanical ventilating, cooling (office space only), capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall.
   - 5.2 Electric service for lights, office machines, and all other electrical equipment. Lighting to be a minimum of 50-foot candles, maintained at desk level. Replacement of light bulbs and tubes as needed.
   - 5.3 Provide and maintain any equipment required by the Fire Inspector for fire prevention and safety.
   - 5.4 Kitchen/break-room access
   - 5.5 Commercial grade, heavy duty locking hardware. Prior to Tenant possession, all doors providing access to the Premises shall be rekeyed and two (2) keys per lock combination shall be provided to the Tenant. **Landlord shall be able to access all perimeter gates in case of emergency (MDEQ shall provide keys).**

6. Services and Responsibilities of Tenant - **Tenant shall furnish the following at its own expense:**
   - 6.1 100% payment for metered public utilities used for heating, cooling, illumination, power and water and/or sewer used in the premises.
   - 6.2 Janitorial supplies, equipment, personnel, and supervision to provide cleaning services".
   - 6.3 Snow removal from driveways, steps, porches, walkways, exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance.
   - 6.4 Removal of trash and refuse from the dumpsters on Premises.
   - 6.5 Pest Control.
   - 6.6 Telecommunication & Internet services, desk-top telephones, usage of printer/copier/fax machines
   - 6.7 Desktop supplies, postage, and office equipment/furniture (if applicable).

7. Repair and Maintenance -
   - 7.1 The Tenant shall notify the Landlord or his agent of the need for any repairs or replacements, which are not the responsibility of the Tenant to make. Landlord is to provide a list of telephone numbers (ESCR form) to call for maintenance services, including a number for window breakage, if needed.
   - 7.2 The Tenant shall reimburse the Landlord for any repairs to the Premises from damage which exceeds normal wear and tear to be expected from lawful and proper use of the Premises and the sole cause of which was the negligent acts or omissions of Tenant's employees or clients.
   - 7.3 The Tenant shall be responsible for the following repair and maintenance operations: NONE.

7.4 Alterations & Improvements – **MDEQ to provide a gate on the SW Corner of the leased property at their discretion.**

8. Landlord Obligations -

8.1 Governmental Compliance - Landlord represents and warrants that the Premises will comply with all applicable governmental laws, rules and regulations during the term of this Agreement including, but not limited to, applicable codes and use permits.

8.2 Fire Inspection Report - Landlord shall provide to Tenant, a written fire inspection report dated within five years of the Effective Date on this Agreement, approving the Premises for occupancy.

8.3 Authority to Bind - Landlord represents and warrants that it has legal ownership and authority to enter into this Agreement, and shall provide a recorded warranty deed and/or other documentation necessary to confirm ownership and authority.

8.4 Insurance - Landlord is required to provide proof of General premises liability insurance for the Premises identified in Paragraph 1, which provides full coverage for the Landlord, the Tenant, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Premises. The Landlord agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Landlord shall provide to the Tenant a certificate of insurance listing the Tenant, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Agreement to the Landlord. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Tenant.

8.5 Rent With-Holding - If the Landlord fails to provide supporting documentation, as required by Paragraphs 7.1, 8.2, 8.3 and 8.4, ten percent (10%) of the monthly rent consideration shall be held by the Tenant, until the required documentation is provided to the Tenant.

9. Public Policy Provisions -

9.1 Non-Discrimination - Landlord shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq., the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq., and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this Agreement, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Landlord agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this Agreement.

9.2 Utilization of Public Facilities by Physically Limited - Premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq.

9.3 Unfair Labor Practices - This Agreement may be canceled by Tenant if Landlord or any subcontractor, manufacturer or supplier of the Landlord appears in the

register compiled by the State of Michigan pursuant to 1980 Public Act 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act). A breach of this covenant is a material breach of this Agreement.

9.4 Electronic Funds Transfer - Public Act 533 of 2004 requires that payments under this Agreement be processed by electronic funds transfer (EFT). Landlord is required to register to receive payments by EFT at the Contract & Payment Express website (www.mi.gov/cpexpress) or call (888) 734-9749 to receive payments by EFT.

10. Notices - Any notice to Tenant required by this Agreement shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested, or by a nationally recognized overnight delivery service. Unless either party notifies the other in writing of a different mailing address, notice to the Landlord and/or Tenant shall be transmitted to:

The notice shall be deemed on either (i) the third business day following the date of mailing, if transmitted by mail or (ii) the date on which the noticed party receives or refuses receipt of the notice, if transmitted by personal delivery, or a nationally recognized overnight delivery service. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

11. Miscellaneous Provisions -

11.1 Governing Law - This Agreement shall be governed by and interpreted in accordance with the laws of the State of Michigan.

11.2 Mutual Drafting - This Agreement shall be interpreted and construed as drafted mutually by both parties.

11.3 Entire Agreement - This Agreement, with all Attachments as listed herein, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing, signed by each party.

11.4 Severability - Should any provision of this Agreement or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision

shall be severed from the remainder of the Agreement, and such action shall not affect the enforceability of the remaining provisions of the Agreement.

11.5 Waiver - Failure to enforce any term of this Agreement shall not be deemed a waiver of the enforcement of that or any other term of this Agreement.

11.6 Effective Date - The Effective Date of this Agreement is the date signed by the Real Estate Director of the Department of Technology, Management & Budget.

11.7 Binding Effect - This Agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators and assigns of Landlord and Tenant.

11.8 Counterparts - This Agreement may be executed in counterparts, each which shall be deemed an original, and all of which together shall constitute one and the same agreement. An electronic, scanned or facsimile signature shall be deemed an original.

11.9 Assignment - The Tenant, through its Department of Technology, Management & Budget may assign or reassign any or all of the Premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Landlord.

12. Attachments -

Sadi
Flint samples are only for copper and lead.
Please comfirm that those are the only ones you need added?
In addition, labs must have drinking water certification in order to perform drinking water analysis.
Who asked for this?

Subject: RE: 2016 Lab Contract RFP

Hi, Kirby/Carol.

We have been asked to add the drinking water tests to the current lab contracts. We'll need to add the appropriate parameters and acceptable methods if not already in the contracts. Could we have somebody from the lab go through the parameters included in the contracts and see if we need to add new ones or new methods to address drinking water samples specially from Flint?
Thanks

Sadi Rayyan

Sadi
Flint samples are only for copper and lead.
Please comfirm that those are the only ones you need added?
In addition, labs must have drinking water certification in order to perform drinking water analysis.
Who asked for this?

Subject: Test Kit Bottles
Attachments: Flint Water Sample Testing Bottles.xlsx

Update 1/27/16 – Shipments as follows:

1. 10 cases (600 bottles) are ready to be shipped out for delivery on Monday, 2/1/16 – 1 case to be delivered to Kirby for lot verification
2. 325 cases (19,500 bottles) will be assembled and delivered no later than Friday, 2/5/16 – 1 case to be delivered to Kirby for lot verification

These two deliveries will sandwich the VWR delivery, scheduled for Wednesday 2/3/16. I will set up a weekly conference call to review inventory and need going forward.

Also attached is an updated spreadsheet encompassing the above shipments. Thank you.

Looks like we are ok with quantity. As soon as I can verify we have enough instruction sheets and labels, I'll probably bring in resources (tomorrow or Wednesday) to make sure we have enough test kits and don't run out. Current quantity of prepped kits should last at least a couple of days. Institution sampling will start to go through bottles fairly quick starting the weekend after next and we'll have to monitor to make sure we maintain enough assembled kits to meet demand.

OK. See attached spreadsheet. I believe the shipment received are the two top in the highlighted area. The shaded area are the numbers Nina advised were shipping. So there is an error somewhere with 6 extra cases if Bonnie is reporting accurately. Anyway, we have the remaining order of 58 cases still to come in. Hopefully Shasta will get back

to us with shipping estimates and accurate quantities…. Does it appear we are holding up with demand now with ample cushion?

Thank you.

No one assigned to ARC today. We have about 6,000 assembled kits currently. Trying to find out when shipments will be received so we can plan to finish up all of the kits without delay. Resource(s) will be deployed to ARC in the near future to finish up that activity.

Subject: RE: Test Kit Bottles

I was just told that was a shipment of 56 cases. There should be 144 bottles to a case. I believe this is the second to last shipment we have with VWR at this time. Is someone assigned to ARC today? These should be the same lot as the last shipment. Of course must be confirmed with each case.

No, we would like testing capabilities beyond just copper and lead. Per Bob & Sue, please add language that allows for DW testing capability per Water Quality Parameters as related to the SDWA.

Thank you!

Sadi
Flint samples are only for copper and lead.
Please comfirm that those are the only ones you need added?
In addition, labs must have drinking water certification in order to perform drinking water analysis.
Who asked for this?

Subject: RE: 2016 Lab Contract RFP

Hi, Kirby/Carol.

We have been asked to add the drinking water tests to the current lab contracts. We'll need to add the appropriate parameters and acceptable methods if not already in the contracts. Could we have somebody from the lab go through the parameters included in the contracts and see if we need to add new ones or new methods to address drinking water samples specially from Flint?
Thanks

Subject: SciSpec Bottle Shipment

Tara:

I spoke with Eric at SciSpec regarding the bottle order for Flint water testing. He confirmed, 39 cases were shipped to Flint and 1 case was shipped to the Lab on Thursday, January 28. The carrier is Pitt-Ohio with a tracking number of BLT-5009373385. Delivery is scheduled for Monday, February 1.

The balance of bottles should be shipped by Friday, February 5, for delivery Tuesday, February 9.

Subject: RE: Urgent Request

Hi Dave,

I am checking with Mark Ducharme. We appreciate the strong support from the Red Cross and all the great volunteers! However, logistically, I do not think we could use that many volunteers to assemble the kits. Based on our storage and work space limitations; I think about 50 volunteers is the maximum we could use to assemble water sampling kits and that is only my opinion.

I am waiting to hear from Mark Ducharme on the logistics on our end to see if we can make this work today or not.

Thanks again for all the great help!

Subject: Urgent Request

Hi,
We have a group of 100 volunteers coming to the Red Cross on Wednesday February 3 from 4:00pm until 7:30pm
Is there anyway we could get a DEQ staff member along with the bottles and supplies to accommodate this group?
Thank you
Dave

Subject: Verification that Lot Number in Warehouse Has Been Lot Tested

Department of Corrections has verified for us that the 1L plastic bottles in the warehouse on Clio Rd are good to be assembled into test kits. The lot number at the warehouse is: 011816-05, which per earlier conversation with Kirby, corresponds to DEQ lot # 0210.

Mark - let us know if you need more labels with lot # 0210, although I think we should be good.

Go forth and turn these bottles into kits, please and thank you! Thanks also to Corrections for their continued assistance!

Kirby,

Attached is the Excel sheet (Sheet 1) from Mark. Showing expected deliveries on Monday, Wednesday and Friday this week. Looks like two out of the three deliveries (Monday and Friday) are from Scientific Specialities with 60 to the lab. The delivery on Wednesday was not identified. I will do my best to keep you posted.

Mark, please fill in when you can.

Great job Loren. Our next IAP will contemplate these actions and I'll make sure you all are clear on command and general staff responsibilities going forward. Your responsibilities will be to identify the resources you need (including volunteers) and when, then pass them to me and Genesee County EOC Logistics Section Chief will order them up. If this process is not followed, we will not have any volunteers available. This will also include transportation of bottles between the warehouse and red cross. Dept. of Corrections is on auto pilot for sample delivery to the lab and subsequent analysis. As such we do not want to mess with a process that is working.

By way of this email, I'm requesting Kirby to email you (and copy me) when and which lots are tested, cleared, and labels printed.

Please give me a call Monday or Tuesday late morning so we can talk about some of this.

Thanks Loren.

Subject: Re: Flint Response

Ok, based on my reading of Sheet 1 the following shipments of bottles are coming in next week and Mark asked me to coordinate the work effort:

1. Monday 2/1 540 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Tuesday 2/2.

2. Wednesday 2/3 7,488 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Thursday 2/3.

3. Friday 2/5 19,440 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Sat 2/6.

These bottles total 27,468. I would estimate approx. 4,000 completed per day during the weekdays and 8,000 to 10,000 on Saturday. It all depends on volunteer resources and supply coordination.

Based on the above shipments and pending lab tests, I would propose kit assembly on the following tentative days:

Thursday, Friday and Saturday this week. Followed by Monday and possibly Tuesday next week.

For IM staff to oversee and coordinate the kits, we would need one staff member on Thursday, Friday, two staff on Saturday and one on Monday and Tuesday next week.

Based on the above work needs, I am proposing the following schedule:

Thursday VanRiper or Scheels (Curtis is not available).
Friday Curtis
Saturday VanRiper AND Scheels (Curtis is not available).
Monday Curtis
Tuesday Scheels or VanRiper

Mark, please send us warehouse and lab contact information for coordinating supplies and lab testing.

Mark, we also need to know how many Spanish lab sampling sheet kits do we need to complete out of these shipments.

Once I know everything is in place on our end with supplies and lab testing; I will contact the Red Cross and let them know how many volunteers we need. During the week, I am anticipating about 25 - 30 and on the weekend about 40 - 50 volunteers.

All scheduling and planning are tentative and open for further discussion.

Thanks everyone!

Kirby,

Attached is the Excel sheet (Sheet 1) from Mark. Showing expected deliveries on Monday, Wednesday and Friday this week. Looks like two out of the three deliveries (Monday and Friday) are from Scientific Specialities with 60 to the lab. The delivery on Wednesday was not identified. I will do my best to keep you posted.

Mark, please fill in when you can.

Thanks

Mark/Loren - Are you telling me there are 3 orders of bottles and a case from each order/shipment is coming to the Lab on Monday, Wednesday, and Friday of this week? What vendor(s) are these coming from so we can be on the look out for them. Please make sure the lab is informed as soon as any bottles are ordered, so we can make sure we have the necessary supplies to get these tested and labels printed.

Thanks!
Kirby

Great job Loren. Our next IAP will contemplate these actions and I'll make sure you all are clear on command and general staff responsibilities going forward. Your responsibilities will be to identify the resources you need (including volunteers) and when, then pass them to me and Genesee County EOC Logistics Section Chief will order them up. If this process is not followed, we will not have any volunteers available. This will also include transportation of bottles between the warehouse and red cross. Dept. of Corrections is on auto pilot for sample delivery to the lab and subsequent analysis. As such we do not want to mess with a process that is working.

By way of this email, I'm requesting Kirby to email you (and copy me) when and which lots are tested, cleared, and labels printed.

Please give me a call Monday or Tuesday late morning so we can talk about some of this.

Thanks Loren.

Subject: Re: Flint Response

Ok, based on my reading of Sheet 1 the following shipments of bottles are coming in next week and Mark asked me to coordinate the work effort:

1. Monday 2/1 540 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Tuesday 2/2.

2. Wednesday 2/3 7,488 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Thursday 2/3.

3. Friday 2/5 19,440 bottles to the warehouse. These bottles may be ready to be assembled into kits pending lab tests on Sat 2/6.

These bottles total 27,468. I would estimate approx. 4,000 completed per day during the weekdays and 8,000 to 10,000 on Saturday. It all depends on volunteer resources and supply coordination.

Based on the above shipments and pending lab tests, I would propose kit assembly on the following tentative days:

Thursday, Friday and Saturday this week. Followed by Monday and possibly Tuesday next week.

For IM staff to oversee and coordinate the kits, we would need one staff member on Thursday, Friday, two staff on Saturday and one on Monday and Tuesday next week.

Based on the above work needs, I am proposing the following schedule:

Thursday VanRiper or Scheels (Curtis is not available).
Friday Curtis
Saturday VanRiper AND Scheels (Curtis is not available).
Monday Curtis
Tuesday Scheels or VanRiper

Mark, please send us warehouse and lab contact information for coordinating supplies and lab testing.

Mark, we also need to know how many Spanish lab sampling sheet kits do we need to complete out of these shipments.

Once I know everything is in place on our end with supplies and lab testing; I will contact the Red Cross and let them know how many volunteers we need. During the week, I am anticipating about 25 - 30 and on the weekend about 40 - 50 volunteers.

All scheduling and planning are tentative and open for further discussion.

Thanks everyone!

Hello Penny,
I appreciate your forwarding information about the BPD1172 bottles that has been used as a sample collection container for the Flint crisis. We currently have 300 cases available with the same lot number that they received on the past shipments for the DEQ. Thank you for sending this info on.
I appreciate it.

Hi Lisa

We agree to pay the extra charge for overnight shipping. Please proceed to ship the 100 cases 1/9 for deliver to Clio Rd on 1/20, and ship the 200 cases on 1/21 for delivery on 1/22. You can use your own UPS account. Please provide tracking info as soon as available.

I will call you about the additional 140 cases we need to order. Ship date of 1/28 or 29 is too long, I need to see if we can get sooner from elsewhere. Thanks!

Cc: MSP-EOC-MDEQ; Wolf, Jennifer (DNR)
Subject: RE: Expediting sample Bottle Shipment from Environmental Express (EE)

Mitch,
The freight estimate for 100 individual cases would be $6,000 to ship UPS overnight. They would ship 1/19 for delivery 1/20. The overnight freight estimate for the 200 cases would be $12,000 to ship 1/21 and deliver 1/22. If you have a UPS account number that you prefer to use, we could use that instead? We would need to know soon (by 2PM ET) today if you prefer to ship UPS overnight versus LTL carrier for the 100 cases to get a large enough UPS truck in here.

ETA on another 10K or 138+ cases would be a ship date of 1/28 or 29. We already have 43,000 on order since this is one of our most common items.

Hi Lisa - You should have received a voicemail from one of my colleagues, Mitch Adelman, regarding the 400 cases of 32oz wide mouth bottles BPC1172 we ordered. See email below. I know you gave me an estimate on delivery for 100 shipping immediately, another 100 to ship on 01/21/16 and remaining 200 to be determined. Do you have any ideas on how we can get the remaining 300 cases shipped ASAP. Can you find out for me if there is a bottle manufacturing issue, bottle certification issue, or assembly issue (caps on bottles). We are working under a Federal Emergency. I am not in the office tomorrow, 01/18/16, but will be checking my emails.

Thank you,
Kirby

Hi Lisa

We agree to pay the extra charge for overnight shipping. Please proceed to ship the 100 cases 1/9 for deliver to Clio Rd on 1/20, and ship the 200 cases on 1/21 for delivery on 1/22. You can use your own UPS account. Please provide tracking info as soon as available.

I will call you about the additional 140 cases we need to order. Ship date of 1/28 or 29 is too long, I need to see if we can get sooner from elsewhere. Thanks!

Subject: RE: Expediting sample Bottle Shipment from Environmental Express (EE)

Mitch,
The freight estimate for 100 individual cases would be $6,000 to ship UPS overnight. They would ship 1/19 for delivery 1/20. The overnight freight estimate for the 200 cases would be $12,000 to ship 1/21 and deliver 1/22. If you have a UPS account number that you prefer to use, we could use that instead? We would need to know soon (by 2PM ET) today if you prefer to ship UPS overnight versus LTL carrier for the 100 cases to get a large enough UPS truck in here.

ETA on another 10K or 138+ cases would be a ship date of 1/28 or 29. We already have 43,000 on order since this is one of our most common items.

Hi Lisa

Thanks for bumping up the shipping of 100 cs to 1/19 from 1/21, and the remaining 200 to 1/21. We will let you know as soon as we can whether we will be needing more bottles quickly as we are transitioning to possibly having FEMA ordering supplies. Thanks again!

All,
A little bit of good news. The next 100 have been bumped up to ship on Tuesday, 1/19 and the other 200 will ship on Thursday, 1/21. I will provide PRO #s as soon as I have them. Do you anticipate needing more quickly? If so, we can certainly bring in extra specifically for you.

Hi Lisa - You should have received a voicemail from one of my colleagues, Mitch Adelman, regarding the 400 cases of 32oz wide mouth bottles BPC1172 we ordered. See email below. I know you gave me an estimate on delivery for 100 shipping immediately, another 100 to ship on 01/21/16 and remaining 200 to be determined. Do you have any ideas on how we can get the remaining 300 cases shipped ASAP. Can you find out for me if there is a bottle manufacturing issue, bottle certification issue, or assembly issue (caps on bottles). We are working under a Federal Emergency. I am not in the office tomorrow, 01/18/16, but will be checking my emails.

Thank you,
Kirby

Hi Kirby

We've been directed to expedite delivery of the remaining 300 cases of the outstanding order from EE. I left Lisa Riley a voice mail message this afternoon, not expecting her to be in today, but hoping she may be working tomorrow. If you have any ideas on how we may seek expedited delivery before we have our 1:00 pm call on Tuesday, please let us know.

Thanks

Mitch

Hi,

The shipment received on Tuesday is from VWR. Referenced on line 18 of the attached spreadsheet. The shipment from Scientific Specialties (40 case, line 19) was slated to arrive on Monday, but delivery was attempted several times after 6 pm. It is to arrive by 5 pm today.

The only shipment received and tracked this week is from VWR. Let's talk tomorrow and sort this out.

Thanks, Tara

Hi Tara

Can you please check with Nina at VWR and see if she can help identify which orders arrived at the warehouse this week. MSP says we receive two shipments this week, 1 on Monday and 1 on Tuesday, and we think these are likely VWR bottles, but need some confirmation, and are swamped here. Any assistance you can provides is appreciated. Thanks

Jen/Mitch

Good afternoon.
The last shipment installment of 48 cases to complete your total order for 150 cases of bottles was shipped on 1/28/16 via UPS tracking # 361517402. (The packing slip for the shipment is attached).
We have the weights of the shipment comprised of 6 pallets as well as photographs of the pallets as documentation, each tall pallet containing 9 cases each, and one short pallet containing only 3 cases. (Photographic evidence of the shipment attached).
We follow the VWR Routing guide, so we are not "the shipper", VWR is.
If you are missing only 3 cases, it is possible the short pallet was separated in transit from the rest of the order.
VWR can start a claim for the missing product with UPS, we cannot.

The actual number of un-prepped bottles referenced below (48 cases of 144 bottles) that were received from the warehouse on Wed., 2/3/16 and then shipped to the Red Cross on Wednesday afternoon was 45 cases of 144 bottles. There was no packing slip found on any of the cases. These bottles were assembled on Wed. evening at the Red Cross and were supposed to be shipped back to the warehouse yesterday afternoon. I am going to the Red Cross in a while and will confirm that they were shipped back to the warehouse.

If you have any questions, please let me know.

I want to clarify the count below. It states 225 unassembled bottles, but this shipment from VWR (via C & G Container) should be 6 pallets, 48 cases, 144 bottles per case for a total of 6,912 individuals bottles.

<image005.jpg>

Please advise. Thank you.

Good afternoon.
The last shipment installment of 48 cases to complete your total order for 150 cases of bottles was shipped on 1/28/16 via UPS tracking # 361517402. (The packing slip for the shipment is attached).
We have the weights of the shipment comprised of 6 pallets as well as photographs of the pallets as documentation, each tall pallet containing 9 cases each, and one short pallet containing only 3 cases. (Photographic evidence of the shipment attached).
We follow the VWR Routing guide, so we are not "the shipper", VWR is.
If you are missing only 3 cases, it is possible the short pallet was separated in transit from the rest of the order.
VWR can start a claim for the missing product with UPS, we cannot.

Hi Brian,

Please see below to confirm with you warehouse and copy all with more information. They are short 3 cases.

Best,

Nina

Hi Nina,

The warehouse is contesting the amount of bottles received. They only counted 45 cases instead of 48 and no packing slip was attached with the shipment.

Please advise. Thank you.

The actual number of un-prepped bottles referenced below (48 cases of 144 bottles) that were received from the warehouse on Wed., 2/3/16 and then shipped to the Red Cross on Wednesday afternoon was 45 cases of 144 bottles. There was no packing slip found on any of the cases. These bottles were assembled on Wed. evening at the Red Cross and were supposed to be shipped back to the warehouse yesterday afternoon. I am going to the Red Cross in a while and will confirm that they were shipped back to the warehouse.

If you have any questions, please let me know.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Subject: RE: Outgoing mail & delivery to Flint for DEQ Lab at 3350 N MLK Blvd Lansing

I was contacted late yesterday by Julia Pieper/Lisa Hagerman. They are now sending mass mailings with test results directly from the lab and inquired about how to get postage so they could have someone courier them to flint daily. We were looking for most efficient solution for them to get letters out timely and make sure the lab wasn't spending time performing mail duties when these duties can be done by DMTB.

Was the summary below that Melissa noted already in the works? It didn't seem like mail services was aware of the backlog until today, or had all these details in place to complete the work. If so, I would think the lab managers would have been made aware.

If it works best for Candra and Lisa Hagerman to work together on any further mailing issues, that's fine with me also, but I was asked to help. Thanks, Mary Jo

The Petri Porter

What created this beautiful pattern?

Find out about spalting.

Legionella Strikes Twice

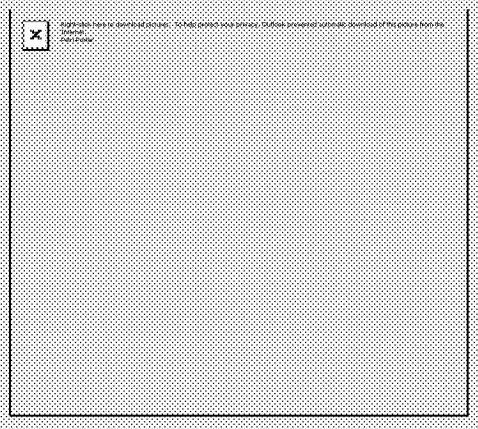
There have been two major outbreaks of Legionnaires' disease in August.

At the beginning of August this year, New York City experienced the worst outbreak of Legionnaires disease in the city's history. More than 120 people were sickened and the lives of 12 were claimed by the *Legionella* bacteria.

Legionella bacteria is a common inhabitant of pond water, wells, rivers, hot tubs, and plumbing systems. The recent outbreak was caused by contaminated water generated by an air conditioning cooling tower at a hotel. *Legionella* is not spread by person-to-person contact. People were infected by breathing the mist emitted from the air conditioning vents.

Symptoms of Legionnaires' disease typically include high fever, chills and a cough, which can lead to a full blown case of pneumonia.

Consequently, the New York City Council passed legislation that would require building owners to conduct quarterly inspections of cooling towers, among other new measures. They had two weeks to comply.



Hardy's Petri Porter will conveniently transport up to 60 standard Petri plates to and from your incubator or refrigerator to the benchtop.

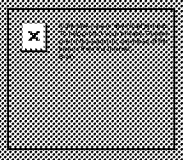
Brainteasers



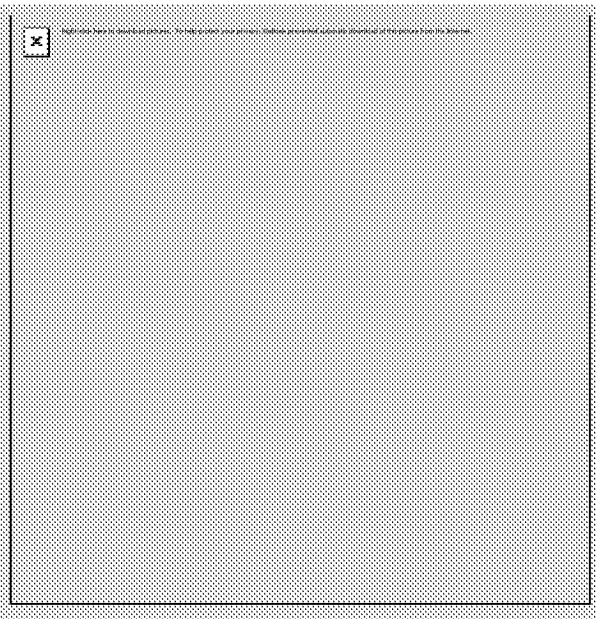
Fungal spores are good for you.

Feel the pain and get the gain here.

Phraseology

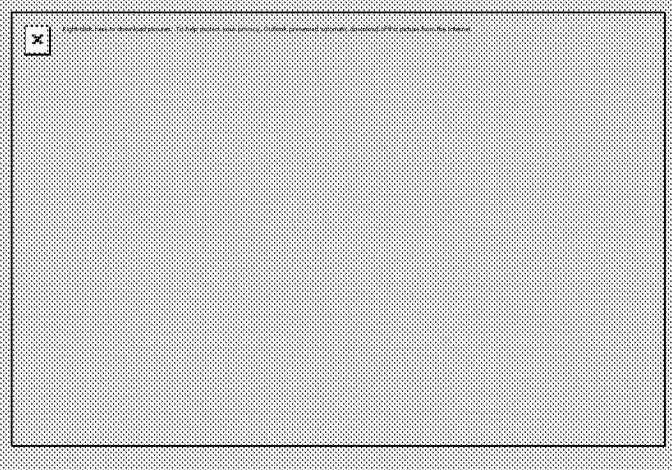
"Graham Cracker"

The Reverend Sylvester



Preliminary testing showed that 20 cooling towers out of more than 135 have been found to contain the *Legionella* bacteria.

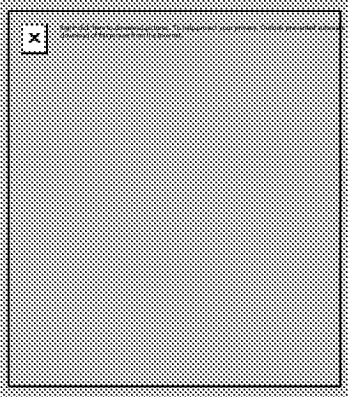
Then, on the heels of the New York outbreak, it was reported that seven prison inmates at the San Quentin prison in California fell ill due to Legionella bacteria.



Prison officials immediately shut down the water system, brought in portable toilets, bottled water and large water tanks to serve thousands of inmates and employees. All cooking has ceased and the inmates are being served boxed meals. The investigation is ongoing.

Below are the products that Hardy Diagnostics

Graham, a Presbyterian minister, was an avid promoter of veganism and healthy living.



In 1829, he invented graham bread, which was made from unsifted flour and free from chemical additives such as alum and chlorine.

Graham argued that chemical additives in bread made it unwholesome. The use of additives by bakeries was a common practice during the Industrial Revolution to make bread whiter in color, and more commercially appealing.

Monitoring Toilets and Cell Phones

These two new unconventional surveillance methods are helping epidemiologists control global disease.

Many infectious diseases such as influenza, rubella, and measles are driven by human population dynamics. Given that the human population is increasing, etiological agents of diseases are infecting at a corresponding rate as well. In addition, the current method of disease surveillance relies heavily on reports produced by physicians or other health professionals who screen infected patients (Gibbons, 2014). These reports are of limited value regarding prevention, since they arrive long after infection has occurred.

Fortunately, research scientists are staying ahead of the curve by using what some may consider unconventional methods -- tracking cell phone global positioning (GPS) data and transportation toilet waste to predict disease patterns. While it may seem like studying cell phone data and screening toilet waste for beta-lactam resistant bacteria using regular surveillance methods are two very different things, the concept behind both methods is the same.

Darker wheat bread was considered the fare of the lower classes. White bread was a status symbol of the middle class because of its "purity and refinement" in its color and was purchased, rather than home-made.

Graham believed that firm bread made of coarsely ground whole-wheat flour was more nutritious and healthy.

Graham's doctrines found later followers in the persons of Dr. John Harvey Kellogg and his brother Will Keith Kellogg. Their invention of corn flakes was a logical extension of the Grahamite (as Graham's followers were called) approach to nutrition.

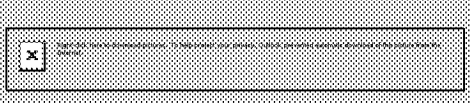
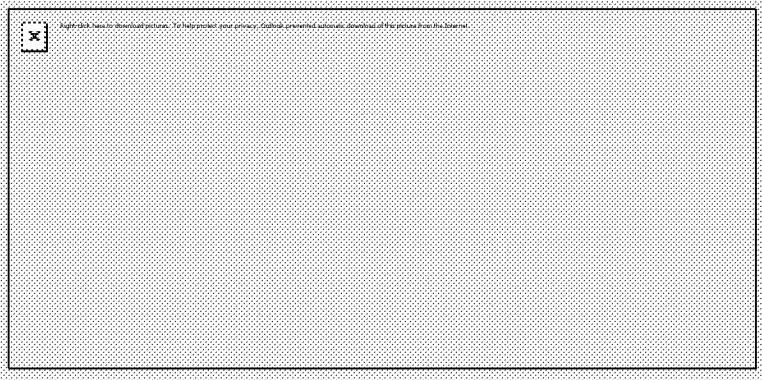
All formats available...

Control Organisms



Hardy offers a complete selection of microorganisms

Both methods study an aspect of human population dynamics: human travel. For example, toilet waste on an airplane, train, or cruise ship can tell researchers a lot about what pathogenic bacteria human hosts are carrying and where they are transporting the bugs. Likewise, cell phones can show human mobility data on travel. When paralleled with the incidence of rubella in Kenya, cell phone tracking data matched patterns of rubella outbreaks (Wesolowski, 2015).



Kenya was a good place to start since 93% of households own a cell phone. Researchers at Princeton and Harvard Universities compared datasets on rubella incidence in Kenya and cell phone data usage for over 15 million anonymous cell phone subscribers for one year, from June 2008 to June 2009. Tracking cell phones allowed researchers to record travel between different Kenyan provinces and view the daily location of each user.

Interestingly, seasonal human travel was highly correlated with seasonal patterns of rubella. University researchers concluded that rubella incidence more commonly occur when children begin to attend school at the end of summer and

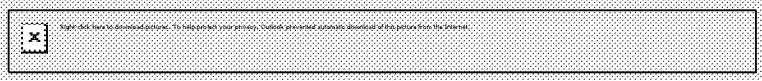
View a short video that explains the advantages.

See the brochure.

when children resume school after major holidays. The researchers of the study expressed confidence that tracking cell phone data usage will be a great tool for exploring wide-scale human travel within countries, and may lead to providing effective localized treatment (Wesolowski, 2015). Furthermore, the researchers at Princeton and Harvard hope to expand their study to other diseases driven by population dynamics, such as malaria and cholera.

In a similar fashion, airplane toilet waste is being used as a method of disease surveillance. Researchers at the National Food Institute, Technical University of Denmark, and DTU Systems Biology conducted a study using septic tanks from 18 aircrafts used for international travel.



Using meta-genomic analysis, the group of researchers generated data using all known antibiotic resistance genes. Moreover, it was found that genes for resistance to beta-lactams, tetracycline, and macrolides were the most common in all the septic tank samples tested (Peterson, 2014).

Furthermore, the study discovered geographical differences in the samples. For example, samples from South Asia and North Asia showed variation in resistance genes detected when compared to one another and when compared to North America. North America showed the greatest abundance of *Clostridium difficile*. Additionally, the composition of particular microorganisms also varied between continents. For example, South Asia had the least

amount of *Clostridium* species when compared to both North Asia and North America, yet it had the highest incidence of *Salmonella enterica* (Peterson, 2014). While cell phone data may provide information about disease in a particular country, toilet waste can reveal information about disease transmission on a global scale.

In the near future, these new, and perhaps unconventional, methods of disease surveillance may bring advantages to predicting disease and antibiotic resistance patterns when combined with traditional culture based methods.

Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Subject: RE: URGENT - EMERGENCY PURCHASES
Importance: High

Hi Marsha,

Per our conversation, I will be increasing the PCard limit for Lisa Hagerman, DEQ Laboratory, to $50,000/$200,000 to cover emergency purchases necessary for the declared emergency in Flint. Per discussion with DTMB, our current laboratory bottle contract is unable to supply the bottles necessary to keep up with demand. We will alternate ordering between vendors as needed to secure the number of bottles necessary.

The off contract vendor that will be supplying bottles is:

ENVIRONMENTAL EXPRESS
2345-A Charleston Regional Parkway
Charleston, SC 29492
Telephone: 843-881-6560
Fax: 843-881-3964

Environmental Express is not currently registered as a vendor with the State of Michigan. PCard purchases will continue until such time as the vendor is able to set up registration.

Please contact me if you have any questions. Thank you.

Subject: URGENT - PLEASE CALL ME ON EMERGENCY PURCHASES
Importance: High

Due to the declared emergency in Flint, I need to make an emergency purchase of laboratory water sample bottles. The vendor is not registered in MAIN and I don't have time to deal with that process. Can we get special authorization to use the PCard? The order(s), may be multiple, will be upwards of $40,000 each.

Please call me. Thanks.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

To: Premoe, Tara (DEQ); Lundy, Anastasia (DEQ); Shane, Kirby (DEQ); Adelman, Mitch (DEQ)
Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a

holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

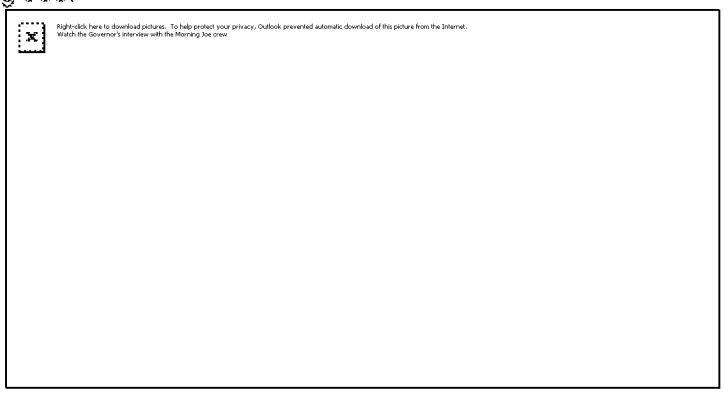
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

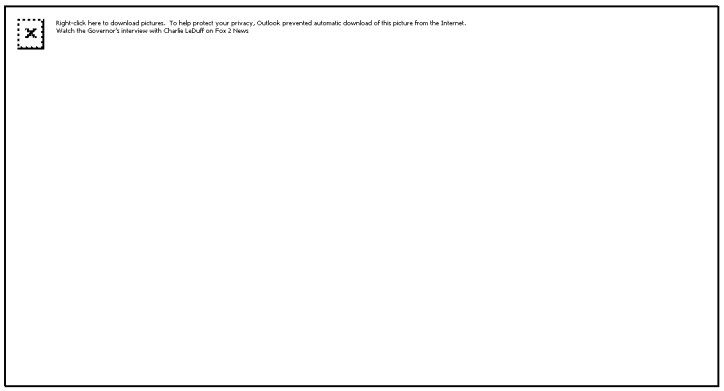
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

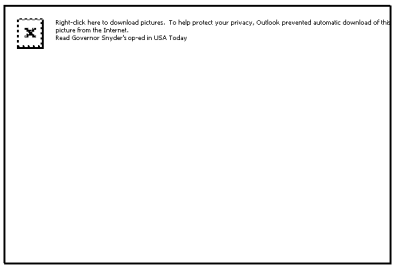
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

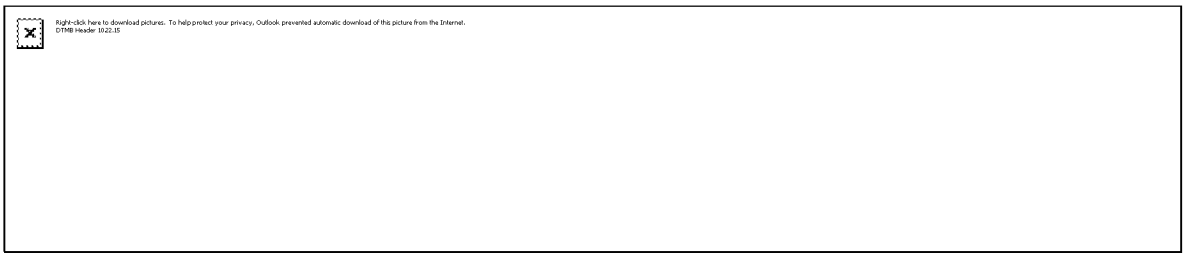
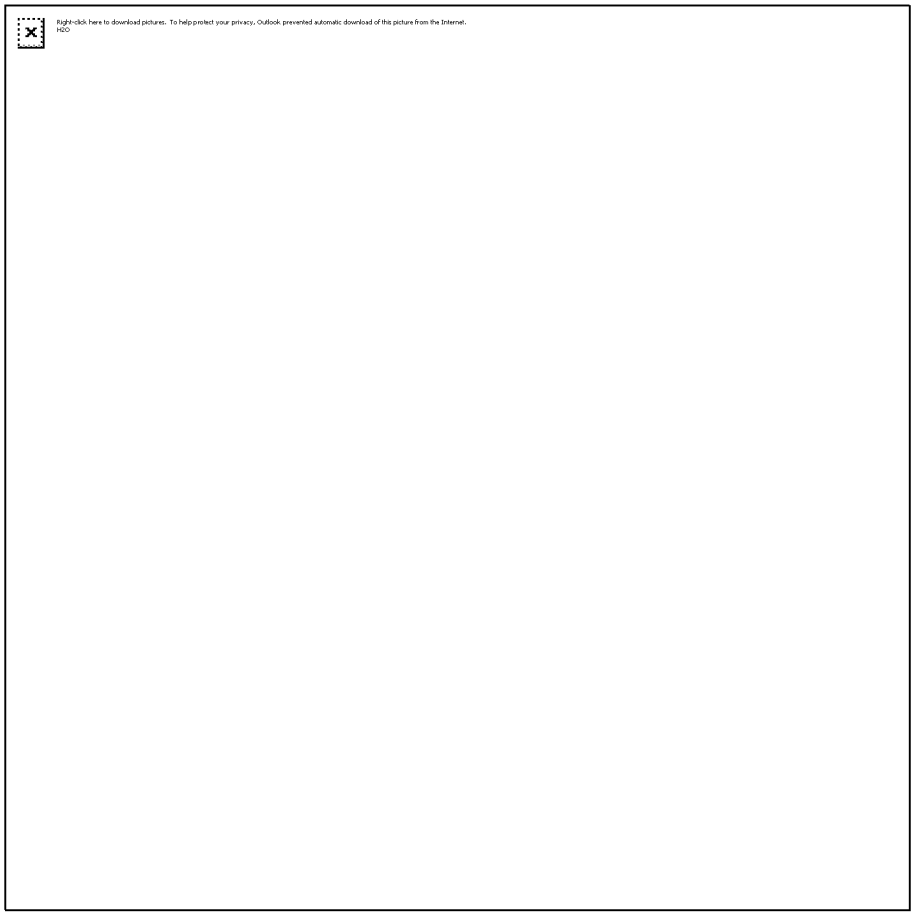
From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Sambiagio, Melissa (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: Vendor Contact

Hi Steve,

The following vendor left me a voice mail message regarding filters and wanted to speak with someone connected to purchasing for Flint:

Maggie Bullard-Marshall
Company: Eldevera (not sure how to spell)
She stated a veteran owned Michigan company
269-271-0280
Water filters - Legionella

As I am not connected to filters, I'm passing this on to you. Thank you.

Tara Premoe

Subject: RE: Animal Disease Response Meeting

Would they be ok if we bumped the meeting out 2-4 weeks?
